BELL 1001-2356 UNITED

HARRISBURG, FRIDAY, MAY 25, 1917.

FOUNDED 1871

## Why Not Buy a Liberty Bond?

It is the safest security in the world. No investment is secure if a United States Government bond is not.

Not only does the Liberty Bond pay three and one-half per cent. interest, but it is exempt from every kind of taxation, Federal, State or Local, except inheritance taxes.

The Liberty Bond is exchangeable for any bond hereafter issued which may draw a higher rate of interest.

It is like money in the bank. It can be converted into cash at any time.

It can always be put up as security for a loan.

When you lend money to the Government instead of hoarding it you stimulate business and better yourself directly and indirectly.

Nearly all the money raised by this loan will be spent in the United States.

If you have not formed the habit of saving, you can form it in a noble way by paying for a bond in instalments, thus upholding your government at the same time that you are putting something by for a rainy day.

You will feel proud to possess a certificate showing that you are an actual stockholder in your government.

You will increase the credit of your country by proving that you have faith in it and will back it in any emergency with your pocketbook as well as your manhood. Patriotism is something more than standing when they play "The Star-Spangled Banner."

By buying a bond you will promote the power and prestige of your Nation among its Allies and its enemies, too. You may be just as patriotic, though you do not bear arms in defense of the American Flag, as one who goes to the firing line.

Finally, you will help to spare the Government the necessity of raising an excessive proportion of its war funds through current taxes. The tax burden will be heavy at best and a very large part of the money required should be obtained through the voluntary extension of credit to the Treasury by the people.

## A Fine Lot of Sweet Grass Baskets

The writer has a personal and intimate knowledge of the sweet grass baskets we are now featuring. They are made by the Canadian Indians up in the highlands of Ontario and Saskatchewan. Also in the great Canadian northwest.

A representative of the Indians made a personal visit to this store a few months ago and we made arrangements for a large stock of these baskets.

The reminiscent odor of a sweet grass basket carries one back to the haunts of the Redman.

In a variety of shapes and sizes, ranging all the way from a thimble basket up to large ones for fancy work and knitting.

Price range—10c to \$2.50.

## Belts and Sashes---

## The Vogue of the Hour

Highly in favor are belts and sashes; and we have assembled a generous variety of "what's novel" in these necessary accessories for the skirt and blouse season.

Belts are developed in kid, suede and patent leather, and the wider widths are destined to be exceedingly popular.

Both belts and sashes come in all the fashionable colorings, and many are effectively adorned with beads and silken tassels.

Combination belts are very stylish, also, and form a good portion of the exhibit.

Prices range from \$1.69 to \$3.25.
