GROCERS URGE FOOD PLANTING

—

Dealers' Show Every Man, Woman and Child Can Help Conserve Provisions

—

Showing the spirit of co-operation with which they have entered the campaign for the conservation of the food supply of the country, local wholesale grocers are distributing a pamphlet issued by the National Wholesale Grocers' Association urging everyone to aid in saving and increasing the supply.

The appeal follows:

"Every man, woman and child can serve our country during these extraordinary times through which we are passing. Every one can contribute his share to the common good. You can help to save and increase the food supply—our greatest necessity. ...ome of the ways by which you can do your part are:

"Be calm and don't become alarmed. Shortage of food supply is unnecessary.

Buy Only For Needs

"Economize and avoid unnecessary consumption. Decreased demand will tend to lower prices.

"Buy only for present needs, and don't store a large supply in your homes. Over-buying will raise prices and create conditions we all wish to avoid, because market prices are fixed by the visible supply, and hoarding reduces the visible supply.

"Prevent waste and extravagance so as to increase available supply and reduce cost.

Plant Gardens

"Increase the food supply by planting gardens wherever you can.

"Raise fruits and vegetables for your own and your neighbor's use. This can be your contribution to our country's need. This will leave for winter use an ample supply of canned and evaporated foods. It will increase the supply for the future and thereby avoid unnecessary increase in prices at a time when food is scarce and prices are inclined to advance.

Sacrifice Personal Gain

"Work with your local organizations by urging and encouraging the farmer to plant large and varied crops, as he usually would in ordinary times.

"Show the farmer that by planting him the largest returns he creates a shortage of other things.

"Sacrifice, as we all must, your personal gain for the common good.

"Remember that we all can serve our country. The soldier in the trenches, the merchant in his store, the worker in the munition plant, the farmer in the fields, the housewife in the kitchen and even the child can help make our country the stronger to meet the demands with which we are confronted."

Less Than Two Inches of Rain Fall During April

For the first time since 1905 there was less than two inches of rainfall in Harrisburg during the month of April, according to the monthly bulletin issued by Weather Forecaster E. R. Demain, of the local bureau.

The normal total for the month is 2.49 inches. Last month the total was 1.65 inches. Most of this was on April 6, when one inch of rain fell.

During the month there were ten clear, nine partly cloudy and eleven cloudy days, with rain on nine days. The highest temperature was 81 degrees on April 1, and the lowest 23 degrees on April 9. One sleet storm, six frosts and two thunderstorms occurred.
