Local Lodge Informed Boston Will Show Grand Lodge Delegates Good Sport

It is expected that at least 50,000 will attend the grand lodge sessions, the celebration starting July 7 and ending July 14. The program as now arranged brings into play all the historic, romantic, natural, educational and industrial elements that go to make Boston and vicinity the most attractive and most revered spot on the Western Hemisphere.

One excursion of will take the Elks and their guests over the course of Paul Revere's famous ride; another will take them to the spot where the Pilgrims established the first permanent settlement in this country; the battlefields of Concord and Lexington, Hunk Hill and Rochester Heights; the Old North Church, Kings Chapel, the Washington Elm, where George Washington first took command of the Continental army, and numerous other points of historic and romantic interest will be visited on all other excursions.

Boston Harbor and its famous beach resorts, at one of which will be the Elks and their guests, where hundreds of expert cooks will prepare hundreds of thousands of these appetizing banquets for the Elks; the huge textile plants of Lowell and Lawrence; the pictureque educational centers of Harvard and Wellesley Colleges—all will be made the scenes of Elks activities during the week of the convocations.

GIRLS! MAKE A BEAUTY LOTION WITH LEMONS

At the cost of a small jar of ordinary cold cream one can prepare a full quart pint of the most wonderful lemon skin softener and complexion beautifier by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months.

WAS ALL WORN OUT

Could Get No Relief, Until Sanpan Fixed Him Up

Mr. Edward W. Ewell, 137 Balm street, Harrisburg, says, "I was all worn out, weak and nervous, was subject to dizzy spells, could not sleep nights. The least exertion caused me to feel all fagged out. At times a numb sort of feeling would creep over me, after which I would feel chilly."

"I worried a lot and spoke of my condition to some friends of mine. They would not sympathize with me. In fact, some laughed outright at me, because I surely looked all right, in spite of the fact that I felt as miserable as could be."

"Finally I saw Sanpan advertised and made up my mind to give it a trial."

"In a very short time I began to feel better, my nerves settled, could sleep good, do not have those chills or numb feeling."

"Well, I just wish that everyone felt as good as I do and I know I owe it all to Sanpan."

Sanpan is now being introduced at Keller's Drug Store, 405 Market street, Harrisburg, where the Sanpan man is explaining this Sanpan of medicines to the people.—Adv.

SPECULATION IN WHEAT BANNED

Government Assures Control of Commodity in All Commercial Aspects

Chicago, June 29.—Government plans for food control, according to a statement given out here today by President Griffin, of the Board of Trade, include absolute control of the wheat trade in all its commercial aspects. There can be no speculation in it. Buying and selling of other grains for present or future delivery will be unrestricted.

Mr. Griffin's statement follows: "On Tuesday and Wednesday of this week representatives of the United States were in conference at Washington with Herbert C. Hoover, food administrator; Julius H. Barnes, his chief assistant; and others connected with the food administration."

"The exchanges, through their representatives, have given their whole-hearted support to the Administration's plan for food control. Mr. Hoover and his associates have unfolded to us their plans in great detail. Naturally, they are withhold- ing announcement of their plans and intentions until such time as the food-control bill be enacted into law."

"Consequently, the detailed plans were submitted to us in confidence, and I am, therefore, not privileged at this time to make any complete statement. Nevertheless, there are in circulation many unfounded and unauthorized rumors affecting this situation. Therefore, I have decided to announce the plan decided upon in general, but refrain from discussing the matter in detail, as that announcement necessarily must come from Mr. Hoover."

"The plan decided on will permit unrestricted competition and selling of all commodities, for present and future deliveries, with the exception of wheat, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white, and their wheat will be purchased through this government, but for the allies and neutrals as well."

"The millers, likewise, will come under control of the food administrator, and their wheat will be purchased and flour distributed under the same control. All must be approved by the operation of the plan will preclude possibility of trading in when for future delivery. However, commission merchants, receivers and others acting as agents in the purchase and sale of sample grain will be permitted to handle (sample) wheat on the same basis as all other commodities."

THREE BILLS ARE VETOED BY GOV.

Salary Increases Fall, Along With Township Tax Measure

Governor Brumbaugh to-day announced vetoes of two bills providing for increases of salaries and also of the bill providing for levying of taxes in townships for highway lighting. The vetoes were the first of a series of actions on bills expected to be taken by the Governor to-day.

In vetoing the House bill providing for increase of salaries of clerks in the office of the Recorder of Deeds of Philadelphia, Gov. Brumbaugh says: "Such salary matters ought to be determined by the local authorities who know the facts and not by the State whose interest is remote and whose knowledge of the facts is scant. The counties have the obligation to pay, why not the right to determine salaries? The State is not liable for the increased cost of this service, why should it decree the increase? It is a local matter."

The Governor also vetoed the bill to increase salaries of county officials in Luzerne and Lackawanna counties, and says that it is not manifest why these officials should be singled out for the increase. The Governor says that the bill as drawn is not equitable and that people have protested against the measure. "There is no evidence that better service would ensue," adds the Governor.

In his veto of the township light tax bill the Governor says to change the plan now existing would be an infringement upon rights and that in his opinion the present law is all right. A change would work an injustice. He closes with this remark: "Any law that discourages where it should encourage to laudable establishment of owned homes is not a sound law."
