THIS STOPS HAIR FROM FALLING OUT

Ever try to count the dead hairs in your comb and brush? They are nature's advance warning of future baldness and proof that the dangerous little dandruff germ is busy on your scalp.

Dr. Sangerbund, the famous Paris specialist, first discovered that dandruff falling hair is caused by a microbe. Then came the discovery of the value of the real Parisian Sage (liquid form) in destroying the dandruff germ and promptly preventing the further loss of hair. The effect of only the Parisian Sage is simply marvelous, and the American people have now awakened to the fact that dandruff is just as unnecessary as it is unhealthy, and that they can be quickly rid of it and save their hair by using a few ounces of Parisian Sage.

A large bottle, enough to last a long time, is inexpensive at drug and toilet counters everywhere. It's an ideal, daintily perfumed liquid, free from grease and stickiness, and will surely cause hair to grow soft, lustrous and frizzly again twice as abundant. H. C. Kennedy always has a fresh stock and can supply you. Be sure you get the genuine Parisian Sage (Giroux's) and that is the one that has the guarantee printed on every package. —Advertisement.

New York, June 5. — A resolution declaring alcohol entirely without merit from a medicinal viewpoint, was presented to the House of Delegates, the governing body of the American Medical Association, which opened its annual meeting here yesterday, by Dr. Frank Billings, of Chicago, chairman of the Council of Health and Public Instruction of the association. The resolution declared it was the unanimous opinion of the Council of Health that alcohol has no drug value, either as a tonic or a stimulant or in any other therapeutic way, that it has no value as a food or as a preservative and in the preparation of medicinal products, and that its only legitimate use in medicine is as a solvent for pharmaceutical products.
