NEWS OF STEELTON SHOOT CRAP IN JAIL TO FIND WHO SHALL PAY FINE

Game at Steelton Ends in Big Row and Police are Called to Suppress Disturbance; Winner Gets Out Then Comes Back to Aid Pal

Arrested for gambling, two of the negroes in the Steelton lockup "shot craps" in the borough calaboose yesterday to see who would be the one lucky man to have his fine paid by the proceeds of the game. The gambling in the cell resulted in such a row that the police had to be called in to restore peace and quiet in the lockup.

Chief Gardner, who was in the station aside the lockup heard the commotion and when he went into the lockup found the negroes in a warm argument. The colored men were Wallace Clarke and William Williams. Clarke claimed that Williams stole \$3.50 from him, which the latter denied. The chief gave the prisoners a lecture and then Williams told his story in an undertone to the chief. Williams said that they were

gambling and that he won the money and did not steal it. This started the "row" again. Williams was removed to another cell and then Clarke said that the story of Williams' was correct and that he did not steal the money, but won it honestly. Clarke paid his fine and was released yesterday. Williams was left in the lockup after paying his fine. Yesterday Clarke returned to the station and asked whether Williams was still there. After being informed that he was let go, Clarke said that he returned to pay Williams' fine so that he could be released.

Captain Harrell is giving out today blanks to be filled by those desiring to list as members of the Rotary Contingent.

The Rotarians are making preparations for a big turnout to-night. The Orpheum will be decorated in the national colors. There will be no tickets other than those issued to members of the Citizens' committee, who will have seats on the stage and will be admitted by way of the stage entrance. Want Technical Men Lieutenant Amthor this morning began administering oaths to the many applicants for the Signal Corps. Up until the official opening of the office more than forty men had made application for the corps from this district. A temporary office has been opened in the rooms of the United Telephone Company, 209 Calder building, where applications are received and examination made.

This branch of the service will offer an unusual chance for men of technical training, according to Lieutenant Amthor. Men who have had experience in telephone and telegraph work in any of the departments and especially wireline operators will have a good chance for advancement.

Although the men when first enlisted cannot receive a higher ranking than sergeant, yet all will have an opportunity for the examination for higher ranks as soon as they have had experience in a training camp.

Take "Green Men," Too "The men who enlist will not be called into service until they are actually needed, which may not be until the latter part of August or early in September. This, it is believed, will also be an inducement for enlisting as it will give the men who volunteer an opportunity to adjust personal matters before being called.

Pay in this department ranges from \$20 for a private to \$31 for a master sergeant. While the trained men are especially needed, men who have had no training will be accepted and will have an opportunity to qualify in the trained branches of the service.

War Time Nervousness In these war times many people are living in an unnatural condition of nervous excitement. Unless something is done to correct it the inevitable result will be a nervous breakdown, an exhaustion of nervous energy that may take a very serious and unforeseen turn.

Neurasthenia is one such result with its accompaniment of worry, irritability, oversensitiveness and severe headache. It means that the patient has lost the power to recover and store up energy. The condition will grow worse if not corrected.

The treatment is one of nutrition of the nerve cells, resulting in a non-alcoholic tonic. As the nerves get their nourishment from the blood the treatment must be directed towards building up the blood. Dr. Williams' Pink Pills act directly on the blood and have proved of the greatest benefit in many cases of neurasthenia. A tendency to anemia, or bloodlessness, shown by most neurasthenic patients, is also corrected by these tonic pills.

Two useful books, "Diseases of the Nervous System" and "What to Eat and How to Eat" will be sent free by the Dr. Williams' Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills. Adv.
