

Admiral Benson Shows Charges Against Chicago Training Station Untrue

By Associated Press
Washington, June 15.—Admiral Benson, chief of naval operations, after a personal inspection of the Great Lakes training station at Chicago, has reported to Secretary Daniels that conditions are very good and the morale excellent. Complaints had been made that the men were badly cared for.

Due to a large and rapid increase in the number of recruits, many cases of sickness have been reported, but energetic measures have reduced the number materially and investigation by Admiral Benson convinced him that there is no just cause for complaint.

"I have never seen a healthier and a finer looking lot of young men," said the admiral.
Admiral Benson visited the training station, saw almost every man, the camps and buildings, inspected the housing and cooking arrangements and talked with the men as to general conditions, their food and treatment. He reported he was assured by the men that the food was good and the treatment considerate.

Thinks Tanlac Is a Great Remedy
"Tanlac certainly is a great medicine," exclaimed Mr. William S. Balthasar, of Bernville (near Reading) Pa., "for the way it helped me when I was so terribly run down was nothing short of a miracle."
"I had suffered for a long, long time with stomach trouble and rheumatism and I was in terribly bad shape. I had pains in my stomach and my limbs ached so that I was in perfect agony. I had terrible headaches and pains over my eyes. "My appetite was fairly good but nothing agreed with me and my food would ferment in my stomach and fill me full of gas. I was constipated all the time and although I always felt tired and worn out I could not sleep the night through but would toss and tumble continually. "But Tanlac acted like magic. My stomach now is in fine condition; my headaches have gone away, my rheumatism has in 100 sleep fine and feel like my old self once more."
Tanlac, the famous reconstructive tonic, is now being introduced here at Gorgas' Drug Store, where the Tanlac man is meeting the people and explaining the merits of this master medicine.
