

EAGLES TAKE PATRIOTIC STEPS

Buy War Bonds, Enroll Men in Army and Raise Death Claims

Subscriptions to the Liberty Loan enrollment of men in the army and the raising of the death claims to \$1,000 for those killed in war are the patriotic moves recommended to subordinate lodges by Grand Worthy President Rex B. Goodell, of the Eagles. As adopted by Harrisburg Aerie, No. 122, Fraternal Order of Eagles they are:

pre-eminently patriotic in its purpose and teachings. Desirous of stimulating its membership to the highest ideals of citizenship and loyalty to country, its executive officers and grand trustees in meeting assembled, promise and pledge its membership of nearly one-half million men to accomplish the following objects:
1.—To subscribe for \$1,000,000 of the Liberty Loan.
2.—To urge our members everywhere immediately to register for service and in every way to promote the efforts and support the officers having charge of enrollment for military service.
3.—To unite our membership and their families in serving our government in its prosecution of a successful war; and to lighten the burdens of our sons and brothers engaged therein, in order that the blessings of liberty, justice, equality and human rights may be enjoyed by all men everywhere to the end that true democracy and fraternalism may be enthroned in the hearts of men.
4.—To assume the dues of our members while in the service and guarantee their benefits during the war.
5.—To create a patriotic fund to be subscribed by our entire membership, from which shall be paid the premium upon a life insurance policy of \$1,000 payable as an additional death benefit to members losing their lives in any branch of military service; to recommend to the Grand Aerie the enactment of such laws as will generously and patriotically provide for the care of the families of our members who are serving their country.
6.—As your Aerie worthy president, I endorse the following resolution, and call upon each member of our order to do his part towards the full accomplishment of the pledges contained therein subscribe, individually and as an Aerie, as liberally as you possibly can, to the Liberty Loan, your Aerie subscription may be made from the benefit fund.
7.—We are loyal, true, patriotic American citizens. We stand staunchly behind our country in its war for the preservation of human rights and liberty.

RUTH LAW ON LIBERTY LOAN TOUR

Ruth Law left Cleveland the other day to fly over many northern Ohio towns and others in the Mississippi Valley bombing them with paper bombs to remind their residents they should subscribe to the Liberty Loan. She planned to complete her tour with a flight from Chicago to St. Louis, June 15, the day the subscription will close.

PLAN CAMPAIGN FOR \$100,000,000

Red Cross Gets Letter From National Body; Expected to Do Share

"The British Red Cross flies behind the lines of every one of the allies, can we with our unbounded wealth and resources do less?" This is an appeal from National Red Cross to every chapter in the United States. The remainder of the letter is devoted to the necessity of each chapter doing everything possible to raise the \$100,000,000 war fund now required for complete operation of the Foreign Red Cross units.

Mention is made of the work the Red Cross in war devastated Europe. Not only are efforts made to relieve the suffering of the wounded in battle, to care for their moral and physical welfare but to rehabilitate the country devastated by the Germans in their advances and retreats. Two More Auxiliaries Men recently returned from the front tell of stretches of country twenty miles square mowed clean of every sign of human life. Every thing that was of any value, trees, crops, houses and barns, were chopped down, even the roads torn into impassable gullies. It is the hope of the Red Cross to erect buildings and to cultivate the land. If sufficient funds can be secured land now bare of every sign of life will be put into service to supply the necessities of the fighting men at the front. In most of the countries all available land is being cultivated, and under cultivation the women and children will be unable to supply the additional demands for food that America's great armies will make on the warring nations. Red Cross auxiliaries were formed last evening at Dauphin and Loyaltown. Mrs. George Kunikle, Mrs. John Y. Boyd and Mrs. H. G. Cox spoke at Dauphin and secured an initial enrollment of twenty-seven members. James E. Lentz, Mrs. Philip Meredith, Mrs. Lewis Palmer and Miss Frances Morrison.

SALARY BILL PASSES SECOND

Now Coming Up For Third; Termed "Life-Saver" by Hill Workers

The bill to provide cash for salaries of attaches of departments of the State Government from June 1 until the approval of the general bill was passed on second reading in the House today. The bill has been termed the "life-saver" as it will prevent the cashless period generally prevalent on the Hill when a Legislature adjourns and dumps many bills on the Governor. Owing to nondelivery of bills, a number of measures could not be considered. The Woodward bill establishing a State Salary Board was defeated in the House to-day, falling fifteen votes short of the number needed to pass. The board would be composed of the Governor, Auditor General and State Treasurer, and its creation was recommended by the Economy and Efficiency Commission. The Philadelphia single council bill, which was the cause of considerable controversy in the House late last night, was affirmatively reported by the House at the opening of the session to-day. The sitting of the House to-day was the first Friday session this year. Mr. Campbell, Philadelphia, reported the Philadelphia council bill, the municipal reform bill, and the city council session, at which the bill was affirmatively recommended. There was no comment when the bill was reported.

U. S. Railways Sham to Move Necessities

Washington, June 8.—Howard Elliott, former president of the New York, New Haven and Hartford Railroad and now a member of the Railroad War Board, in a statement outlined the efforts the war board is making to arrange for movement of the essentials of life and war, rather than the things we can get along without in this terrible world crisis. "The war board feels," Mr. Elliott said, "that it is going to be a great deal more important for this country to move food, fuel and iron and like than to move luxuries. We hope that we are going to be able to move them all, but I think it is only fair to point out the facts and to ask the public's support." "On May 1 there was, according to the record, a shortage of 130,000 cars. If, through better loading by the shipper, better unloading by the consignee, better movement by the railroad and more alert work by every man on the railroads, each car is used more efficiently, it will not take long to get what amounts to an added service of 150,000 cars out of the cars on hand."
