Extensive improvements at the pumping station of the borough

water department: increase in wages of employes in different departments and discussion of the consolidation of Steelton and Highspire were mong the high points of the month-

ly session of council last night. On recommendation of George H. Roberts, superintendent of Water Board, a double frame dwell-ing in Christian street, near Conestoga street, owned by the bor-ough, will be removed to give space

for storing a large supply of river coal. Mr. Roberts stated that in order to have the 2,500 tons of coal,

consumed in a year, stored away for use next year, larger quarters mus be provided. The high prices of

bituminous coal this year has caused

a great demand for the river product. Mr. Roberts states that he has made arrangements to have river coal supplied at a reasonable

GOODRICH SILVERTO CORD TIRES

An Object Lesson in Tires

T IRES wear out INSIDE—not OUTSIDE. They are burned out by internal frictional heat, rubbed up between the plies of the tire.

Every extra ply means extra wearing out of

Note the two-ply structure in the rubber saturated, cable-cord body of the Silvertown tire here laid bare.

Could you thus look into ALL tires, you would find three types:

Cotton fabric, with five to seven swathes;

Thread-web, a five to seven ply base of strings;

Cable-cord, the unique patent-protected, twoply structure, found ONLY in Silvertown, the original Cord Tires.

It stands to reason that Silvertown tires, trademarked with the RED-DOUBLE-DIAMOND. with but two plies will outlast many-ply tires with their multiplied heat.

You cannot afford to be without their smart appearance, smoother-riding ele-

gance, and their gasoline-saving economy
