ALLIES PREPARE TO RESUME DRIVE FORWARD ALONG WESTERN FRONT

German Airmen Making Extraordinary Efforts With Poor Success to Find Out What Is Going on Behind Lines in Belgium

EXPECT BLOW TO FALL NEAR ARRAS

Kaiser's Forces Lose Heavily in Unsuccessful Effort to Beat Back French; British Push Forward 600 Yards in Land of King Albert

With Russia proving that her army, now reorganized, can strike telling blows again, the entente forces apparently are preparing to resume the forward movement on the western front.

Notable activity is developing in Belgium. Germany senses the trend of things there without question, and extraordinary efforts by her airmen to find out what is going on behind the British lines are reflected in the official statements.

From all appearances the German fliers are having poor success. London's report last night, for instance, showed nine German airplanes put out of action to one lost by the British.

Expect Blow at Arras That the British blow will fall north of Arras is the German expectation, according to General Von Stein, the Prussian Minister of War.

Expect Blow at Arras That the British blow will fall north of Arras is the German expectation, according to General Von Stein, the Prussian Minister of War.

General Petain, on the French front, is bending his efforts toward retaining not all the commanding positions his troops now occupy.

Teutons in Warm Water In eastern Galicia the Austrian-German forces are evidently in an uncomfortable position at some points as the Russian advance continues.

Attacks on the Russian lines further south, near Lipnicadola, east of the Narayuvka, also were repulsed. Signs of Russian reawakening appear in the reports of the Danube front. It reports little movement in Galicia but an increase in the activity along the lines in western Moldavia and the Danube.

In Mesopotamia the Russians, after having driven the Turks out of Panjwin, are attacking them in the positions to which they retired on the heights south and west of the towns where they are offering a tenacious resistance.

General Conditions There has been a general decrease in pressure over the western part of the country since last report, attended by a general rise of 15 degrees in temperature, the most decided rise occurring at stations in the Missouri and Upper Mississippi valleys and in Manitoba and Ontario.

American Troops Off For Training Camp

Paris, July 5.—The battalion of American troops which paraded in Paris yesterday has gone to the permanent American training camp. The other units of the first expeditionary force which are now at a French port will leave shortly for camp instruction.

It is expected the entire expedition will be encamped by July 15. Major General William Silvert will command the camp.

Paris, July 4. (Delayed)—When the 230th regiment of French territorials, with its band escorted the battalion picked from the regiments of United States infantry into the court of honor as a part of the independence Day celebration, the court, the arcades and the corridors of the Invalides resounded with the prolonged acclamation of the company of massed spectators that left just room enough for the troops to form a hollow square.

Standing in the center were descendants of soldiers of the American Revolution with fanions in United States colors and the colors of the general of the United States army—a flag of red ground with two silver stars—embroidered by French women; and American veterans who fought with the French in the war of 1870, with the flag of the American volunteers in the French foreign legion.

The head of every speaker was uncovered precisely at 9 o'clock when the American band struck up the Marseillaise with the simultaneous appearance of President Poincaré, General Pershing, General Joffre, American Ambassador Sharp and other military and diplomatic dignitaries. The building was the signal for tremendous cheering which continued until the official party passed the reviewing stand.

An airplane circling a few hundred feet overhead followed the line of march some distance. Thousands of French soldiers on the front were among the masses of people along the route. Hundreds of people left the sidewalks and rushed forward to shake hands with the American troops.

Wives of All Cabinet Members to Save Food Washington, July 5.—Wives of all the cabinet members have become members of the food administration and pledged themselves to one wheatear meal a day, to have beef, mutton or pork but once a day, to serve no veal or lamb. They will practice strict economy in the use of butter and sugar and will have no fish, fruit and vegetables in abundance.

Thousands of pledges are reaching the offices of the food administration. An effort is being made to enroll every woman in the country over 16 years of age.

U-BOATS IN AZORES Washington, July 5.—Secretary Daniels announced to-day that the Navy Department had received information that German submarines were operating in the vicinity of the Azores Islands.

Samuel Jones, colored, 2121 South Second St., died in the Harrisburg Hospital this morning from appendicitis. Jones was admitted to the institution June 22 suffering from burns received when hot tar was spilled over him, having recovered from the burns he was taken ill with appendicitis.

Two Hurt in Fall William Harrison, 2175 Third street, and Samuel Phillips, 517 Primrose street, were admitted to the Harrisburg Hospital this morning suffering from injuries sustained when they fell off of a concrete mixer at Penbrook. Harrison received bruises, a broken left shoulder and badly cut left leg, while Phillips suffered lacerations and bruises of the body.

WATER WORKS IN NEED OF REPAIRS AT ONCE--DUNKLE

Commissioner Declares Council Must Act; Situation Becoming Serious

CONSUMPTION GROWING

Big Pump Working Almost to Capacity; Industrial Boom Responsible

That Council must take immediate steps to provide for repairs and improvements for the city water works, was the statement made to-day by Commissioner Samuel F. Dunkle, superintendent of the water department, who made a report on Tuesday, of a recent investigation at the pumping station, filter plant and reservoir.

Extensive repairs are needed at all three places, he declared again to-day, and the necessity for these can not be questioned, the official pointed out.

"Unless something is done at once, the situation will become extremely serious. I am consulting now with experts on the question of whether we can use two old pumps at the pumping station and whether the reservoir is strong enough for additional pumping."

At present the large pump being used has a capacity of twelve million gallons of water a day. Only the other day the amount pumped was almost eleven and one-half million gallons. The maintenance of the constantly increasing use of water by local industries and other institutions, has developed a critical situation, which demands immediate attention.

Washington Believes Chang Hsun May Have Overplayed His Hand Washington, July 5.—The revolutionary movement restoring the Manchurian dynasty to the throne of China is not being supported by all the military leaders of the North, according to dispatches from Minchin Reinsch received to-day at the State Department.

Delay in reaching a vote is due to the fight on the amendment offered by Senator Gore, which prohibits the distilling of spirits, but gives the President discretion to deal with wines and beer.

CHINESE RULER ASKED TO QUIT OFFICE

The ruler of China, Li Yuan Hung, has been asked to retire from office by General Chang Hsun, military governor of Anhwei. The pronouncement declares that the former emperor is restored to the throne. Li Yuan Hung was vice-president of China under the last president.

FINAL DRIVE FOR FOOD BILL IS UNDER WAY

Administration Leaders Want Vote to Be Taken Saturday

Washington, July 5.—Food legislation was considered to-day both in the Senate and in the conference. The Senate following its holiday recess resumed debate on the food control bill and conferees continued their efforts to reach a final agreement on the food survey bill, already passed by the Senate and House.

Senator Chamberlain was ready when the Senate met to-day to begin the final drive in an effort to put the food control bill through. He hoped to reach an agreement for a vote Saturday or Monday. In case some understanding cannot be reached as to a time for voting, then the Senator plans to offer his motion to shut off debate by invoking the new cloture rule.

SPY DISCLOSURES WOULD STARTLE WHOLE WORLD

Officials Declare That if German Activities Were Known Earth Would Shake

ALL ARE WORKING

Information of Amazing Character and Great Value Being Unearthed

Washington, July 5.—Officials, who for obvious reasons cannot be quoted, declared to-day that if the government's activities against German spies in the United States could be published, the news would startle the world.

While not admitting they are convinced that the spy system was entirely responsible for the massed submarine attack on the transport of General Pershing's expedition, it was said that the combined forces of the State, War and Navy and Justice Departments were working in general and systematically unearthing information of amazing character, and of great value to the government.

Having Trouble It was pointed out to-day even with the strictest censorship of mails, cables and press, the European allies had not been able to meet the situation in the operation of the War Department censorship over cable dispatches from France dealing with the American troops, saying the present arrangements are temporary and soon will be supplemented by a method that will not delay delivery.
