We are doing our level best to keep furniture prices down to the very lowest level. We are positively selling lots of goods on a price basis that existed last fall and up to January, 1917. In other words we are selling our goods as we bought them with a fair margin of profit but without any advantage being taken of wholesale advances which took place after we purchased the goods. Present prices will hold for a little while at least. We do not know just what the next change will be but we are determined to do all we can this year to keep our own prices down to such amounts in order that our customers may be enabled to get their home furnishing needs without entailing a heavy strain. This statement is absolutely correct, but we would much rather you would visit our store and prove it to your own satisfaction.
