

Important Matters Before West Fairview Council

West Fairview, Pa., May 28.—Some important matters will be brought up at an adjourned meeting of Borough Council to-night. One of the most important at this time is the passage of the fire plug ordinance on third reading. It is probable the ordinance will go through.

An ordinance providing a speed limit for automobiles and street cars will be brought up for consideration. Since the State highway through the borough has been completed it affords a good speedway for motorists and they have no lost any time taking advantage of this smooth road. An ordinance permitting the Cumberland Valley Telephone Company to maintain its poles and wires through the borough will come up on first reading. A tax rate on each pole will be fixed, which will be used to pay for police inspection of poles. The poor condition of the Valley Railways company's car tracks in the borough has been reported and Council will probably take some action.
