

NEW INSECTICIDE ACT EFFECTIVE

Measure to Require Purity of Mixtures Used by Farmers Now Operative

The State Department of Agriculture is taking steps to enforce the new state law forbidding adulteration of paris green, lime sulphur combinations and other materials used in spraying in orchards and farms.

Under terms of the act, all packages are required to be labeled and to show percentage of amounts of active ingredients used in the insecticides. It applies to all such preparations.

HEADACHE STOPS, NEURALGIA GONE

Dr. James' Headache Powders give instant relief—Cost dime a package.

Nerve-racking, splitting or dull, throbbing headaches yield in just a few moments to Dr. James' Headache Powders which cost only 10 cents a package at any drug store.

THROWS LIFE LINE TO STOMACH SUFFERERS

"I want to say just this to everybody who is afflicted with stomach trouble—take Tanlac and get rid of your misery," says Oliver M. Buffington, of 733 Pear street, Reading, Pa.

Put Value Into Buildings

It is just as important to use good framing and joists as it is to select good timbers for sills or beautiful finish and hard wood floors for interior.

True, the framing is not visible in the eye, but its quality tells as time goes on.

Unightly cracks in walls and ceilings are often caused by lumber that has not been properly seasoned because such lumber can be purchased for a little less price.

We furnish good, honest lumber. The next time you buy lumber give more thought to quality and less to price.

FRUIT CROP MAY BE SPLENDID ONE

All Signs Favorable Say the Reports to the Department of Agriculture

Prospects for splendid crops of apples, peaches, pears, plums and cherries remain most satisfactory throughout a greater part of the state, according to reports received by the State Department of Agriculture from its crop correspondents in the various townships of the state.

"While frost killed many of the peach buds in the central and northern counties, all indications point to a bumper crop in the big peach-growing localities," says a State official.

"The apple prospects indicate a crop of about 95 per cent. of normal this year, and last year at this time the percentage was for only about 60 per cent. of a normal yield.

MacMillan Expedition Discovered New Islands

New York, June 6.—The first detailed news from Donald B. MacMillan, head of the so-called Crocker Land expedition, announcing that he and his companions had only enough supplies to last until August of this year, and urging that another relief be sent to them, has been received here by Dr. Henry F. Peck, president of the American Museum of Natural History and chairman of the Crocker Land committee.

It was announced that the steam sealer, the ship Neptune, chartered recently by the committee, probably would sail about July 1 from Nova Scotia, under command of Captain Robert A. Bartlett, for Etah.

PENN STATE STUDENTS ENROLL

State College, Pa., June 6.—Registration of more than 500 students of the Pennsylvania State College for military service under the selective draft act was completed here this week.

SUFFERED NINE YEARS

Spartanburg, S. C.—"For nine years I suffered from backache, weakness, and irregularities, so I could hardly do my work. I tried many remedies but found no permanent relief.

"I doctored and doctored, but could get no relief and I was almost discouraged when I remembered having read of the good work done by Tanlac.

"I started taking this famous remedy only a few weeks ago, and now my stomach is as good as new. My appetite is fine. I can eat anything I want and I sleep soundly and restfully all night. That's why I am glad to recommend Tanlac for I know by experience what it will do."

Tanlac, the famous reconstructive tonic, is now being introduced here at Gorgas' Drugstore, where the Tanlac man is meeting the people and explaining the merits of this master medicine.

Tanlac is also sold in Carlisle at W. G. Stephens' Pharmacy; Elizabethtown, Albert W. Cain; Greencastle, Charles B. Carl; Middletown, Colin S. Fawcett's Pharmacy; Waynesboro, Clarence Croft's Pharmacy; Mechanicsburg, H. F. Brunhouse—Adv.

THE "COME-BACK"

The "Comeback" man was really never laid-out. His weakened condition because of over-work, lack of exercise, improper eating and living demands stimulation to carry the cry for a health-giving appetite and the refreshing sleep essential to strength. GOLD MEDAL Heartum Oil Capsules the National Remedy of Holland, will do the work.

TECH ORATORS TO SPEAK AT COMMENCEMENT EXERCISES

LESTER B. ZIMMERMAN KENNETH F. STARK

GILBERT I. STEWART SIDNEY KAY

Lester Batdorf Zimmerman, Kenneth Riley Stark, Sidney Kay and Gilbert Ireland Stewart will be the four speakers at the Technical High school commencement exercises, Zimmerman and Stark were selected because of their splendid scholastic standing while Stark and Kay were the winners in a recent competitive contest in public speaking.

President Is Asked to Arouse People to the Dangers of the War

Washington, D. C., June 6.—Declaring that the United States is fast approaching a crisis where any day may see actual warfare brought to its own shores, the Chamber of Commerce of the United States has sent to President Wilson a resolution asking him to name a special commission to investigate the war, give the people the truth and arouse them to a sense of their danger.

The resolution, which is sent out under the signature of Joseph P. DeFrees, of Chicago, chairman of the chamber, sums up the country's peril thus:

"There are possible and even probable contingencies which might cause the United States to bear the brunt of the fighting on her own shores. They are:

Boy Scout Summer Camp Planned by State College

State College, Pa., June 6.—A permanent camp for Boy Scouts will be maintained at the Pennsylvania State College this summer. Establishment of the rendezvous was announced by the authorities providing for scoutmasters to bring their troops here on hikes.

While in camp here, the college will give the scouts rudimentary instruction in forestry, first-aid, nature study, agriculture and such other subjects as the boys may be interested in. Sleeping and living quarters will be provided by the college, and meals will be furnished at cost to those who do not care to do their own cooking.

Persons wishing to take advantage of the privilege are notified to communicate with the college authorities at least two weeks in advance so that accommodations may be arranged.

Letter List LIST OF LETTERS REMAINING IN THE Post Office, at Harrisburg, Pa., for the week ending June 2, 1917. The Ladies' List—Mrs. Sarah J. Cranner, Douglas Francis, Miss L. K. Goodrich, Elsie Howe, Rachel M. Carrell, Miss M. L. Manning.

JAPAN MAY TAKE RUSSIA'S PLACE

Island Kingdom May Send Troops Into Europe's Battlefields

Washington, June 6.—Japan has informed the Provisional Government of Russia that, if Russia withdraws from the war, Japan, in consultation with England, will consider what measures to take. It was indicated in a high diplomatic quarter that Japan and England both will exchange views with the United States concerning Russia.

The Provisional Government has been warned that, if Russia accepts a separate peace with the Central Empires, she will become another Austria under German domination. Japanese and British diplomats in Petrograd have sought to convince the Provisional Government that Russia has nothing to gain but everything to lose by withdrawing from the war.

How You May Change Your Face Completely

Any woman not satisfied with her complexion can easily remove it and have a new one. The thin veil of stifling half-dead cuticle is an embarrassment and should be removed to give the fresh, vigorous, young skin underneath a chance to show itself and to breathe.

Members of the Senior class are now taking their final examinations, after which they will make arrangements for their commencement week program. Final honors in scholastic standing will be announced following the completion of examinations the middle of next week.

Work For Boys and Girls Is Outlined

Organization of societies for the young people of the Fourth Street Church of Christ is proving successful under the direction of the Rev. J. G. Smith, pastor.

A boys brigade has been organized with a membership of eighty and is planning some big time for the coming summer. A training nurse is giving a class of twenty-five girls instructions in first aid work and the girls will soon complete the course. The boys plan an outing for several weeks next month in the nearby mountains while the girls have similar plan outlined. An entertainment will be held in the near future for the benefit of a fund to be used in purchasing uniforms for the boys in the brigade.

WILD LETTUCE AS GREENS

Wild or tall lettuce, sometimes also called false dandelion, is a leaf green that few people know or appreciate. Its leaf is similar to the dandelion. It is, however, more tender and somewhat less bitter.

This plant differs from the dandelion. It has a central stalk, and like Swiss chard, sometimes called "pooe" man's vegetable, and New Zealand spinach will, if kept picked close, continue to put forth young and tender leaves. It may, therefore, be used much later than dandelion or other greens.

Let Brown & Co., Furnish Your Home

Harrisburg's Big Uptown Home Furnishers 1217-1219 N. Third St.

No other store in Harrisburg is better equipped to supply your home needs than this store. No other store in Harrisburg can or will quote you any lower prices, possibly not as low prices as this store. This store is situated in the North Third street business section, near Broad street, occupies three

large buildings and shows one of the largest stocks in Central Pennsylvania. Economical expenses, with prices accordingly keep our business growing steadily. If you have a home or part of a home to furnish this month, be sure to visit this store. We can and will save you money. CASH if convenient, CREDIT if desirable.

Maxwell's Great Engine Cuts Your Gasoline Bill in Half

Thousands of Maxwell owners run their cars for \$6 to \$8 a month—the Maxwell sets the pace for the world in upkeep economy.

Mechanical efficiency—that's the fixed, unswerving purpose of the Maxwell organization, from the President down to the youngest and newest apprentice. The real motor car—the real Maxwell—is on the inside, where you can't see it. Motor car value depends on the hidden machinery not on a glossy body, rich upholstery, handsome lamps, —not on gimmicks and novelties which are only too often dangled before the public, for much the same reason that a fisherman decorates his hook with gay feathers and bright metal ornaments.

The Maxwell has one chassis model—one stable, time-tried model, —never tinkered with by the fellow with an untested idea to exploit, —but a model that has been developed, refined, perfected, year by year—soberly, painstakingly, scientifically.

The Maxwell Mechanically Right The Maxwell Motor Company waited four years to make that statement. Starting on sound, scientific principles—the company spent four years in bringing its car to mechanical perfection.

The goal is won—undisputed facts prove it. For example, a Maxwell stock car—with an engine identically like your Maxwell will have covered 22,022 miles in 44 days and nights, without the motor ever stopping. That car traveled at 25 miles an hour, —made 22 miles per gallon of gasoline, —and scored a record never equalled by any other vehicle built by human hands.

Proof of Maxwell Economy Thousands of witnesses spring up all over the land to testify to that—a veritable army of enthusiastic Maxwell owners who report

—that they get upwards of thirty miles per gallon of gasoline—some even forty, —and that they run their cars at a monthly expense of \$6 to \$8. Mrs. Miriam Thayer Seeley, Professor in the Oregon Agricultural College, drove her Maxwell across the continent and back—9,700 miles over every conceivable variety of road—on an expense bill of \$8.19 month for gasoline, oil and repairs. The Maxwell costs \$665 f. o. b. Detroit —and that small price is distributed over many years —for you get many, not merely one or two, years of service out of a Maxwell.

How The Maxwell Machine Excels The engine is a marvel, sturdy, durable, simple, dependable, with power to spare. The transmission is simple, smooth, self-lubricating, scientific, trouble-proof. The Maxwell clutch runs in oil—is wear-proof—more efficient than the clutch in any car made, no matter what price or class. Maxwell axles are designed—forged, heat-treated and built complete in our own factories. They have stood up in service under four years of the severest road tests possible to give them by more than 200,000 owners.

The Maxwell Proves Itself We stake our reputation that the Maxwell will more than make good on all we have told about it. All we ask of you is that you will let us prove it. Come in to our sales rooms and let the car demonstrate itself to you. It won't take you long to realize that we have not said enough in praise of the Maxwell. Roadster, \$650; Touring Car, \$665; Cabriolet, \$865; Town Car, \$915; Sedan, \$985; completely equipped, including electric starter and lights. All prices f. o. b. Detroit.
