That the protective labor laws of Pennsylvania are endangered by the bill authorizing the Governor to suspend any restriction relating to labor contained in any law is the declaration made by the American Association for Labor Legislation here to-day.

"Urging that a public hearing be given on this measure (H. R. 1637), the association says: 'Although this suspension would be for a period longer than the duration of the present war, the proposed law is so clogged with exemptions that it would apply to all employments, not to designated establishments furnishing war supplies, or to special processes, or even to special industries. Any exemption under this proposal must be sweeping, having the effect of temporarily wiping the law off the books.'

NUXATED The Power behind the Strong Vigorous Iron Men of Today

Dr. Ferdinand King, a New York City physician and author says: "There can be no strong, vigorous, iron men nor beautiful, healthy, rosy-cheeked women without Iron—Nuxated Iron taken three times per day after meals will increase the strength and endurance of weak, nervous, run-down folks 200 per cent. in two weeks' time in many instances. Avoid the old forms of metallic iron which may injure the teeth, corrode the stomach, and thereby do more harm than good. Take only organic iron—Nuxated Iron." It is dispensed in this city by Croll Keller, G. A. Gorgas, J. Nelson Clark, and all good druggists.
