"Although the United States is already in the war, I can say that the position of the American Socialist party as a whole is strictly neutral and thoroughly international."

The report calls for the creation of a permanent Socialist committee, whose sole purpose would be to work for a permanent peace. W. J. Bryan Endorses Food Control Bill

Washington, June 21.—William J. Bryan, passing through the capital to-day added his endorsement to the administration food bill in this state-

"A government that can commandeer the lives of its young men and call for the money of its older men, should have power to protect the whole people from the greed of an unpartiotic few. I am not afraid to trust the President with the powers which the food administration bill proposes to confer. He acts in daylight and without a selfish interest. No President would abuse such a power."
