

AMENDED FOOD CONTROL BILL UP FOR ACTION

Senate Has Measure With "Bone Dry" Prohibition Section Before It

Washington, June 28.—The amended food control bill, containing a new "bone dry" prohibition section, was up for action in the Senate for the first time to-day. It will be pushed for early passage, but it is probable final action cannot be taken by July 1 on account of the prohibition features. The bill would forbid many factories of liquor during the war, but would authorize the President to permit winemaking and to commandeer existing stocks of distilled spirits.

Both Sides Active
Not in years, according to several Senators, has such interest been aroused as is indicated by telegrams and letters on the prohibition issue. Thousands of telegrams poured in upon Senators, many advocating and opposing the "bone dry" plan, with a majority in opposition.

From farmers, merchants, labor unions, temperance societies and municipal officers and organizations the Senators are hearing from "the country" on prohibition. Wisconsin and New England, especially are sources of many protests. Wisconsin farmers and agricultural organizations telegraphed to-day that thousands of acres of barley had been planted there in expectation of continuance of brewing. Labor unions are emphasizing loss of employment from closing of breweries and municipal officers the loss of local license revenue.

A few telegrams were from individuals protesting against interference with their "use of temperate" malt beverages in habits of years standing.

Many of the telegrams of protest are in identical language, indicating organized opposition.

Personal efforts are also being made upon the legislation, especially that which would stop brewing. Attorneys and other representatives of national brewing and distilling organizations are busy in the lobbies and offices, interviewing Senators. The "drys" also are active, with leaders of the National Anti-Saloon League engaged in personal solicitation of Senators.

GIANT SHOVEL STARTS ON THE PENN-HARRIS

Subcontractor Murphy this morning placed a giant steam shovel into operation to be used in the excavation for the new hotel. At noon to-day the effects of a few giant dips of the immense shovel could be noted as the size of the excavation increased. The dirt is taken immediately away that not a single obstacle may delay the progress of the work.

WORK UNDER WAY ON NEW HOTEL

[Continued From First Page]

erection of the 400-room reinforced concrete hotel at Washington, D. C., the latest and the largest in the Capital City.

"It is cause for congratulation that an improvement of so much importance in the development of the city has been assured and the work of construction commenced. The Penn-Harris will be the largest and finest in the State outside of Pittsburgh and Philadelphia, and the last word in hotel refinement and convenience and a building of which the city can feel justly proud.

TEA AT COUNTRY CLUB
Mrs. L. C. Owey will preside at the regular weekly tea at the Colonial Country Club Saturday afternoon, assisted by the ladies of the Advisory Board of which Mrs. Charles H. Hunter is president.

MAKE PLANS TO ENROLL WOMEN

Committee Meets to Perfect Organization For Food Conservation

Tentative plans for the registration of all women in Dauphin county in the national move to conserve food supplies, were made this morning at a meeting held in the Y. M. C. A. by the food supply division of the Dauphin county committee on public safety. E. L. McColgin, secretary of the Chamber of Commerce, was appointed secretary of the committee. Mrs. John W. Reilly is the committee chairman.

The registration of the women will be made the first two weeks of July. The first week will be devoted to publicity and the second week the actual enrollment will be made. Volunteer chairmen from each city ward will be asked for by the committee. These chairmen will appoint several assistants, who in turn will secure the services of additional workers in this manner it is planned to make a house-to-house canvass to secure all women in the city. Mrs.

Lyman D. Gilbert, has been appointed chairman of a committee which will secure committees to look after the enrollment of women residing in the boroughs of the county. The county farm agent will have charge of the registration of all women residing in rural districts. William Jennings and Donald Mc-

Cormick were appointed to locate a headquarters for the committee. The executive committee is composed of all women of the general committee residing in Harrisburg and Steelton. The executive committee met late this afternoon and appointed the various ward captains.

SAILOR IS HOME
Donald M. Helcher, who enlisted at the age of 16, and is one of Harrisburg's youngest volunteers in the United States navy, a member of the crew of the battleship Pennsylvania, is on a short leave of absence at the home of his parents, Mr. and Mrs. H. Helcher, 2227 North Sixth street.

POTATOES DOWN \$2 PER BARREL

Potatoes dropped in price in Harrisburg to-day. Good potatoes sold for \$8.00 a barrel. The price yesterday was \$10.00. Potatoes known as "No. 2" brought as low as \$6.00 per barrel. This is a big drop, as this grade also sold for \$10.00 a barrel up to a few days ago.

The embargo placed on potatoes in Philadelphia yesterday and lifted today by the Pennsylvania Railroad, was partly responsible for the drop in prices. One dealer said to-day: "With the price at \$10.00 a barrel potato growers were sending anything they could get out of the ground to eastern markets, principally New York, Philadelphia and Baltimore. Recently the new potatoes from the eastern shores appearing and being of a very good variety

found ready sale. Plans were started to hold the poorer quality for another raise, but the embargo prevented this. There were 300 cars in Philadelphia, loaded with lower grade potatoes. Now they can be had rather cheap.

"The price may go up a dollar or more within ten days. This will be due to the fact that eastern shore raisers will quit digging after July 5, until the present supply is used up. This may cause a slight scarcity and higher prices. Good potatoes will be plentiful and reasonable in price for at least two weeks."

CANADIAN FLYER KILLED
By Associated Press
Camp Borden, Ont., June 28.—Daniel Callaghan, a Royal flying corps captain, who had won distinction in France, was killed in an airplane accident at Camp Hoare last night. With a cadet named Francis, Captain Callaghan started to fly to Toronto. The wing of the machine struck a tree and the plane crashed to the ground, pinning Captain Callaghan under it. Francis sustained a fracture of one leg. Captain Callaghan was an expert on telegraphing by wireless from airplanes.

SAVE DAD'S LIFE GET IT FOR HIM

Says it is suicide to cut corns and tells how they lift right out.

You simply say to the drug store man, "Give me a quarter of an ounce of freezone." This will cost very little but is sufficient to remove every hard or soft corn from one's feet.

A few drops applied directly upon a tender, aching corn should relieve the soreness instantly, and soon the entire corn, root and all, can be lifted out with the fingers without pain. This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that while freezone is sticky it dries in a moment, and seems to simply shrivel up the corn without inflaming or even irritating the surrounding tissue or skin.

Don't let father die of infection or lockjaw from whittling his corns, but cut this out and make him try it.

Overland
Delivery Wagon
