Lemon Juice is Skin Beautifier, Also a Whitener

Many women use just the juice of lemons to bleach or whiten the skin, but pure lemon juice is acid, therefore irritating, and should be mixed with orchard white. At the cost of a small jar of ordinary cold cream one can prepare a full quart of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoothener and beautifier. Just try it! Get three ounces of orchard white at any pharmacy and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It should naturally help to bring back to any skin the whiteness, the sweet freshness and flexibility of which it has been robbed by carelessness or trying atmospheric conditions.

What Billy Sunday Says

In one of his meetings at Boston the noted evangelist said, "I believe that every disease can be cured by some weed if we can only discover it. There is not an ailment that God hasn't somewhere an herb growing that will cure that ailment." The choice medicinal herbs which will cure women's ailments were discovered more than forty years ago, and have been doing their beneficent work for half a century. Lydia E. Pinkham combined them in convenient form in her famous Vegetable Compound, which is to be found in the drug stores where every ailment woman may conveniently get it at small cost. It does the work.—Adv.
