

G. A. R. VETERANS ATTEND SERVICES

Usher in Exercises Which Will Conclude Wednesday With Decoration of Graves

Memorial services in the churches of the city yesterday marked the beginning of the observance of the Civil War veterans which closes Wednesday afternoon with ceremonies in honor of the dead.

Almost one hundred veterans of Grand Army posts of the city with Sons of Veterans and Spanish-American War Veterans attended the services in a body at the Pine Street Presbyterian Church. The simplicity of the patriotic service in honor of the war-scarred men of the days of '61 was impressive.

The Rev. Dr. Lewis S. Mudge, pastor, spoke on "Our Debt to the Past." Other memorial services were held in various churches throughout the city. The Rev. Dr. Lewis S. Mudge, pastor, spoke on "Our Debt to the Past."

Last night the members of David R. Stevens Post No. 520, G. A. R., attended the memorial service at the Harrisburg Memorial Day service yesterday morning at the Harrisburg Cemetery.

All Married Men to Be Exempt in First Draft

Washington, May 28.—All married men will be exempted on the first draft. There will be no exemptions in industrial occupations by specified classes or occupations.

The two questions of exemption of men with dependents and those in industry at home have proved the most difficult to work out with even-handed justice. The difficulty of determining whether a married man was actually supporting his family was the consideration that finally determined the officials to exempt all married men.

Italian War Mission to Visit New York

Washington, May 28.—The Italian mission to-day tentatively accepted an invitation to visit New York, which is said to have popularized Italian plans greater than any city in Italy.

PLAN INTENSIVE LOAN CAMPAIGN FOR THREE DAYS

Executive Committee Plans Vigorous Drive June 7, 8 and 9

A campaign within a campaign is now the plan of the executive committee of the Liberty Loan.

June 7, 8 and 9 has been designated when special campaign workers will cover the city in a final effort to interest the people of Harrisburg in the loan and endeavor to awaken the small subscriber to the necessity of quick action in bringing forward the money to finance the operations of the nation during the period of war.

The campaign committee met this morning in the office of the Dauphin Deposit Company with E. Hockenbury, who is donating his services to the campaigners for the Liberty Loan. Mr. Hockenbury outlined plans for the three days of the special campaign.

This morning the following campaign committee was appointed to work under the direction of E. J. Hockenbury, J. E. Tracy, chairman; Varoc C. Conroy, secretary; William Jennings, A. S. Patterson, H. C. Fry, A. E. Buchanan, V. F. LeCocq and Donald McCormick.

The executive committee is very anxious to secure the voluntary services of clerks who will assist in the work at the Board of Trade.

The members of the Pennsylvania Life Underwriters Association have named the following committee: John T. Shirley, chairman; D. W. Keeney, J. C. Johnson, E. Bennett, W. S. Essick, F. L. Wright, E. R. Eckenrode, C. C. Getter, W. H. Cordry, W. E. Dietrick, H. W. Lindsey, A. A. West.

Ministers in practically every church in the city yesterday spoke on the necessity of the small subscribers doing their share toward the Liberty Loan.

The young men will be conscripted, wealth is only asked for, said one minister in driving home the great need of the government for ready financial assistance.

The Liberty Loan Publicity Bureau at 313 Market street proved to be a success Saturday afternoon and evening. A total of 28 persons subscribed \$2,800. The booths open in several of the stores of the city also proved a center of interest for the dissemination of information.

Miller's Antiseptic Oil Known As Snake Oil

Will Positively Relieve Pain in Three Minutes

Try it right now for Rheumatism, Neuralgia, Lumbago, sore throat, swollen joints, pains in the head, back and limbs, corns, bunions, etc. After one application pain disappears as if by magic.

This oil is conceded to be the most penetrating remedy known. Its prompt and immediate effect in relieving pain is due to the fact that it penetrates to the affected parts at once.

Accepted no substitute. This great oil is golden red color and every bottle guaranteed; 25c, 50c and \$1.00 a bottle, or money refunded. George A. Gorras Drug Store—Adv.

Harrisburg Business College

A Reliable School, 31st Year

IMMENSE PLAYROOM FEATURE OF NEW ACADEMY BUILDING

NEW JUNIOR SCHOOL

One of the chief features of the new Junior School and dining room of the Harrisburg Academy will be the immense playroom—33x70 feet, located in the basement. The spacious diningroom, which will take the place of the present one in the main building, will hold 215 people.

NEW BUSINESS MARK BEING SET

[Continued From First Page.]

before it was declared, were made in number of instances, as the great need for supplies was pointed out.

From munitions to knit goods in the manufacturing field to the business houses selling all kinds of merchandise and furnishings, both necessities and luxuries (come the same answer:

"This will be a bumper year. Never before in the history of trade has there been a condition of prosperity such as now.

Starting with the beginning of the world war, America took a big jump industrially and commercially. Facing a slump which would have put business almost to a standstill, orders started to come in since then the records in practically every business in the country, in the wholesale and retail, in the manufacturing plant, offices, large and small, evidenced unprecedented increases.

Demand for labor was the natural result, wages increased, and a steady upward rush puttin business in practically every community far above the greatest expectations, following.

CITY GETS BIG SHARE

Harrisburg has shared extensively in this.

A railroad center, an industrial center, and with flourishing commercial conditions, opportunities almost unequal anywhere presented themselves. Demand exceeding the supply starts every mill and factory working full time, bank clearings jumped millions in the totals for one year—everywhere the prosperity went on.

Predictions such as those made by the business and manufacturing men in the face of what has occurred in the past have a doubled meaning. Here is what a few of them have to say:

"Personally I believe conditions will improve for some time to come, with the need for machinery and other supplies," David E. Tracy, president of the Harrisburg Chamber of Commerce and of the Harrisburg Pipe Bending Works, said.

"We are very busy and have been, and there are many unfilled orders," "Our business for this year has been up to the standard, and we look for an increase. Labor conditions are undoubtedly largely responsible for this and with the manufacturers still unable to meet the demand, there can be no doubt as to the future," came from Dives, Pomeroy and Stewart, large downtown department store.

"Biggest Spring Business" Harrisburg has shared extensively in the history of the store, in spite of high food prices and the war scare," Brown and Company reported. "We took for our biggest fall business, but the situation is very good and we have orders now which will keep us busy for the remainder of the year," W. G. Starny, president of the Moorhead Knitting Company, said.

"We have plenty of work and fine prospects," W. G. Starny, president of the New Idea Hosiery Company, declared.

"I believe business will get much better," declared J. William Bowman, of Bowman and Company.

FRANKLIN NOT AVERSE TO TAX

President Declares Large Payroll Will Not Be Curtailed; 200 Cars Weekly

Optimism was the dominant note of comments made yesterday by H. H. Franklin, president of the H. H. Franklin Manufacturing Company, on what is happening in the automobile business now that this country is at war with Germany.

Mr. Franklin's views, conflicting somewhat with those promulgated by the National Automobile Chamber of Commerce in the fight against the proposed war tax on automobiles, were of particular interest in bringing out the fact that the Franklin industry, having the largest factory in Syracuse, has not suffered any curtailment through the declaration of war.

The Franklin company will pay a tax of \$1,000,000 on its factory output if the proposal contained in the war revenue bill, now pending in Congress, to put a 5 per cent. tax on the list price of passenger automobiles, is adopted. This estimate is based on scheduled production for a year beginning June 1.

More than 2,000 persons including the office force, are now employed at the plant and \$70,000 is paid out every week in wages. Two hundred motorcars are being produced each week.

"When a state of war with Germany was declared to exist, this company was 2,000 cars behind on shipping orders," Mr. Franklin explained. "With the increase in output, due to plant expansion, orders are being shipped in about equal numbers to the company is still approximately 2,000 cars behind on shipping orders.

"It may be reassuring to Syracuse people to know that the Franklin business for the six months ended May 1, 1917, shows an increase of 143 per cent. over that of the preceding six months."

The Franklin Company, according to its president, is not particularly disturbed over the government plan to put a 5 per cent. tax on the list price of passenger automobiles. At the same time it has taken the position in communications to senators and representatives that nothing can be gained by singling out any one utility article for an extra heavy tax.

"What we want is prosperity," Mr. Franklin declared yesterday. "The automobile, no longer merely a thing for pleasure, is a great factor in prosperity, and has been for a number of years, simply because it keeps the money going around."

Nelson Williams Dies Following Operation

Nelson Williams, a member of the Williams family, for many years residents at Williams Mills, adjoining Dillsburg, Cumberland county, died Saturday at St. Agnes Hospital, Baltimore. He underwent an operation recently.

Mr. Williams for many years has been a resident of Lemoyne, Pa., in charge of the warehouses of the Paxton Flour and Feed Company. The funeral arrangements have not been completed. Services will be held at the home of a brother, Williams, at Williams Mills.

The survivors are: three brothers—James, Dillsburg; Abram, president of the Dillsburg bank; J. Elder, Carlisle; and one sister, Miss Elizabeth Williams, at home.

WHO WILL GET CHOATE'S TITLE?

Can Metropolis Supply Another "Grand Old Man of America?"

New York, May 28.—At the death of Joseph Choate, all the world proclaimed him "America's Grand Old Man." His was just the combination of ripe and picturesque old age, warm human nature and distinguished national service to win the title by unanimous consent.

He loved at times to jest at his own advanced age. On one occasion recently he was waiting in a lobby after a public meeting for a medical friend who was a little older than he. "Where is that old doctor?" he exclaimed with mock petulance. "That man's getting so old he wastes a lot of my time." This reminds one of an old boyish death of John Bigelow on his 84th birthday. Andrew Carnegie called to pay his respects and was greeted by Mr. Bigelow with, "Hello, my young friend."

Indeed, it was now the death of Mr. Bigelow, a week after that birthday party in 1911 that Mr. Choate succeeded to the national title of "Grand Old Man." Mr. Bigelow's title was based not only on distinguished diplomatic service like Mr. Choate's, but on an even longer service in the public eye as journalist and author extending over seventy years. He completed a book during his 82nd year. Shortly before his death he struck a public note in the New York Public Library and apologized for being late by saying he had just come from his dentist after a three-hour session, having anything for a dentist to work on at 94! Also imagine coming from a three-hour session of dental surgery and making a public speech.

Thus, like his buildings, New York's human landmarks pass. Indeed, in this city of change the human is often more durable than the inanimate. It is striking to walk the streets can succeed to Mr. Choate's title? Neither Andrew Carnegie nor Elihu Root, nor haunched DeBow can hope to succeed to the popular imagination, thought in the element of age and activity they might qualify. Mark Twain had he lived would have been the ideal title holder.

It may be that the metropolis must wait a score of years—or will it be until Col. Roosevelt has attained to fullness of age before it can claim another internationally acknowledged "Grand Old Man."

Time, so cherished and so abused by New Yorkers, has just lost two of its ancient abiding places in the passing of two historic clock towers. One in Central High school, the old tower of St. Paul's Church, which had ticked off a century of time when war was declared against Spain in 1898, struck a heavy and serious stroke at noon the other day and then for the first time in 119 years its time-worn ratchets were still and its steeple wavy.

Persons hurrying down Broadway, glancing at the large dial just as their great-grandfathers had done before them, were startled to see that the gilded hands were gone. Workmen were busily engaged in installing new works to replace the old ones which bear the name of "Clerkenwell, London, 1798."

A few days later, while the City Hall was being decorated for the reception of the British ambassador, the tower struck fire and another century-old timepiece was destroyed.

There is something personal about an old clock that makes its loss more felt even than the demolishing of an ancient building.

The Liberty Loan is one of the war themes most talked of in New York at present. The new slogan of its promoters, "A Liberty Bond in Every Home," bids fair to be taken literally here.

A sentimentally practical form of the flotation being practiced here is the inducing of parents to subscribe in the name of the young children. Many fathers in moderate circumstances report that their small sons have savings banks or postal savings accounts, outgrowths of their tin bankage, which are being converted into these bonds. There can be no more practical way of instilling ideas of patriotism in the minds of the young.

Conscription census is in the air now. To some people a census is particularly annoying.

HOVER TO ENLIST WOMEN TO SAVE NATION'S FOOD

Washington, May 28.—Enlistment of the country's housewives into the service of the food administration to accomplish conservation in the home is one of the first tasks to be undertaken by Herbert C. Hoover, as food administrator. The women will be recruited, Mr. Hoover announced today, through the aid of State Food Councils, State officials of the Women's National Defense Council and civic associations.

"It is the idea of the food administration," said Mr. Hoover to-day, "to ask every woman who presides over a household to come in as an actual member of the food administration, to thus be entitled to the badge of the administration and to sign a written pledge to carry out the advice and instruction of the food administration as far as her circumstances permit.

NO SESSIONS ON DECORATION DAY

Legislature Will Adjourn Tomorrow For Remainder of Week

The Pennsylvania Legislature will not sit on Memorial Day. The senators will probably adjourn late tomorrow for the weekend it will be determined to-night whether the representatives will adjourn tomorrow or Thursday or next week.

Indications are that the legislators will close up for the week to-morrow. A proposition for the Legislature to adjourn this week until Wednesday of next week to permit legislators to be in their home communities on registration day is being discussed, but action on it is uncertain. The object raised to it is that it would retard the closing up which some of the up-state men want to secure on June 21, although it looks more like June 28 as the time to quit.

The woman suffragists are deluging the members of the House with circulars in which the representatives are criticized for their attitude on the constitutional amendment and urged to support a motion to put on the calendar the Mitchell bill to allow women to vote at presidential elections.

U. S. UNIFORMS PLENTIFUL; NO CALL FOR CANADA'S AID

Washington, May 28.—Major General Pershing's army of 25,000 will wear the olive-drab of the United States land forces when it leaves for France, not the Canadian uniform. General staff officers made this plain to-day when their attention was called to a statement of a Canadian staff officer, that because of shortage of equipment, the United States army was compelled to call on Canada for uniforms.

Officers explained there were plenty of uniforms and equipment for the forces now in the federal service.

TEACHERS RE-ELECT

Officers of the State Teachers' League were re-elected at the closing meeting in Central High school Saturday. Miss Lucy W. Glass was chosen president; Miss Mary P. Lang, Pittsburgh, first vice-president; Miss Cecelia K. Bohr, Lehigh, second vice-president; James Lewis, Shenandoah, treasurer; Ira B. Shoup, New Castle, corresponding secretary; Miss Olive H. Church, Erie, recording secretary. The principal speaker at the sessions was Dr. O. L. Cornman, secretary of the Teachers' Retirement Plan, Philadelphia.
