

DAUPHIN SHARE OF ROAD MONEY

Big Improvement Would Be Possible Under a "Fifty-Fifty" Proposition

If the State Highway Department was to be given an appropriation of \$10,000,000 for the highways of the next two years it would mean that it would be possible for Dauphin county, if it co-operated with the Highway Department, to construct ten or twelve miles of nearly permanent road as it is possible to construct.

Dauphin county will receive \$11,756.15 from every million dollars the Highway Department receives for State highway construction. This sum is independent of the fund for State-aid construction, and also from the fund received for automobile licenses, which is used for maintenance and repair.

If the Highway Department is given \$10,000,000 for the next two years, Dauphin county's share will be \$11,756.15. This sum is sufficient to build about six miles of road at \$2,000 a mile on an average for concrete or brick.

In the event that the commissioners of Dauphin county go "50-50" with the State, as they may do under the terms of the bill passed by the Governor March 22 last, the total sum available for this county for work on State highways will be \$25,756.15, or approximately twelve miles of permanent highway.

This county's share of the State-aid fund will be \$11,856.70 per million of the approved plan, and to avail itself of this fund the county and the townships in which the money is used must equal what the State spends.

Dauphin county commissioners under the law may borrow without any formality one-tenth of one per cent of the county's total valuation, which means that it can borrow \$75,000 a year until a total of two per cent, the valuation is reached. Or if the board secures the approval of a grand jury a year it can borrow \$350,000 a year—half of one per cent the valuation, until a total of two per cent the total valuation is reached.

The Highway Department will spend Dauphin's share of the State highway fund in the construction of permanent main roads in this county, but the total mileage can be doubled if the co-operation of the county commissioners is secured. In the borrowing of one-tenth of one per cent the valuation the commissioners can give approval to be cared for in the 1918 budget.

British and Russian Armies Push on in Mesopotamia

With the British Army in Mesopotamia, May 11.—The war in Mesopotamia and along the Persian border has carried the British and Russian armies into the East. The British and Russian forces, who claim that the first tidings of Christianity were brought to them by the three wise men of the East, writes the British official eye witness with this army. Two of the wise men who sought the birthplace of Christ, are reported to have returned to Persia, in Northern Persia, and their tombs are pointed out in the Church of Mar Mariani in that town.

The Nestorians are now a remnant of a once powerful community and are ruled by the Turks. They dwell mostly between Mosul, Lake Van, and Lake Urmia, along the Turco-Persian border. They are divided into two sections, the Ashiret, or free tribesmen, and the Iyat, or subject people. Included in the Iyats are the Chaldeans, who dwell in the villages of the Mosul plain and in the chief towns on the Tigris river from Diarbakir to Basra. The Chaldeans are under the influence of the Church of Rome, while the others retain their ancient faiths. Some of the Nestorians are very religious. On Sundays he will not defile his mouth by uttering a word of the Kurdish language, which he regards as vile.

Mexican Army Suffers Not From a Lack of Generals

Mexico City, May 11.—The Mexican army suffers from no shortage of generals. There are 207 of them in a total enlisted force of 125,823, an average of one general to 607 men. Colonels, lieutenant-colonels, and majors constitute a little army of 2,418.

Of the generals, eleven are commanders of divisions and many of them have figured prominently in the war. They are: Alvarez Obregon, minister of war; Pablo Gonzalez, commanding the division of the east; Benjamin Hill, commanding the forces of the federal district; Salvador Alvarado, governor and military commander of Yucatan; Candido Aguilar, on leave of absence to run for election as governor of Vera Cruz; Cesarro Castro, governor and military commander of Puebla; Francisco Murguia, commanding operations in Chihuahua; Francisco Cosco, Jacinto Trevino, on leave of absence as member of congress from Coahuila; Manuel M. Diezies, on leave as candidate for election as governor of Jalisco; and Jose Augustin Castro, governor of Oaxaca.

Dr. Wu Ting-fang to Remain at His Post

Peking, May 11.—Although Dr. Wu Ting-fang repeatedly has resigned from the post of minister of foreign affairs, his resignation has not been accepted, and it now seems likely that he will continue indefinitely in his post, regardless of his ill-health. Efforts to select a satisfactory successor to Dr. Wu Ting-fang have failed. Premier Tuan Chi-jui desired to appoint Lu Cheng-hsiang, former minister of foreign affairs. To succeed Dr. Wu. But parliament refused to approve the appointment of Lu Cheng-hsiang several months ago, and decided, when his name was again submitted, that it could not vote twice upon the name of any appointee at the same session of parliament.

ISRAELI G. ERB DIES

Marletta, May 11.—Israel G. Erb, of Litzitz, aged 74 years old, graduate of the Litzitz Academy, school director for eight years, jury commissioner of Lancaster county, vice-president of the Litzitz National Bank, treasurer of the Agricultural Fire Insurance Company, and affiliated with other enterprises, died Wednesday night. His wife and four children, and two sisters survive.

HATCHING PHEASANT EGGS

Liverpool, Pa., May 11.—S. Shuler, of Liverpool, a Perry county game warden, has received a shipment of pheasant eggs from the State Game Department. He is busy distributing the eggs to Perry county sportsmen who will have them hatched by chicken hens.

A \$4.50 Shoe For Men That Is Uncommonly Good

Since we placed our order for these particular shoes the wholesale price has advanced, and if we reordered to-day the retail price would have to be \$6.00.

Therefore, we say, this is uncommonly good shoe. Not only because the price is moderate but because the quality and style measure up high.

Dark brown Cordo calf shoes with Goodyear welted red fibre soles and rubber heels, English toe, blind eyelets and neat perforation on tip and vamp seam. A, B, C and D widths, \$4.50. Dives, Pomeroy & Stewart—Street Floor, Rear.
