AMUSEMENTS

ORPHEUM—Entire week, with matinee Saturday.—"Experience" Friday, night only, May 23. Charles Frohman presents Otis Skinner in "Mister Antonio."

"Experience," George V. Hobart's gripping, modern morality play, will be given its first local performance at the Orpheum after four more performances. Do not be among the regretful few, who, after this great play has left the city, were not numbered among the enthusiastic audiences that greeted each performance.

Every man, woman and child in America is a naturalized citizen of the great world of amusement, which has been recognized by the world's greatest leader and absolute monarch—Thurston, the Magician.

And now comes Otis Skinner in a new Booth Parkington play, "Mister Antonio," the Tarlington comedy-drama in which he is at present delighting his audiences.

An attraction that is sure to make a strong appeal to Young Harrisburg is Leonard Gaullier's "Toy Shop," that heads the list of Majestic acts that is calculated to bring delight to the hearts of any youngster.

"The Dummy," an adaptation of the well-known play of that name, will bring to the Regent its last show.

Last Day For Jack Pickford at the Regent today. This production at the Regent affords Jack Pickford a chance for the inimitable touch of humor and real boy-life of which he is past master.

Frances Nelson, the pretty Metro star, shows to better advantage in "The Power of Decision," which is the well-known attraction at the Colonial National Theater to-day.

PICKED CREWS MAN U. S. FLEET DOING DUTY IN WAR ZONE; MORE DESTROYERS TO FOLLOW

Every Element That Can Aid in Fight on Germany Will Be Sent Abroad

How Navy Upholds U. S. Traditions This is the question and answer which assured our allies that American ships and American bluejackets were on the European firing line.

Washington, May 17.—Formal announcement that American destroyers picked crews have carried the flag into the war zones of Europe and have been operating since May 4 against German submarines with British and French war vessels was made to-night by Secretary Daniels after the news had come from London.

There can be no question, however, that every element of the fleet that can aid in the fight will be used to its utmost.

American destroyers are sturdy craft, built for duty at sea, and the confidence of the department in their durability has been fully justified by the fact that they arrived on the other side of the Atlantic ready for immediate service.

The department is guarding closely its plans for sending other craft than destroyers into the fighting zone.
