

MRS. PANKHURST VISITS RUSSIA

Suffragist Hopes to Instill Fresh Spirit Among the People

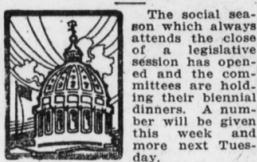

By Associated Press. Petrograd, June 20.—Mrs. Emmeline Pankhurst, the British suffragist leader, made an unexpected arrival in Petrograd yesterday. She appeared in the best of health and at once called upon the Root Commission. Mrs. Pankhurst conferred at length with Elihu Root and Charles Edward Russell and discussed what might be done to assist Russia in directing all the forces of the new democracy toward the struggle with the common foe.

People's War. One of Mrs. Pankhurst's first appointments will be with Madame Kerensky, wife of the minister of war. She is greatly interested in the attitude of the women's regiment and the report that Madame Kerensky is about to join it. In recounting the incidents of her trip from England, Mrs. Pankhurst announced with evident satisfaction that she had been present when sailors refused a passage to Ramsay MacDonald, the British Socialist leader, who intended to confer with Socialists in Stockholm and Russia.

RURAL TELEPHONE ARGUMENT. The question of when a rural telephone line shall be considered to have all the subscribers it can accommodate was argued before the Public Service Commission to-day in complaints of residents of Perry county against the Buck Valley Rural Telephone Company, No. 2. The company contended it had taken care of two people on one line and could not care for more.

Archie Miller, Who Shot Lemoyne Clergy, Asks For Clemency. The State Board of Pardons was today asked to commute the death sentence of Archie Miller, a colored man from South Carolina, convicted of shooting down John L. Beiser, a Pennsylvania Railroad policeman, and seriously wounding C. H. Chubb, also a policeman, near Wormleysburg last summer. Miller and a companion were stealing a ride and opened fire on the officers when they tried to arrest them. The supreme court upheld the conviction in the Cumberland county court. Counsel for Miller pleaded insanity and Julius L. Mitchell, a colored attorney from Brooklyn, presented facts about Miller's family. Fillmore Faust and Thomas E. Vale, of Carlisle, also appeared. District Attorney George Lloyd made a vigorous protest and W. A. Kramer joined in the objections to commutation. The board gave the attorneys plenty of chance to discuss the case, which attracted much attention. The board has a big list of cases to dispose of and this is the last meeting until September. Two applications for pardon were stricken from the list of the State Board of Pardons to-day by Lieutenant-Governor Frank B. McClain, the chairman, because attorneys in the case did not appear but sent letters saying they desired further continuances. "Counsel should give these cases the same attention they do to matters in court," said he. The cases stricken off were Frank Minnich, York, and Frank Brown, Bucks.

No Sugar in Germany For Preserving Fruits. Copenhagen, June 20.—The American controversy over the use of benzoate of soda is recalled by the recommendation of the German food department that this preservative be used instead of sugar in putting fruit, fruit juices and marmalade. The amount of sugar allotted for preserving purposes is so small per person that the department advises its use only with the most ripe and naturally the sweetest fruits.

EARLY ACTION IS EXPECTED ON POLICE SURVEY

Special Session of Council to Be Called Soon to Make Recommendations

Early action by City Council on the report of the recent police survey is looked for by residents in all parts of the city. While the report has been submitted to Council at an official meeting, it has not been gone over thoroughly by the city officials because of the absence of Mayor Miller. With the return of the executive, who is expected to-morrow, an informal session of Council will probably be called soon to take up all recommendations made by the New York Bureau of Municipal Research. Interest centers particularly in the statements that vice is going on openly here, in the traffic changes which are urged and in civil service for the police force. The civil service phase of the report probably will not be taken into until it is known whether the bill in the Legislature will become a law. Carson Stamm, chairman of the Chamber of Commerce committee arranging for the survey of the police department and School Board, with the other members of the committee is waiting for decision upon the part of Council, now that the police survey report has been made public.

Effective June 21, 1917. The Bell Telephone Company of Pennsylvania announces the adoption of a new schedule of toll and long distance charges on messages between Pennsylvania points and on messages between Pennsylvania and Delaware. Involved in this rate revision is the substitution of "two number" for "particular person" calling on toll messages between this city and a few nearby points to which the volumes of traffic are such as to warrant the provision of a special no-delay service. By a "two number" call is meant a call placed by number only, no "particular person" being asked for when the call is given to the operator. On a "two number" call the calling subscriber should not leave telephone but should remain with the receiver to his ear; the connection will be established immediately. Whenever this "two number" calling is substituted the initial period of connection has been increased from three minutes to five minutes. This method of "two number" calling is now generally in effect throughout the Bell system and connections between nearby points; by facilitating the handling of telephone traffic, it contributes very positively to the speed and effectiveness of the service and permits of a longer period of connection for the initial period. In cases where "two number" calling is now established for "particular person" calling the revised rates are determined on the same basis—as mentioned above—all uniform rates for like distances; and while some of the charges remain unchanged certain of them have been reduced and a few have been increased. The Bell Telephone Company of Pennsylvania. W. H. FETTER, Local Manager. Harrisburg, Penna.

HOW THE \$100,000,000 WILL BE SPENT. In response to many requests, Henry P. Davison, Chairman of the War Council of the Red Cross, makes the following statement: The Red Cross War Council has been asked to name the specific purposes to which it expects to devote the \$100,000,000, which it has asked the American people to contribute between June 18th to 25th, the period the President of the United States has set apart as Red Cross Week. The public is, of course, entitled to as specific a statement on this subject as we are able to make. Our first obligation is to render such service as comes within the province of the Red Cross to our soldiers and sailors at home and abroad. Consideration of the vastness of this undertaking alone as compared with any other situation ever known to us will impress one with the impossibility of forming a definite budget or specifying in particular the amounts of money required to care for our own countrymen. After making every provision necessary for this purpose, our endeavor will be to supplement the efforts of our Allies in caring for their sick and wounded. We shall help provide the bare necessities of life to the homeless in devastated France; to aid them to rehabilitate themselves and thus strengthen the man power of the French army. We shall strive to hearten Russia, by providing additional ambulances and other relief for the sick and wounded along the battle front. We shall try to succor the homeless and wandering peoples of Poland, Lithuania and Western Russia. We hope to extend aid to those who are fighting the battles of liberty in Rumania, Serbia and Italy—indeed to relieve human misery everywhere among our Allies. We have set \$100,000,000 as the minimum of our need. It is evident that we could use many times that amount. To administer these funds economically and efficiently we are developing an organization headed by some of the most competent and experienced business men in the country. They serve without pay. In due course we shall make a report to Congress so that the public may know the total amounts expended and how very small a percentage was found necessary for expenses. Before expending money, the most expert advice obtainable will be secured. Leaders in every line of related activity throughout the United States have freely placed their counsel and service at our disposal. While we recognize the desirability of a specific budget, we can only say that our task is to relieve human misery upon a world-scale at a time when more people are suffering than ever before in the history of mankind; and we shall pursue this task under the guidance of the ablest experts of the world. The American people can rely, therefore, upon the fact that the Red Cross War Fund of \$100,000,000, or however much more than that the generosity of the public will enable us to use, will be administered as efficiently, as economically and as large-heartedly as we know how to do it. We believe firmly that the efforts of our Red Cross can be a vital and possibly a deciding agency in helping to win this war. To us, of the War Council, that is a humanitarian service in the highest sense and to render it effectively will be our paramount purpose. Harrisburg Pledges \$100,000! Do Your Best!
