

Wild Cherry For Coolness

Anything cold is refreshing in hot weather, but there are certain cold drinks which are especially welcome and one of these is the delicious wild cherry phosphate sold by the Grand Union Tea Company, 208 North Second street. The piquant tartness of the wild cherry flavor quenches the thirst and leaves one refreshed and invigorated without any of the sickening feeling that, often comes from drinking sweet summer drinks. This wild cherry phosphate is sold by the Grand Union Tea Company for just twenty-five cents a bottle, and each bottle makes sixty glasses, so that the drink is inexpensive enough to keep a generous supply on ice at all times.

The New Colonials

What many people consider the prettiest Colonials every designed in all the history of this most attractive and becoming kind of footwear, are now shown at the Walk-Over Boot Shop, 225 Market street. They are of fine glazed kidskin, made with high tongues and large square buckles of black outlined on inner and outer edges with silver, while the metal inset in the smart French heel carries out this distinctive touch of silver. Though the details of this pump you design are especially faselinating it is the grace and beauty of the last that make this pump os strikingly smart, and this is but one of the many charming new models shown at this shop.

The Call For Summer Hats

A dark hat looks out of place with the fresh white skirts and cool summer frocks that the weather now demands and the showing of new white hats at Astrich's new store, 308 Mar-

ket street, offers just the styles that both hot weather and the dictates of fashion suggest. Nothing is more popular just now than the fine white Milans either in the broad sailor shapes, the big dress models, or the clever little double-brimmed hats for general wear and the prices on all of these are most tempting.

Cooling the Summer Sun

Cooling the Summer Sunight can be softened and the rooms of the home made cool and inviting by the use of the inexpensive cretonnes, figured linens and restful sunfast materials of unusual design shown at the Blake Shop, 225 North Second street. Not only in these materials for summer draperies is their showing noteworthy, but their assortment of dainty sheer fabrics in white for window curtains offers many of the simple, cool effects which make the house cool and restful and cost but little. Very popular is a fine white voile with hemstitched hem, while the dotted and barred Swisses and Marquisettes are crisp and cool-looking.

Very Small **Bracelet Watches**

It is surprising how small bracelet watches can be made without sacrificing accuracy. This is parti-cularly true of Gruen watches.

Swiss watchmakers have always been famous for producing small time-pieces. These experts make Gruen watches in an American factory, producing a rare combination of beauty, durability and accuracy which can be marketed at a moderate price. Come in and examine Gruen Bracelet Watches. Only Diener's is permitted to sell them in Harrisburg Prices range from \$15.00 to \$60.00.
