

U. S. OUTLINES ARMY DRAFT

(Continued From First Page) necessarily upon the loyalty, patriotism and justice of the members of the boards to whom its operation is committed, and I admonish every member of every local board and of every district board of review that their duty to their country requires an impartial and fearless performance of the delicate and difficult entrusted to them. They should remember as to each individual case presented to them that they are called upon to adjudicate the most sacred rights of the individual and to preserve untarnished the honor of the nation.

"Sure, We Are Some Big America" Harry Wolfe's New Song Catches On Like A Flash

It is selling like wildfire. It has been out only two weeks and is already in its second edition. It is on sale at Woolworth's 5 and 10 Cent Store, Souter's 25 Cent Store, and at all music stores at 10 cents per copy. Song with song orchestration can be had by mailing 25 cents in coin or 2-cent stamps to the publisher, Harry Wolfe, 133 Sansasra Street, Harrisburg, Pa. It is now in the printer's hands for Orchestra Two-Step and Band March, and will be on the market next week. Orchestra and Band Leaders BE FIRST and send in your orders.

from any sense of injustice in their mode of selection, and they will be inspired to loftier efforts in behalf of a country in which the citizens called upon to perform them with justice, fearlessness and impartiality. Upon organizing, the local boards will take over from the registration boards all registration cards, which they will number serially and list for posting to public view. Then after having been advised of the method by which the order of liability for service shall be determined and of the quota to be drawn from its territory (minus credits of enlistments in the National Guard or regular army) each board will prepare a list of persons designated for service in the order of their liability, post the list, give it to the press and within three days send notice to each designated person by mail.

Physical Examination As the men so notified appear, the boards first will make a physical examination in accordance with special regulations to be provided, bearing in mind that all persons accepted by them will be re-examined by army surgeons. If the physical examination is passed successfully, then comes the question of exemption. Persons who must be exempted by the local board include: Officers of the United States, of the states, territories and the District of Columbia; ministers of religion, students of divinity, persons in the military or naval service of the United States, subjects of Germany, all other aliens who have not taken out first papers, county or municipal officers, customs house clerks, workmen in Federal armories, arsenals and navy yards, persons in the Federal service designated by the President for exemption; pilots, merchant marine sailors, those with a status with respect to dependents which renders their exclusion desirable in married man with dependent wife or child, son of a dependent widow, son of dependent.

and or infirm parent, or brother of dependent orphan child under sixteen years of age; those found formally deficient and any member of any well-recognized religious sect existing May 18, 1917, whose creed forbids participation in war and whose religious convictions accord with the creed. Claims For Exemption Claims for exemption because of dependants may be made by the man himself, his wife or other dependants or third parties being who has personally investigated the case. A claim made by the husband must be accompanied by supporting affidavits signed by the wife and by the head of a family residing in the same territory. A claim by the wife or other dependants or third parties must be accompanied by two supporting affidavits signed by heads of families. Similar regulations apply to claims for exemption or discharge within three days after the filing of affidavits.

Right to Appeal District boards must appeal cases within five days after the closing of proofs and their decisions are final. If the ruling of a local board is affirmed, the person in question stands finally accepted for military service. In passing on claims for exemption on the ground of employment in necessary industrial and agricultural occupations the district boards must be convinced that the particular enterprise actually affording such employment actually is necessary to the maintenance of the military establishment or of national interest during the emergency. The evidence must also establish that the regulation, even if the particular industrial enterprise is found necessary for one of the above purposes, that the continuance of such person therein is necessary to the maintenance thereof and that he cannot be replaced by another person without direct substantial material loss and detriment to the adequate and effective operation of the particular industrial enterprise or agricultural enterprise in which he is engaged. Not Permanent Later the President may from time to time designate certain industries or classes of industries that are necessary and the district boards will be so notified. It will be the duty of each board, however, to ascertain the available labor supply for such industries outside the men called for military service and to take the result into consideration in determining such things. The opinion of the district board, "the direct, substantial material loss to any such industrial or agricultural enterprise outside the loss that would result from failure to obtain the military service of any such person, a certificate of discharge may be issued to him. Certificates of exemption will not necessarily be permanent. They may be revoked with changing conditions, or may be granted only for prescribed periods.

CARPENTER'S FOOT HURT William Shoaff, aged 59, employed as a carpenter for the Pennsylvania Railroad, was admitted to the Harrisburg Hospital suffering from a badly bruised left foot, sustained when a heavy timber fell on it. The accident occurred at No. 2 round-house. Coconut Oil Makes A Splendid Shampoo If you want to keep your hair in good condition, be careful what you wash it with. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulsified coconut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair. Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage. You can get mulsified coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

RAILROAD RUMBLES

PENNSY FIXES SHIPPING DAYS WATCHING NEW P. R. R. SIGNALS

Latest Move, For Economy; to Eliminate Transfers; Helps Smaller Shipments

To make possible a greater degree of economy in the use of box cars and locomotives, and to eliminate delay and congestion caused by the antiquated system now in operation, the Pennsylvania Railroad is about to inaugurate a new plan of receiving and forwarding small freight shipments on all lines east of Pittsburgh. Schedules will be arranged for each shipping point. Under the present system freight is received at any station at any time of the day for any destination. This necessitates delay at transfer points and the frequent dispatch of partially loaded cars.

Under the new plan shipping days for various destinations will be fixed according to a carefully worked-out schedule. This will affect only "less than carload" freight. When it is in operation freight will automatically be concentrated into full carloads on all lines east of Pittsburgh, and instead of transfers being made at designated points, the cars will go straight from origin to destination. The outstanding features of the new plan follow: Shipping days will be fixed on the basis of the time of origin to specified destinations. Freight will be accepted only on the proper shipping days, and the cars will depart only as specified. Particular stations will be designated for the receipt of shipments for specified destinations. Freight for such points will be accepted at the stations named only. The purpose of the new system, as outlined by the railroad, is to have cars at present arranging the schedule, are these: First, Elimination of the delay incident to the handling of freight under the present methods of consolidating small shipments into full carloads at transfer stations. Second, the reduction of car supply by affecting better average loading than is possible under the transfer system; this will increase the capacity of the railroad for freight, as well as Government supplies. Third, Reduction in the number of car and train movements required to transport a given volume of freight; this will increase the capacity of the whole railroad plant; and will release trackage and locomotives for other uses. Fourth, Improvement in the regularity of the service by systematizing and simplifying operation; this will result from the elimination of a large proportion of the complicated rehandling of freight, which is now unavoidable with the attendant liability to damage. It is estimated that 1,000 box cars a day will be saved when the system is made effective. It is expected that damage resulting from the transfer feature of the present system will be reduced to a minimum.

Standing of the Crews HARRISBURG SIDE Philadelphia Division—The 117 crew first to go after 4 o'clock: 115, 113, 119, 120. Conductors for 115, 119. Flagmen for 117, 115, 120. Brakemen for 117, 115 (2), 113, 120. Engineers up: Dyer, Giesler, Lever, Simmons, Black, Gemmill, Baldwin. Firemen up: Bolden, Siler, Reese, Hoch, Everhart, Hocklander. Conductors up: Forming, Bitner. Brakemen up: Lick, Stimmel, McCleary, Bell. Middle Division—The 245 crew first to go after 1:30 o'clock: 241, 227, 214. Preference crews: 8, 1, 10, 6, 5, 3, 7, 4, 2. Firemen for 1, 6, 2. Conductors for 215, 237, 203. Flagmen for 5, 3, 9, 4. Brakemen for 8 (2), 3. Engineers up: Nissley, Cook, Rensel, Burchard, Giesler, Lever, Fireman up: Houck. Brakemen up: Reynolds, Brinkley, Beers, Rumbaugh, Miller, Bowers, G. Cammer. Hard Board—Engineers up: Seal, J. Hinkle, Sheaffer, Bretz, Flickinger, Shuey, Myers, Geib. Firemen up: Webb, Johns, Arndt, Neas, McColl, Mowel, A. W. Wagner, Hutchison, Snyder. Engineers for 2nd 123, 140, 112. Middle Division—The 215 crew first to go after 4:15 o'clock: 234, 237, 231, 209, 206, 63. Conductors for 215, 237, 203. Fireman for 202. Conductor for 15. Flagmen for 06, 37. Brakemen for 18, 15, 31. Sturgeson, McColl, Murlatt. Flagmen up: Staley, Wagner. Brakemen up: Tennant, Coudwell, Flack, Hivel, E. I. Miller. Middle Division—The 218 crew first to go after 1:35 o'clock: 239, 303, 227, 218, 215, 217, 216, 301. Nineteen Altoona crews to come in. Yard Board—Engineers up: Hiel, Bostdorf, Shiefer, Rauch, Weigle, Yinger, Morrison, Monroe, Beatty, Feas, Kautz. Firemen up: Yost, Strawhecker, Beiver Jr., Engle, Kruger, Henderson, Hain, Selway Jr., Gilbert, Laurer, Dill. Engineers for 3rd 7C, 3rd 15C, 23C, 35C. Firemen for 1C, 5C, 3rd 7C, 4th 7C, 3rd 15C, 26C. PASSENGER DEPARTMENT Middle Division—Engineers up: Euck, Grayham, Cris, Keane, Robley, Alexander, Kelsner, T. D. Crane, McDougal, Miller. Firemen up: Dylinger, Hartzel, Bowman, Winand, Koller, Gates, Hopkins, Lyter, Cornpropp, Bealor, Holtzman. Engineers for 41, 49. Firemen for 70, 6, 18, 22. Philadelphia Division—Engineers up: Omond, Pleam, Kennedy, Lippi. Firemen up: Burley, Johnson, Hershey, Everhart, Kearney. Engineers for 26, light engine at 2 p. m., 628, 28. Firemen for 6, light engine at 2 p. m., 28. THE READING The 7 crew first to go after 12:50 o'clock: 9, 19, 5, 1, 23, 14, 12, 16, 102, 103, 65, 63, 62, 60, 75, 71, 52. Engineers for 6, 8, 12. Firemen for 60, 63, 70, 75, 5, 6, 7, 8, 9, 22, 23. Conductors for 70, 6, 18, 22. Flagmen for 70, 6, 18, 22. Brakemen for 63, 60, 65, 70, 73, 1, 6, 7, 19, 22. Engineers up: Selbert, Hollenbach, Beecher, Borden, Vireman, Plank, Hockley, Krosh, Welley, Tullinger, Warfel, Martin, Cunningham. Conductors up: Fessler, Patton, Altemus, McCullough. Brakemen up: Creager, Craig, Stover, Keener, Sholly, Koons, Paxton, Schubauer, Gunn, Sweger, Shotts, Strighm, Wade, McGraw, Moctel, Line, Stauffer, Ulrich, Kinard.

U. S. REGULARS CAMP IN ORDERLY MANNER

(Continued From First Page) of routine business aboard his flagship received the correspondents and gave them a description of the voyage. He said it was broken only by accidents which already had been reported to Washington and which he desired to be given out there if at all. His officers and the army officers were almost boyishly jubilant that the submarines had succeeded in harming any of the transports. As the first American transport to reach port arrived during the night, and because of the late hour and the expected selection of this town as the scene of the historic debarkation, they were seen by few. In the grey of the early dawn the remaining vessels could be seen nearly a mile down the harbor, preceded by a battleship and surrounded on every side by destroyers. Flags Float in Breeze As the wind suddenly shifted slightly the American flags floating on the topmasts, whipped in the breeze became visible and a great cry of welcome surged from the waiting crowds. As the vessels neared the quay, bugles sounded and the soldiers and sailors, who had been leaning along the railings in such numbers that the ships seemed slightly turned sharply toward the stern and saluted the flag. The crowd stood silent as though in awe for a moment. Hats were removed instinctively as the strains of "America" pealed out. The troops joined in a tremendous chorus of enthusiastic welcome as the morning salute to the colors was concluded. Although the arrival of the ships came almost as a complete surprise to the inhabitants of the town, the necessary delay in unloading gave every one opportunity to hoist flags from the houses and to cheer as the troops were in the streets the town was ablaze with colors. In Training Camps By comparison the soldiers started for the camps two miles from town, where they are to remain for the present in training and in preparation for orders transferring them nearer the front. The people cheered each company as it passed, even each van and truck, and then, in their enthusiasm, forgotful of the heat, turned toward the camp. They were eager not to miss the slightest detail of the equipment of the American soldiers. They had heard so much about but never had hoped to see. There was an unusual sight in the harbor as the last American ships arrived. Boats flashed back and forth with officers from the flagship on visits to the smaller vessels. Signals were wigwagged from ship to ship. FRICKMAN WITH DOUTRICH'S Howard C. Frickman to-day assumed his new duties as manager and buyer of men's furnishings in the Douthich store, 304 Market street. Mr. Frickman has been identified with the men's clothing and furnishing business for a number of years, and his experience well equips him for the new duties he assumed to-day.

Wabash Head Tells How Costs Are Increasing

Concentrating mounting costs on the Wabash Railroad, President E. P. Kearney, is quoted by Dow, Jones and Company as saying: "Scarcely a week passes that we do not increase some rate of wages. In the five months of the fiscal year from January 1 to May 31, the wages of station employees increased \$171,000. Wages of yardmen and clerks increased \$115,000, and wages of yard employees increased \$67,000. We had to pay train engineers \$63,000 more than in the same five months of 1916, an increase of \$34,000, although gross revenue increased \$1,067,000. All of the gross increase and \$200,000 in addition went into higher transportation expenses. Taxes were \$63,000 higher than in the first five months of 1916, and the relatively small increase of surplus was brought about by the fact that maintenance expenditures were \$174,000 lower.

One Thousand Trains Less Now in Operation

Washington, July 2.—War portions in dining cars and elimination of almost one thousand passenger trains already, mark the progress of the movement to place the country's railroads on a war efficiency basis. Reductions in the numbers of deluxe trains, special and excursion trains and heavy curtailment of parlor, club, dining, sleeper and observation car service also have been made. The first effects of these measures, said the railroads' war board to-day, was seen in 23.8 per cent more bituminous coal moved last month than in May, 1916. The railroads are also loading freight cars with 10 per cent more than their registered capacity. ANNOUNCE BIRTH OF DAUGHTER Dillsburg, July 2.—Born to Mr. and Mrs. John O. Smith, of York street, on Tuesday, June 26, a daughter.

Nuxated Iron Makes Strong Vigorous, Iron Men and Beautiful Healthy Rosy Cheeked Women

Dr. Howard James, late of the Manhattan State Hospital of New York and formerly Assistant Physician Brooklyn State Hospital, says: Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron. A patient of mine remarked to me (after having been on a six weeks' course of Nuxated Iron), "Six, Doctor, that there stuff is like magic. It certainly puts the ginger of youth into a man." "If you are not strong or well you owe it to yourself to make the following test: see how long you can work or how far you can walk without coming tired. Next take two five-grain tablets of mine remarked to me (after having been on a six weeks' course of Nuxated Iron), "Six, Doctor, that there stuff is like magic. It certainly puts the ginger of youth into a man." "If you are not strong or well you owe it to yourself to make the following test: see how long you can work or how far you can walk without coming tired. Next take two five-grain tablets of mine remarked to me (after having been on a six weeks' course of Nuxated Iron), "Six, Doctor, that there stuff is like magic. It certainly puts the ginger of youth into a man." "If you are not strong or well you owe it to yourself to make the following test: see how long you can work or how far you can walk without coming tired. Next take two five-grain tablets of mine remarked to me (after having been on a six weeks' course of Nuxated Iron), "Six, Doctor, that there stuff is like magic. It certainly puts the ginger of youth into a man." "If you are not strong or well you owe it to yourself to make the following test: see how long you can work or how far you can walk without coming tired. Next take two five-grain tablets of mine remarked to me (after having been on a six weeks' course of Nuxated Iron), "Six, Doctor, that there stuff is like magic. It certainly puts the ginger of youth into a man." "If you are not strong or well you owe it to yourself to make the following test: see how long you can work or how far you can walk without coming tired. Next take two five-grain tablets of mine remarked to me (after having been on a six weeks' course of Nuxated Iron), "Six, Doctor, that there stuff is like magic. It certainly puts the ginger of youth into a man." "If you are not strong or well you owe it to yourself to make the following test: see how long you can work or how far you can walk without coming tired. Next take two five-grain tablets of mine remarked to me (after having been on a six weeks' course of Nuxated Iron), "Six, Doctor, that there stuff is like magic. It certainly puts the ginger of youth into a man." "If you are not strong or well you owe it to yourself to make the following test: see how long you can work or how far you can walk without coming tired. Next take two five-grain tablets of mine remarked to me (after having been on a six weeks' course of Nuxated Iron), "Six, Doctor, that there stuff is like magic. It certainly puts the ginger of youth into a man." "If you are not strong or well you owe it to yourself to make the following test: see how long you can work or how far you can walk without coming tired. Next take two five-grain tablets of mine remarked to me (after having been on a six weeks' course of Nuxated Iron), "Six, Doctor, that there stuff is like magic. It certainly puts the ginger of youth into a man." "If you are not strong or well you owe it to yourself to make the following test: see how long you can work or how far you can walk without coming tired. Next take two five-grain tablets of mine remarked to me (after having been on a six weeks' course of Nuxated Iron), "Six, Doctor, that there stuff is like magic. It certainly puts the ginger of youth into a man." "If you are not strong or well you owe it to yourself to make the following test: see how long you can work or how far you can walk without coming tired. Next take two five-grain tablets of mine remarked to me (after having been on a six weeks' course of Nuxated Iron), "Six, Doctor, that there stuff is like magic. It certainly puts the ginger of youth into a man." "If you are not strong or well you owe it to yourself to make the following test: see how long you can work or how far you can walk without coming tired. Next take two five-grain tablets of mine remarked to me (after having been on a six weeks' course of Nuxated Iron), "Six, Doctor, that there stuff is like magic.
