WRINKLES ALL DRIVEN AWAY

Read What A Grandmother Says About Usit, the Wonderful Skin Treatment

"The bottle of Usit has completely cleared my face of the horrible wrinkles that were such an eyesore to my five daughters, and even my grandchildren have their say about Grandma's wrinkles. It is a Godsend to wrinkle suffering humanity."

It really seems to make no difference whether wrinkles are due to advancing years, or other causes. When Usit is regularly applied for a reasonable time they disappear, the skin regains its former smoothness, plumpness and color and the youthful appearance returns. Usit is such a splendid skin treatment that every woman, old and young ought to have a bottle on her dressing table always. It not only banishes wrinkles but it keeps the skin soft and velvety, supplying just the nourishment required. Rough skins are made smooth; sallow, dry, faded complexions get back their natural freshness from its use, and it is also a fine treatment for freckles, blackheads and many forms of eczema. Get it from the druggist, and all other first class dealers can supply Usit. It is not a cream or paste, but a pure nut-oil liquid, always put up in bottles. The formula for this truly wonderful preparation came from Egypt where it has been in use by famous beauties for centuries. Usit is very daintily perfumed, guaranteed not to cause hair-growth, and the first few applications will make such a difference in the looks of your skin that you will be delighted. It is only necessary to use it at night before retiring.

APPLICATIONS FOR FT. NIAGARA NOW OVER 250

Will Receive Recommendations Only of "Specially Qualified After Today"

Candidates recommended by the local examining board for the officers' training camp at Fort Niagara have passed the 250 mark. The office this morning was packed with applications, which were filed after noon and the half-dozen physicians who have been examining candidates were overworked.

Although no word has been received from the War Department on an extension of time for enrolling applicants, the Military Training Camps Association issued a bulletin from New York this morning that specifically qualified applicants for the camps may be examined until May 7. Names and addresses will be reported by wire to Camp Commander Colonel Samuel W. Miller.

Captain Harrell has placed the following interpretation upon the term "specially qualified," and after Monday no applicant will receive any consideration at the recruiting office except men of real military training, educated and of broad experience in affairs generally, on an average between the ages of 25 and 40 years.

The men who have been recommended for the camp as having passed the physical examinations and being possessed of the necessary educational and military qualifications will have to be approved by the camp commander before being ordered to the camp. Possibly fifty per cent. of the number recommended will be among the number finally accepted, and the 2,500 who are to go will be selected from 8 or 9 of their selection. They will report at Fort Niagara not later than May 14 and will receive each \$100 a month and expenses.

HOW TO GET STRONG

A Simple Remedy.

Whatever the cause, we want to say to every person who needs strength, you need Vinol as it is the most efficient strength creator we have in our store. Here is proof from Dorchester, Mass.: "I don't know what we would do without Vinol in our family. I was weak, nervous and run-down as the result of an operation, and Vinol restored my strength. Then Grandmother had a nervous breakdown, and Vinol built her up and restored her health and strength after everything else had failed. We have used Vinol for 13 years in our family, and would not be without it in the house." Myrtle L. Healy, Dorchester, Mass.

We believe in Vinol because we know it is a great strength creator—due to the beef and cod liver peptones, iron and manganese peptones and glycerophosphates, all dissolved in a pure medicinal wine, so we always return the purchase money if Vinol fails to benefit those who buy it.
