# **CLOSING HEAVY FOR A SHORT MARKET**

Conflicting Influences Again Operative; Fair Support of Industrials and Leading War Specialties;

Bonds Are Weak

By Associated Press New York, May 5 .- (Wall Street)flicting influences were again op-tive in the stock market to-day, short session being characterized fair support of industrials and by fair support of industrials and leading war specialties, while rail-road shares were under increased pressure. Some of the standard se-curities in the latter section fell to lowest levels in years, receiving lit-tic support. Olls and utilities also suffered from steady Hquidation and short selling. Texas Company and Ohio Gas yielding almost three points each. Exclimants ware irresplay here and the symplecting almost three points ach. Equipments were irregular but toppers owed their moderate strength o the placing of additional large or-ers for metal. U. S. Steel was steady fter its initial setback. The closing ras heavy. Sales approximated 350,-00 shares. Bonds were weak.

a company having all the features which we consider essential for great success.

The company is moderately capitalized at 1,000,000 shares of \$1 par value, fully paid and non-assessable, with no bonds or debts and holds a lease on 400 acres in the John Brown "League" district in the Gulf Costal belt of Texas in which are located the famous Humble and Goose Creek fields, with a re-corded annual production of millions of barrels. Nearby are Hoskins' Mound, Bailey's Prairie, Columbia and Demon's Mound where many producing wells new cost with

Nearby are Hoskins' Mound, Bailey's Prairie, Columbia and Damon's Mound, where many producing wells now exist, with others being brought in. The Producers Oil Company, a sub-sidiary of the Texas Company, which declared in one disburse-ment a \$6,000,000 cash dividend, has extensive holdings at Hoskins' Mound, and is reported to be securing other leases in the same locality. Drilling will be started at the earliest possible moment on the Prudential property and, basing the prediction on present in-dications and evidences of oil, it is reasonable to expect that the property will become one of the most important producers of the section at an early date.

To those who desire to join us in this promising develop-ment we offer a limited allotment of stock at

## History of United States Loans

We have prepared for complimentary distribution, a booklet with concise and interesting information about the financing of our Government from the days of the Revolution to the present time, including the Liberty Loan of 1917.

The booklet also compares the resources and debt of the United States with those of England, France and Germany. All previous loans of our Govern-ment are listed in detail, and interesting computa-tions upon the effect of the proposed new Income Tax are included.
