The diplomas will be presented by County Superintendent D. A. Kline. The graduates are: Ellen Gault, Miram Hess, Bruce Rider, Reul Rice, Joseph Lightner and Edison Wileman. The High School Alumni Association will tender the class a reception in the school building on Friday evenings June 1.

Lane in Upper End of Wormleysburg Farmed

Wormleysburg, Pa., May 25.—Answering the appeal to farm all ground that is not utilized, several borough residents have taken the initiative and aside from farming their back yards, proceeded to plow up Cedar Oak lane in the upper end of the borough. This street is seldom used and is now being put to a good advantage, according to a story given borough officials by the gardners. The avenue is thirty feet wide and the potato stalks are slowly coming above the ground.

Burgess J. Fred Hummel said to-day that numerous complaints have been made to him 'that the school building is not properly heated or ventilated, and that it is located too near the railroad and street car line. The Burgess said that the residents are anxious to get a new building, which would probably be situated at the upper end of the borough.

When approached on the subject to-day several members of the School Board said that they are glad the residents are becoming interested in a move for the erection of a new building. Members said that the board has made efforts to dispose of the present building for some time and as soon as it is sold they will start at once on the selection of a new building along modern and up-to-date lines.

As a War-Measure? An Investigation of the Results in Nineteen "Dry" States

Will Prohibition Be Adopted

Nation-wide prohibition as a war measure would affect everybody in the United States. The good results of such a policy have been praised continuously in the press of the belligerent countries, and are cited in America by prohibition advocates to explain the great strides of the "dry" move-

ment in the United States during the past two years. To get a true conception of what citizens of the "dry" States have experienced under prohibition law, THE LITERARY DIGEST made a strictly impartial inquiry in all the States that have had prohibition laws of one kind or another in operation for not less than one year. Two questions were asked of the representatives of public opinion in these commonwealths-the editors of the press: First: Whether In Their State Prohibition Is a Success? Second: Whether They Would Recommend It to Other States? From nineteen States, 157 replies have been received.

In THE LITERARY DIGEST for May 26th, the results of this nation-wide canvass is shown. This is the first non-partisan investigation of the kind ever made. The result is most illuminating,

and will interest every one from brewers to bishops. Other articles of immediate interest in this number of THE DIGEST are:
