ROY GRADUATED A YEAR LATER than his brother and after attending the University of Pennsylvania at Philadelphia for a year entered Dickinson College, where he completed his course this year. Roy attended school nine years in the borough without missing a session.

R., decorated the graves in Baldwin Cemetery and the colored veterans, who are members of a Harrisburg post, decorated the Midland Cemetery graves. The exercises in both cases were preceded by parades.

The parade arranged by the Sergeant Lascomb Post members was one of the largest of its kind in the borough's history. In the procession were delegations of school children, Boy Scouts and several Spanish-American War veterans.

GOVERNOR SIGNS AND VEToes BILL

Puts His Signature to One Measure and Puts the Ax to Two Others

In approving the House bill increasing salaries of Philadelphia magistrates from \$3,000 to \$4,000 a year Governor Brumbaugh to-day issued a statement in which he said that while he has opposed increases he is mindful of the fact that the minor judiciary has responsible duties and determines many cases that would otherwise get into the courts and increase expense and delays. "The impelling reason for approving this bill is the fact that these magistrates pay rent for their offices and employ at their own expense a clerk and also bear from their salaries the cost of stationery, stamps and other office supplies. The net salary is inconsiderable and if men of the type worthy to serve are chosen they should be given this salary. Others should not be allowed to serve," concludes the Governor.

The Governor vetoed the House bill providing that Allegheny county orphan court judges should fix salaries of assistant clerks, holding that the salary board should pass on the salaries and that if such power was to be given to the judges it should be uniform throughout the State. In vetoing a House bill to refund money paid by a Pittsburgh concern for a oleomargarine license the Governor says there is nothing in the bill to show that the company was misled by any State official and that a mistake was made it was the company's own act. Governor Brumbaugh to-day vetoed a bill which was an echo of the special session of the Senate of 1883. It was to amend the estate of the late Joseph P. Kennedy, who was a senator from Philadelphia. The Governor says that this long delay in settling the estate of the late Joseph P. Kennedy, who was a senator from Philadelphia, is a claim made after a third of a century and is not supported by sufficient evidence to warrant its recognition. This claim should have been attended to long ago and this delay does not add to the credibility of the obligation.

Barth's home is in Englewood, N. J. He entered Pennsylvania Military College last September and expects to return to his class after service in France.

CAPITOL SALARY BILL DISCUSSED

McNichol Measure Will Be Dropped and Burke Bill Substituted in the Senate

The question of what increases of salaries are to be allowed in the State government because of the high cost of living and other matters which are being urged as reasons why more money should be voted for the salaries of the government will be settled in the Senate next week. The latest information is that the McNichol salary adjuster, which fixed every salary in the State government and was a monumental piece of work, the result of long labor and study, is to be abandoned and instead the Burke bill, which includes some of the features of the Crew bill, will be passed. The Burke bill, in brief, gives an increase of \$150 per year to persons on the State pay roll receiving less than \$1,500 per year. There are scores in that class, many of whom are \$1,200 to \$1,300 and the bill has been no change in their salaries for years. Efforts may be made to advance persons getting more than \$1,500, but it is not likely that they will get by. The Burke bill would increase the pay roll by about \$300,000 a year. The McNichol bill meant \$800,000.

It is said that the Governor is not disposed to pass any more salary raisers over his desk although there are some big ones on the lists. The bill to increase the salary of the Governor would not affect him as under the law he could not accept any of them. Neither the increase of the salaries of the compensation board nor the jump in salaries of legislative attaches will be approved, it is said.

Neither the increase of the salaries of the compensation board nor the jump in salaries of legislative attaches will be approved, it is said. The reason why the Defense Commission has been so chary about voting much money to the Public Safety committee is that the sliding scale of the contract for the board in May and it is said that the decrease in income as compared with March and earlier months will be notable. During May, June and July the State authorized contract payments as much as possible because in the later summer payment of the State school appropriation becomes due and it is necessary to husband money to meet this big demand.

Commission to Meet.—The State Defense Commission has been called to meet in the office of Governor Brumbaugh to-night to discuss future plans, notably those to be adopted in connection with the registration of the State's military forces. The request of Governor Brumbaugh, Attorney General Brown went to Washington to secure information on certain points in the registration.

Went to Philadelphia.—Dairy and Food Commissioner Foust went to Philadelphia to-day on matters connected with his proposed contract.

Bids Next Week.—The State Highway Department will open bids next week for the construction of five sections of road, including that in Swatara township.

New Officers.—Oliver Howard Paxson, Jr., of Philadelphia, was to-day appointed a second lieutenant in the machinegun company of the Third Infantry, and Dr. W. Clyde Decker, of Philadelphia, was appointed a first lieutenant in the same company.

The third ambulance company of the National Guard will be mustered into the guard to-night at Lancaster, by Lieutenant Colonel E. B. Benson of the Adjutant General's Department. The fourth is being organized at Pittsburgh.

Men Must Register.—Notices are being given to attaches of departments of the state government who are engaged in field work and who are within the age limit of the selective draft that they must give attention to registration on June 5, regardless of state work. Preparations for the registration are reported as close to completion at the office of the bureau here.

Asphalt Complaints.—The borough of Ashland to-day filed complaint with the Public Service Commission against the proposed increase in rates by the Shamokin and Mt. Carmel street railway, which would become effective June 4.

Leaves Capitol Place.—Harry Woodland, of Norristown, elevatorman in the Capitol for the last three years, leaves to-morrow for his home to resume machine work in one of the big plants near that place.

Set for June 4.—The West and South Pennsylvania railroad company will be heard by the Public Service Commission on June 4.

WANTS NO TERRITORY By Associated Press Amsterdam, May 31.—The declaration is made by the semi-official Nord Deutsche Allgemeine Zeitung, of Berlin, that Germany desires no extension of her territory for the purpose of aggrandizement or of political or economic accretion of power. Germany wishes solely to defend her own territory against foreign plans and against the newspaper says, and moreover demands such guarantees as will serve for the purpose of her future defense and self-protection.

FAMOUS BASS DIES By Associated Press Copenhagen, May 31.—A dispatch to the Berlin Lokal Anzeiger from Posen says Edouard De Reszke, famous as a grand opera singer and well known in the United States, is dead at his estate in Eriestriky, Poland.
