Herrmann Admits Outlaws Were Paid to Quit; Strong Denials

FEDS DROP THEIR SUIT
Philadelphia, June 15.—The Balimore Federal League Club to-day
irropped its suit against organized
aseball.

Philadelphia, June 15 .- The most damaging testimony against the de-fendants so far in the suit for \$500,-000 damages, brought by the Balti-more Club of the defunct Federal league, against organized baseball. was heard from Garry Herrmann, chairman of the National Commission, O. B.'s supreme court, yesterday, when he was turned over to Attorney Farr for crossexamination in the United States district court. Hermann was apparently anxious to testify, and in his direct examination few questions had to be asked. He knew what was mad to be asked. He knew what was wanted of him and in many instances volunteered information without being asked. But his tactics changed when the first bomb was exploded by Attorney Farr on crossexamination. "What do you base your opinion on when you say that the Baltimore franchise in the Federal League was not worth a dollar in December, 1915?" queried Mr. Farr.

The Federal League was on its last

The rederal League was on its last legs and no franchise was worth anything with that organization then," readily responded Garry.

"Then," Mr. Farr continued, "if the Federal League was on its last legs and franchises in it were worthless, what made you pay Brooklyn approximately \$400,000, and other clubs \$50,000 to quit?" 000 to quit?"

Herrmann seemed stunned. Instead
of the usual prompt reply he considered for awhile and then said:
"To re-establish public confidence
in the game. And, too, dissension had
arisen because of the conflict. We
couldn't properly discipline players
because they threatened to 'jump' to because they threatened to 'jump' to the Federals if things didn't go their

way,
Attorney Farr was about to proceed further with his crossexamination of Herrmann on this point, but Judge Dickinson interrupted by announcing that the court would adjourn for the day, the fourth inning of the proceedings.

As a going concern, Herrmann had

As a going concern, Herrmann had aid, the business of the Baltimore club, including the ground, prayers, stee, wasn't worth a dollar, and would not bring this much on the market. If Garry's opinion is unimpeachable, hen the Baltimore Club hasn't suffered a cent's worth of damages through the peace pact.

The only crossexamination of Herrmann by George Wharton Pepper of counsel for the defendants was: "Was the Baltimore park always filled to capacity?" Herrmann said he didn't learn.

"You should have seen the crowd
there on the opening day," commented
Attorney Farr of the plaintiff counsel,
"We don't know how many of them
were deadheads," replied Mr. Pepper.

Herrmann.

Organized baseball never attempted a monopoly of the game because it had no need to fear competition, and he is on record as believing in the freedom of any club or league entering the game as a competitor of the big leagues, declared Herrmann in his testimony.

They say that life in the trench is rough—But life in the bunker's worse;
The one is bloody and raw and tough,
But the other's a living curse;
It's no fun battling hand to hand
In the shell holes deep with mud,
But it's no fun sweltering in the sand
While the soul is running blood.

Life in the trench is a fearful thing
Where the shrapnel echoes swell;
Where the big bombs break and the bullets sing—
But the bunker's a living hell;
To see your score mount, stroke by stroke,
Where the deep put kills your mirth,
To whale away till your back is broke
Is the roughest life on earth.

### THE TURNING TIGGER

Secretary "Billy" Cleckner, of the Harrisburg Sportsmen's Association, has received word that Al Heil, state champion, will be here next week for the two-day registered shoot. Heil is the only shooter to make a clean score for the title in twenty-five years. He seldom misses a registered event.

Washington, June 15. — Since America's entrance into the war at least 20,000,000 people of the country have been reached by publications of the Department of Agriculture bearing on the food problem, Assistant Secretary Vrooman announced to-day.

A bulletin on small vegetable gardens has attained a circulation of more than a million copies and 250,000 circulars on canned fruits and jellies have been distributed. Posters containing President Wilson's appeal against a waste in food have been sent to a million and a quarter farmers and housewives. Bulletins on food production and conservation have also been in great demand.

# "Peurchigne" Is Pershing's Name in French Capital

Paris, June 15. — The Paris newspapers found room yesterday to enlighten the public on the proper pronunciation of General Pershing's name—a name which, as the Figaro says, is "not one easily enunciated in the accent of Montmartre."

There was much diversity in the pronunciation among the populace, the favorite rendering being "Pareshing." But, adds the Figaro, "it will be common knowledge that the name of the American general who comes to fight beside our soldiers is pronunced 'Peurchigne.'"

York County Exceeds Allotment by \$25,000

York, June 15. — York county has oversubscribed its allotment of Liberty bonds by \$250,000. The allotment was \$2,000,000, but by 3 o'clock yesterday afternoon Clearing House officials checked up two and a quarter millions. Of course, reports from work yesterday and this morning is expected to increase this considerably. It is estimated that 5,000 people of this city subscribed.

NATURAL HISTORY EXCURSION NATURAL HISTORY EXCURSION
The officers of the Harrisburg Natural History Society announce a field excursion to take place to-morrow. The district to be covered is between Marsh Run and Riverview, York county. The greater portion of this region is a kind of lava rock, known as traprock. In the soil derived from it many interesting botanical specimens are to be found.

Members of the society will leave the P. R. R. Station at 11.55 a. m. and will return at 7 p. m. While at Riverview headquarters will be at the Riverview cottage.

BALL PLAYERS AND THE UMPIRE

We have heard a number of managers and ball players protesting volubly over the czar-tinted authority given umpires.
But the manager and ball players protesting.
The claim is made that umpires given all this autocratic control, run the game in high-handed fashion and take advantage of the situation.
This, to a certain extent, is true.
But the manager and ball player should also remember this — the umpire was given this authority exclusively on account of the action of incanagers and ball players.
They bought it all upon themselves by outbursts that would have soon broken up the game if left uncurbed. In every game they were eighteen or twenty, against one, not including the public, which generally made it 6,000 against one.

## Mother Forces Her Son to Enroll For Service

Philadelphia, June 15.— A white-haired woman walked into headquarters of the registration commission in City Hall vesterday with an unshaven, stoop-shouldered man following her reluctantly.

"He is my son," she told a registrar, and I want him to register." The man demurred, muttering something about his unwillingness to fight and that he did not know his exact age. He made an effort to reach the door. The mother prevented his exit, however, and declared she was certain he was 28 years old.

I want him to do his duty," she explained, "and he has been trying for a week to get out of it. I do not want my son to be a slacker."
