W. H. HOWARD LEAVES BELL CO. TO GO INTO COAL BUSINESS

Is Succeeded Here as Division Publicity Manager by J. B. Taft, of Philadelphia

WILLIAM H. HOWARD

J. B. TAFT

Harrisburg learned with regret today of the resignation of W. H. Howard, division publicity manager, who will return to his home town of Bethlehem to manage the large retail coal business of the P. G. King Coal Company, of which eventually he will have a partnership. The business opportunity offered was so unusual that Mr. Howard felt compelled to sever his long connection with the Bell Company. He was first employed by the Bell as cashier of the Reading district in April, 1907, and was promoted to be Bethlehem local manager in July of that year. From that position he was advanced to division publicity manager in August, 1914, which position he has since held with headquarters in Harrisburg and residence at Camp Hill.

Cutting Out Early Buying at Columbia Markethouse

Columbia, Pa., May 2.—Four hundred people assembled in front of the Fourth Street Market here one hour before the time for opening and clamored for admittance. Market Master Bartley declined to admit buyers before the time set by council as the opening hour and his action nearly caused a row among the populace on the outside. The market master was threatened and was told that the crowd would storm the doors, but he remained obdurate and refused to violate the rule to accommodate the buyers. Finally, when the doors were opened, there was a rush for foodstuffs and the farmers reaped a harvest. It is the intention of the authorities to break up the practice of admitting buyers before the regular hour, as heretofore, early buyers had invaded the markethouse and bought up produce in advance of the later comers, who were obliged to buy what was left.

Carson Resigns as Head of the British Navy

London, May 2.—Rumors of impending changes in the admiralty continue current, one of them pointing to the early resignation of Sir Edward Carson. The Times claims to have authority to state that there is not the slightest difference between Sir Edward Carson and his colleagues, either regarding the naval policy or any other issue, but adds: "If Sir Edward Carson should desire to leave the admiralty, which is likely enough, it would be for entirely different reasons. He is being attacked on many sides for various motives and, although nobody is more hardened to criticism, he may conceivably feel that the work of the navy is prejudiced by his promi-

nence in controversies with which sailors are not concerned." (The latter expression is accepted as an allusion to the Irish.)

MRS. FETTERHOFF BURIED

Dauphin, Pa., May 2.—Funeral services of Mrs. Edward Fetterhoff, who died on Saturday at her home, at Red Bridge, were held this afternoon in the Evangelical Church, at Zionsville. The Rev. John Shoop, pastor of the church, was in charge of the services, and burial was made in the Zionsville Cemetery. The pallbearers were James Dell, William Peck, Harry Schaff, William Kibbler, William Wert and William Knapp.

TO HONOR AMBASSADOR

London, May 2.—Cambridge University will confer the honorary degree of Doctor of Laws on Walter Hines Page, the American ambassador.

ICE MINT

Rub a little soothing, cooling ointment on those poor, tired, swollen, burning feet. Ah, how cool, easy and comfortable it makes them feel. Instantly corns and painful callouses stop hurting and you will want to dance for joy. No foot powder. Ice-mint will shrivel up any corn whether hard, soft or between the toes so that it can be lifted out easily with the fingers. There is no pain and not one bit of soreness or redness, either before or afterwards and it doesn't even irritate the surrounding skin. Try it. Just ask in any drug store for a little ice-mint and end your foot troubles for good. It costs little and acts so quickly and gently it seems like magic. You'll say so yourself.—Advertisement.

3-Grain Tablet Makes Flesh.

Any one wishing to add to their weight, improve their color, and restore a normal condition of the stomach and nerves, should adopt the wonderfully successful treatment known to physicians and druggists as "3-grain hypo-nucleate tablets," put up in sealed packages with full directions for home use. Red lips, pink cheeks, and 10 to 30 pounds increase in weight are not uncommon results from several months' usage. Ask your physician or a well-stocked druggist for them.—Advertisement.

The Builder Of a House

does not care whether the lumber is short leaf, or long leaf, or loblolly. He wants a strong stick. A piece of lumber that is not strong is a piece that is weakening the whole building. The lumber dealer is required to know the difference between the many grades of lumber, whether it is short leaf or strong leaf, etc. We have made a careful study of lumber and when we recommend a piece will give good service, you may depend upon it doing just as represented. The Rev. Mr. Kell has been elected pastor of the Presbyterian church at Good Hope, Ill., and assumed charge on May 1.

Get Out and Hoe Garden Says Herrick

Cleveland, May 2.—The country would be safeguarded against deficiency of foodstuffs if every able-bodied man and woman in and around villages, towns and cities should cultivate all the available vacant plots, according to Myron T. Herrick, member of the National Emergency Food Garden Commission. He declares that the production of food from this source would assure abundance of food for all our needs. "It is the duty of all to get busy," he said to-day. "If you cannot go to the front, get out in the backyard and hoe." Aside from the patriotic side to this work, Mr. Herrick explained the good returns that can be realized by the planter on this kind of investment. One of the most wonderful successes through the cultivation of small plots mentioned by Mr. Herrick was the case of John S. Ware, of Bridgeton, N. J., who produced more than \$2,100 worth of vegetables on one and one-eighth acres of ground, not counting what was used by his family. Bridgeton is less than one-half day by freight from New York City. If all the farm land and vacant city lots within that distance of the metropolis were cultivated, New York would have foodstuffs produced practically at its very doors in sufficient quantity not only for the needs of its millions, but also with health and longevity. Mr. Herrick suggests that one-fourth of an acre would be the proper amount of land to cultivate for a man who has office hours, to keep.

Catarrhal Deafness May Be Overcome

A simple, safe and reliable way that calls for no ugly trumps, phones or other instruments. To be deaf is very annoying and embarrassing. People who are deaf are generally mighty sensitive on this subject. And yet many deaf folks carry around instruments that call attention to their infirmity. Therefore people who are hard of hearing, who suffer from head noises, or who are actually deaf from catarrhal trouble, will be glad to know of a simple recipe that can be easily made up at home for a few cents' cost that is really quite efficient in relieving the disagreeable deafness and head noises caused by catarrh. From any drug store get one ounce of Parmitin (double strength) about 75c worth. Take this home and put it into a simple syrup made of one pint of hot water and four ounces of ordinary granulated sugar. Take a tablespoonful four times a day. This treatment should be tonic action reduce the inflammation in the middle ear that a catarrhal condition will be likely to cause and with the inflammation gone the distressing head noises, headaches, cloudy thinking and gradual disappearance. Anyone who suffers from catarrh, catarrhal deafness or head noises should give Parmitin a trial. It is pleasant to take and is quite inexpensive.—Advertisement.
