THE D-N 1 LEAVING FOR FLIGHT

U. S. DIRIGIBLE, D. N. 1.

Uncle Sam's air force, despite belief to the contrary, is fast being equipped so that within a surprisingly short time it will be well up with the leaders of European nations.

WEST SHORE NEWS

Social and Personal News of Towns Along West Shore

MISS STEPHENSON HOSTESS. New Cumberland, Pa., May 26.—Miss Lorene Stephenson entertained at her home at Bellavista.

May Be German Chancellor. Count Hertling, now premier of Bavaria, has been mentioned very often recently in dispatches from Germany.

NEW RULINGS IN COMPENSATION

Two Made by the Board in Cases Arising in Western End of the State

The State Compensation Board has rendered an opinion in a claim against a Pittsburgh hotel company in which it is held that while the employer cannot be held to be liable for compensation for an operation which became necessary after the fourteenth day from the injury, it is suggested that the insurance carrier make a contribution to help the claimant pay the bills.

MISS MARGARET WOODS DIES. Lewistown, Pa., May 26.—Miss Margaret Woods, aged 83 years, a granddaughter of John Witherspoon, one of the signers of the Declaration of Independence, died at her home here yesterday.

COUNT HERTLING

Daniels Denies Loss in U. S. Destroyer Flotilla

Washington, May 26.—A categorical denial that any American naval vessels have been sunk in the war was issued last night by Secretary Daniels to counteract a "campaign of vicious rumors that is being carried on industriously by persons unknown."

Forrest Notes

Balsa wood, found in Central America, is said to be the lightest known wood. It is lighter than cork and has an average specific gravity of only .104.

A wood specimen found in glacial drift and estimated by the Wisconsin State geologist to be approximately half a million years old, has been identified by the forest products laboratory of the forest service as spruce.

State forests with a total of over 2,600,000 acres have been established in thirteen States. Of these New York has the largest forests, which comprise 1,325,000 acres.

The largest number of sheep grazed on any single national forest is 215,740, finding pasturage on the Humboldt in Nevada, while the largest number of cattle—75,813 heads—is found on the Tonto in Arizona.

The value of the average annual product of the two national forests is estimated at \$2,000,000.

On parts of the Angeles national forests in California the packrats are so abundant that many of the young pines planted by the forest service have been killed or injured by the rodents. The damage seems to be placed chiefly in the late summer and fall and is more extensive in dry than in wet seasons. It is thought that the rats tear off the waxy bark of the trees to obtain moisture at times when water is scarce.

Passenger Trains Discontinued

In accordance with request made by the Special Committee on National Defense, to conserve motive power and equipment for the service of the Government, it has been found necessary to discontinue trains Nos. 6 and 27 on the S. and S. branch effective May 27, 1917.

PHILADELPHIA AND READING RAILWAY COMPANY.

PATRIOTIC DAY IS PROCLAIMED

Governor Issues Proclamation Designating Sunday, July 1, as the Time

Governor Brumbaugh to-day issued a proclamation calling upon the people of the State to observe Sunday, July 1, as "Patriotic Sunday."

"Whereas, Sunday, July 1, 1917, has been set aside by the International Sunday School Association, an interdenominational body composed of above 150,000 Sunday Schools, and a membership of 18,000,000 persons, as Patriotic Sunday, and

"Whereas, on that day it is proposed to instruct by special services all this mighty army upon the importance of conserving and advancing the spiritual life of our people in these unfortunate war days, and

"Whereas, it is eminently fitting that the fundamental virtues of good citizenship and of national patriotism and loyalty be fully impressed upon all our people, and that the fundamental virtues of good citizenship and of national patriotism and loyalty be fully impressed upon all our people, and

F. H. WENTZ DIES AT LEWISTOWN

Was Member of Logan Guards, First Defenders, in Civil War Service

Lewistown, Pa., May 26.—Lieutenant Frank H. Wentz, one of the oldest residents of Lewistown, died at the home of his daughter-in-law, Mrs. George Wentz, yesterday afternoon.

Lieutenant Frank H. Wentz was a native of Philadelphia, but came to Lewistown before the Civil War. He enlisted in the Logan Guards, now "First Defenders," on April 18, 1861, as a private.

"Therefore, I, Martin Grove Brumbaugh, Governor of the Commonwealth of Pennsylvania, do hereby request and urge our people to assemble on that day in their several places of worship to carry out the purposes above indicated."

MISS MARGARET WOODS DIES. Lewistown, Pa., May 26.—Miss Margaret Woods, aged 83 years, a granddaughter of John Witherspoon, one of the signers of the Declaration of Independence, died at her home here yesterday.

See Superfluous Hair Roots Come Right Out (Entirely New Process)

New, different, better than all electrolytic and electrical treatments, is the marvelous phenelactone process. It is the one thing that actually removes the roots as well as the hair on the surface. It does this instantaneously, leaving the skin perfectly smooth and hairless.

"Domestic Science" Fireless Cooker

5-Day Demonstration Monday, Tuesday, Thursday, Friday, Saturday, May 28th to June 2nd.

Mrs. McKim is an expert on Fireless Cooking, an expert cook and an entertaining talker. Her lectures on cooking, while demonstrating the "Fireless," are wonderfully interesting. Come Monday, and you will want to come every day. It's very interesting.

Every Woman in Harrisburg

Who values time and labor and takes pride in what she cooks will be well repaid if she

Attends this Demonstration

(Demonstration in Our Housefurnishing Basement)

This "Domestic Science" (that's the name of it) Fireless Cooker is the "last word" in fireless cookers—the latest and best of all productions. It is made in the largest fireless cooker factory in the world.

The "Domestic Science" Fireless Cook Stove roasts, bakes, steams, stews and boils. It cooks meats, fowl, fish, soups, vegetables, cereals, bread, cake, pie—everything.

All the nutriment, food-value, flavor and weight of the food are retained.

More than 80 per cent. of the fuel is saved and all the work and worry connected with the cooking are done away with. Desirable all the year 'round; more especially so during the hot summer months. That's why we want you to see it.

The "Domestic Science" Fireless Cooker is made in one, two and three compartments and in nine sizes. It is aluminum lined, with seamless cooking compartments, aluminum cooking utensils, "Vapor Seal" Top, heat-conserving valve with automatic steam condenser. It has a sanitary steel outer casing of thick gauge, which is covered with two coats of especially prepared paint. Has flush panel covers and special formula strata-laid insulation.

Women who have never believed in the fireless cook stove idea are the very women we want to see at this factory demonstration. We want them to see the food cooked; we want them to eat it—seeing is believing, but the proof of the pudding is in the eating.

Some women have an idea that fireless cook stoves are good only for boiling potatoes, soup, cereals, etc. How surprised and delighted they would be to see a modern housewife lifting beautiful brown loaves of bread and cake from the depths of the shining aluminum; how their eyes would bulge at the sight of juicy, flaky, crusted pies coming from another compartment; and seeing a roast of beef—done to a turn—taken from a third,—weighing just as much as when put in and without a loss of a particle of flavor or tissue.

Attending this demonstration incurs no obligation to buy. The factory sends Mrs. McKim on here to enlighten Harrisburg ladies on the merits of this famous fireless cook stove. Everyone has a chance to see, hear and ask all kinds of questions. Mrs. McKim knows what she is talking about—that's the reason the factory sends her.

The Factory's Guarantee goes with every "Domestic Science" Fireless Cooker sold. Here is one paragraph of it: "Use it for thirty days according to directions—Cook your meals in it—Prove for yourself just what it will do. We guarantee that it will fulfill our every promise." That's pretty broad. Come and see it.
