

CATTLE CAN BE BUILT UP CHEAP

State Report Shows That Excellent Results Have Been Attained by the State

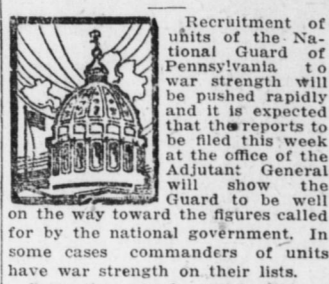

Six months of feeding of 20 head of cattle on the farm of the Pennsylvania Department of Agriculture in Delaware county has resulted in a profit of \$24.48 per head. This shows that cattle can be fed at a profit in this State at the present price of feed.

Agricultural leaders of the State have been urging more attention to livestock on the farms and the result obtained on the State farm as announced by Secretary of Agriculture, Charles E. Patton shows the profit that can be made in this line of agriculture.

The twenty head of cattle were purchased last October for \$1,116.80 and placed on farm where the State Livestock Sanitary Board makes its cattle disease serums and conducts experiments that will help to keep the livestock of the farmers of the State free from disease epidemics. Under the direction of Secretary Patton the twenty head of cattle were sold last week through competitive bidding at \$2,320 was realized, an increase of \$1,203.20 over the purchase price. The cost of feeding and labor for the six months was \$829.50 as follows: 250 bushels of shelled corn at \$1.15 a bushel, \$287.50; 75 tons of poor ensilage at \$3, \$225; 7 tons of alfalfa hay at \$12 a ton, \$84; 2 tons cottonseed meal, \$14 and labor, part time of one man at \$15 a month, \$90. During the feeding period 119 wagon loads of manure was realized at a conservative value of one dollar a load placed on it. This made a total cost of \$1,946.20 for the purchase, feed and care of the cattle during the six months and the amount realized was \$2,320 from the sale of cattle and \$116 from the manure, or \$2,436, making a profit of \$489.40.

RECRUITING IS NOW UNDER WAY

National Guard Officers Have Been Taking Precautions on Advice of Stewart

Recruitment of units of the National Guard of Pennsylvania will be pushed rapidly and it is expected that the reports to be filed this week at the office of the Adjutant General will show the Guard to be well on the way toward the figures called for by the national government. In some cases commanders of units have war strength on their lists. Some time ago in anticipation of a call for federal service, which would mean war strength, Adjutant General Stewart advised colonels of regiments and commanders of other organizations to enroll men for service and in accordance officers have been busy for weeks getting available men for their commands. In certain places it was reported a week ago that more than 100 men of men required have been listed. As a result about all that has to be done to get the Guard to full strength in some communities is to administer the oath, the medical examinations and other preliminaries having been cared for. As far as possible the new men will be equipped at home stations before July 15, but it is recognized here that it is a difficult task as the restrictions of the federal government have been immense. Some contracts have been placed by the State, however, for equipment.

Attend Meetings—Officials of the State Department of Agriculture left today for Dubois to attend the spring meeting of the State Board of Agriculture and farm institute at that place. The sessions open tomorrow and will continue for three days, ways and means to increase food production being matters on the program. Extension of the institute work and farm advisory service will also be discussed.

Committee Coming Here.—Arrangements are being made for a committee representing the Ladies' Catholic Benevolent Association of Pennsylvania to appear here in support of the exhibit which is taken to that city after the Panama-Pacific exposition.

Governor to Attend.—Governor Bruce will go to Antietam to attend the Memorial Day exercises. Senator Spoke.—Senator Washburn, of York, spoke at the big flag raising in that place yesterday.

No Reduction of Term.—State school authorities declared today that there was no foundation for reports of a general order to close schools one month earlier than usual this year because of the war.

Argument Is Off.—Argument in the complaint of the West Philadelphia Businessmen's Association against the routing of the cars of the Philadelphia Rapid Transit Company between West and South Philadelphia was postponed before the Public Service Commission again today. No date has been fixed for it.

Incendiary Fires Burn Seven Shippensburg Stables

Shippensburg, Pa., May 21.—Incendiaries on Saturday destroyed seven stables, with livestock, automobiles and wagons; menaced the business district of Shippensburg and caused a loss of over \$6,000. The first blaze broke out in the stable of Herbert Harwood, and burned the adjoining buildings of Hamilton Railing, W. A. Zeigler and F. T. Holland. L. G. Foglesong, a tenant of Harwood's place, lost a draw wagon, two mules and other equipment. Dr. J. L. H. Mowers lost a valuable driving horse, and Frey Brothers, bakers, lost heavily. While the fire was being fought, another broke out two blocks west, which destroyed two stables belonging to George H. Stewart, Sr., "The Cumberland Valley Farm King," and one of the Morris Produce Company, with a delivery automobile.

Britain Has Enough Grain to Last Twelve Weeks

London, May 21.—The grain supply now on hand in the United Kingdom is sufficient for twelve weeks, according to estimates of Kennedy Jones, M. P., director of food economy, who spoke last night at Edinburgh. Mr. Jones declared that by the time this stock is exhausted the new harvest will be available. It was evident, therefore, he declared, that rationing would be unnecessary, at least for the moment, and that which will be supplied on hand and the new harvest will cover only twenty-four weeks of the coming year's consumption.

SCENES FROM STEELTON'S MAMMOTH PATRIOTIC DEMONSTRATION

The above pictures were snapped by a Harrisburg TELEGRAPH staff photographer during the great patriotic demonstration, Saturday. In the top picture to the left is seen the group of high school girls that made splendid appearance; the lower picture is the Red Cross division; the upper picture to the right is a group of children of the third grade in the St. James' school; in the lower corner is a group of children of the St. Peter's school attired in red skirts and blue jackets over white waists.

MORE THAN 10,000 MARCH IN PARADE

Half of Marchers in Long Line Were Steelworkers; Schoolchildren, Foreign Born and Red Cross Have Big Delegations in Line

Thousands of men, women and children participated in Steelton's patriotic demonstration, Saturday afternoon, which formed a new paragraph in the borough's history. Marching to the strains of thirty-two bands, over 10,000 people from Steelton, Harrisburg and surrounding towns, all had one purpose in mind and that was loyalty to the flag. Thousands of the foreign-born population were applauded by the spectators that lined the streets all along the route of the parade. These foreigners refused to carry the flag of their country and united with the Americans under the Stars and Stripes.

Tenth Company, Infantry—W. H. Barker, W. H. Hogue, J. W. Townsen, city; Arthur P. Schoch, Mount Joy; Courtland B. Manifold, Palmira.

NATIONAL COLORS SHOWN BY CIRCUS

(Continued From First Page)

ner for the army of 3,000 performers and workers and the feeding of the horses. The show covers five blocks and is without question the largest that has ever exhibited in Harrisburg.

Many unique and interesting features were shown. A troupe of trumpeters, mounted horridly, headed the procession, followed by a military band a number of chariots of allegorical significance highly embellished in golden harness. A body of knights in tournament array, mounted upon richly caparisoned horses, followed. The grand division, led by a band chariot, consisted of an equestrian display remarkable for the attractive character of the horses. Four ten tandem teams of great beauty, driven by smartly gowned equestriennes.

Feats Will Early

Opens With Pageant

Following this pageant twenty odd elephants leaped into the three rings, they walked, walked on their knees, swung their unwieldy, interlocked trunks in fanciful combinations and played real music upon brass wind instruments.

Shriek of childish glee welcomed the regiment of clowns which broke into the hippodrome oval, as the elephants swung their unwieldy bodies back to the menagerie. The reign of joy continued until the acrobatic specialties began, when everyone held his breath at the daring performers who did impossible things on flimsy trapezes and bars high in the air. Ginks, midgets, fat women, wild men and a host of interesting freaks make up the greatest side show ever seen.

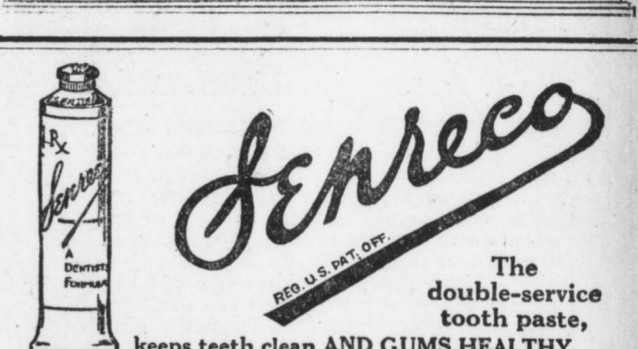

The little folks went into ecstasies over the kitten-like ways of the baby animals in the zoo kindergarten. The last performance will be given to-night at 8 o'clock, doors opening at 7 o'clock.

H. S. WILLIAMSON, FOUNDER OF LANCASTER PLAYGROUND, DIES

THE dumbest oyster can make a better pearl than the brightest man. The oyster uses Nature's methods.

NATURE SAYS smoking tobacco is at its best after two years' ageing. That is why Velvet is "aged in the wood" two years—the natural way, the slow way and the sure way.

Senreco keeps teeth clean AND GUMS HEALTHY. The double-service tooth paste.

Keeping the gums healthy and the mouth sweet is very important to health; more teeth are lost through the loosening of the tissue that holds the teeth in place than from decay. Dental science to-day demands that a tooth paste must keep the gums healthy as well as clean the teeth. Senreco was formulated to meet this requirement. Hundreds of dentists are prescribing and using Senreco because they have found that it does measure up to that standard.

SENRECO IS A WONDERFUL CLEANSER. In addition to its remedial properties Senreco is a wonderful cleanser; acts directly on the mucin film, the basis of tartar; leaves the mouth cool and clean-feeling. As some one has expressed it—Senreco gives one a new idea on tooth cleanliness.

Get a tube to-day at your druggists or toilet counter—enjoy the healthy, cleanly feeling its use gives your mouth and gums. Notice how brilliantly white Senreco makes your teeth. It performs this two-fold service for you and yet costs no more than the ordinary, old-fashioned tooth paste that simply cleans the teeth and leaves a pleasant taste—25 cents for a large 8 ounce tube.

NO HEADACHE OR NEURALGIA PAIN

Get a 10 cent package of Dr. James' Headache Powders and don't suffer.

When your head aches you simply must have relief or you will go wild. It's needless to say when you can take a remedy like Dr. James' Headache Powders and relieve the pain and neuralgia at once. Send someone to the drug store now for a dime package of Dr. James' Headache Powders. Don't suffer. In a few moments you will feel fine—headache gone—no more neuralgia pain.—Adv.

Looking Forward to Motherhood

Well Known Preparation Relieves Much Suffering

The greatest crisis in the life of a woman is when she becomes a mother. All her physical strength is taxed to the limit at such a time. It is necessary that she prepare her system for the great event in order to preserve her future health. Thousands of mothers have placed safe reliance upon "Mother's Friend." This preparation is applied externally and is composed of special penetrating, softening oils which prepare the muscles and tendons for the unusual strain. Naturally the tendency is to relieve the pain and danger at the crisis, leaving the mother in a healthy condition.

The expectant mother should procure a bottle of "Mother's Friend" from her druggist, apply it night and morning, and after beginning its use, write for free book for users. Much practical information is contained in it. Just address Bradford Regulator Company, Dept. H, Atlanta, Ga., and the book will be mailed to you at once.—Adv.
