Businessmen Abandon Fourth of July Plans

Announcement was made this morning by officers of the Businessmen's Association that plans for the celebration of the Fourth of July have been abandoned, owing to the fact that Steelton has recently recovered from the expense of the mammoth parade of last month, and that a demonstration is being planned when the new motor apparatus arrives, in August. One of the features of the small program in the town will be the same banding between the Steel Company team and the Pennsylvania Railroad Motive Power team, in the afternoon.

Why the Country Needs Food-Control

The wolf is at the door of the world, so Mr. Hoover reminds us, and he would meet it with the Food-Control Bill that aims to reduce the cost of living in the United States and to bring victory nearer by feeding her Allies.

"In the last five months," says Mr. Hoover, "\$250,000,000.00 has been extracted from the American consumer in excess of normal profits of manufacturers and distributors." As evidence that the unprecedentedly high prices of food are largely due to "rampant speculation," he points out that "the average prices to the consumer in countries where food administration is now in effect, are lower than those prevailing in the United States, although those countries are mainly dependent upon us for their supply."

In THE LITERARY DIGEST for June 30th, this most important subject to the American public is presented in all its ramifications. THE DIGEST telegraphed to newspaper editors in every section of the country asking for an expression of the local sentiment as to the Food-Control Bill, and the results of this investigation are shown. There is no other subject that more directly concerns the people of Canada and the United States to-day.

Other topics of unusual interest in the June 30th DIGEST, are:

- How We Can Win the War from the Skies Summary of the Work the Airmen Have Done, and What This Country Can Do, To Dominate the Air-Lanes and Cripple the German War-Machine America's Billions For Liberty Why Latin-America Hesitates Canada Spurns Royal Titles Shall We Eat War Bread As to Sticking Out the Tongue The Superstition Regarding Dope When a "Romney" Is Not a "Romney" Poking Fun at German Art Why Reprisals Are Demanded in England A Fine Collection of Illustrations, Educational and Humorous

How the "Digest" Deals With Business--Big and Little

By no means, the least valuable service which THE DIGEST performs for busy men of affairs, is the way in which it treats business conditions, banking, investments, and other financial matters, each week.

In an hour's reading, or less, the businessman can get a grasp on the most important phases that have developed throughout the week. The consensus of the most highly skilled financial

specialists, gleaned from the newspaper and periodical press of the world, is freed from useless verbiage and is presented in concise, accurate form, for quick reading and assimilation. There is no line of industry, or finance, or banking, whose conditions are not reflected in THE DIGEST from week to week.
