HELP THE RED CROSS NOW!

The work of the Red Cross when its doctors and nurses are personally ministering to our wounded and dying sons, but in the meantime we need a quickening sense of the fact that there will be insufficient means for the work unless it begins in time.

Do Your Part Now

Volunteer your dollars that the life and health of our soldier boys may be saved. Saving soldiers is the work of the American Red Cross—so give liberally and help win the war.

Watch the Cross on the front of our building. Each small square represents five thousand dollars. As the money is contributed the Cross will be painted red, the red portion indicating the total amount of the contributions up to date.

Washable Fabrics Have the Call. Here are dainty fabrics so fine, so exquisitely woven that fairy fingers might have held the shuttle which wove them. Certainly no fairy dresses could be more beautiful than the colorings of some of these new voiles and gingham.

The Call of the Red Cross

The people of the United States of America this week will raise one hundred million dollars for the American Red Cross. Harrisburg has been asked to contribute her share — only \$100,000.00.

Now—this week—is the time of need for the initial sum which will fit this great army and navy auxiliary for its humanitarian work.

There will be no lack of appreciation for our young men by the thousands are soon to enter the conflict; they will need the services of the doctors, nurses, ambulances, hospitals, medicine and supplies—they may need them in the mobilization camps before they embark even.

Dr. Beck, The Well Known Eye Specialist and Doctor Judkins, The Medical Author, Publish Astonishing Report on Wonderful Remedy To Strengthen Eyesight

Say It Strengthens Eyesight 50% in One Week's Time in Many Instances

DR. BECK

A Free Prescription You Can Have Filled and Use at Home. New York.—Dr. Beck, a New York State eye specialist, and Dr. Judkins, a Massachusetts eye specialist, were asked to make a thorough test of the popular eye remedy, Bon Opto. Their reports were most interesting. Here they are:

DR. JUDKINS

Dr. Judkins, Massachusetts physician, formerly Chief of Clinics in the Union General Hospital, Boston, Mass., and formerly Director of Medical and New England Eye and Ear Infirmary of Portland, Maine, and medical author of many books, reports: "I have found oculists too prone to operate and opticians too willing to prescribe glasses when the matter is simple formulas which form the basis of that wonderful home treatment for eye troubles, Bon Opto. This, in my opinion, is a remarkable remedy for the cure and prevention of many eye disorders. Its success in developing and strengthening the eyesight will soon make eye glasses old-fashioned and the form of eye baths which the Bon Opto method provides, will make its use as common as that of the tooth brush. I am thoroughly convinced from my experience with Bon Opto that it will strengthen the sight of at least 50 per cent. in one week's time in many instances. Dr. H. Devine, Director of Medical Inspection in the Boston schools, in his report published February 20, 1917, stated that only 14,016 out of 89,175 examined, need to wear glasses now, a marked decrease over the previous report. Bon Opto is hastening the eye-glassless age in bespectacled Boston."

which induced severe headaches. I have worn glasses for several years, both for distance and close work and let it dissolve. With this liquid name on an envelope or the typewriting on the machine before me, I can do both now and have discarded them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions were wonderfully benefited by the use of this prescription at home. Here is the prescription: Go to any active drug store and get a bottle of Bon Opto tablets. Drop one Bon Opto tablet in a fourth of a glass of water and let it dissolve. With this liquid bath the eyes two to four times daily. You should repeat this treatment every day for a week. If you start and inflammation and redness will quickly disappear. If you are bothered you even a little, it is your duty to take steps to save them now before it is too late. Many hopeless blind might have saved their sight if they had cared for their eyes in time.

NOTE — A most prominent physician to whom the above article was submitted, said: "Yes, the Bon Opto prescription is truly a wonderful remedy. Its constituent ingredients are well known to eminent eye specialists and widely prescribed by them. I have used it very successfully in my own practice on patients whose eyes were strained through overwork or mist glasses. It is one of the very few preparations I feel should be kept on hand for regular use in almost every family. Bon Opto referred to above, is not a patent medicine or a secret remedy. It is an ethical preparation, the formula being printed on the package. The manufacturers guarantee it to strengthen eyesight 50 per cent. in one week's time in many instances by all good druggists in this city, including H. C. Kennedy, Croll Keller and J. Nelson Clark."
