One Thousand Suit Campaign

The Greatest Clothing Sale of the Times

A Profit-Sharing Sale and Half-Yearly Clearaway

Begins Tomorrow, Saturday Morning, at 8 O'clock

Two years ago we introduced this original idea to Harrisburg. Your co-operation was a sign of your approval.

We enter this--our Fifth--One Thousand Suit Campaign fired with the desire to surpass the records of our previous campaigns.

Despite the rising costs and with merchandise of the Globe Standard practically unobtainable we are able to offer Greater Values than Ever.

This is due to our merchandising foresight.

We anticipated the upward trend of the market and acted accordingly.

Should we succeed in selling 1000 men's and boys' suits before August 25 we will pay a bonus of 5% of the original purchase price to every purchaser—and this in addition to the greatly reduced prices quoted below.

This is without a doubt the Greatest buying opportunity in Harrisburg's Clothing History.

You will agree with us after you have seen the values offered.

ROUNTY CUA IMIS IN THE THOUSANDS

Total Will Probably Reach \$121,000 When All in Litigation Are Disposed Of

Auditing of the claims for bounty on the scalp of noxious animals and birds will be undertaken in a short time by the auditor general's department with the cooperation of the officials of the State Game Commission. The information gathered by its officers to be placed at the disposal of the auditor and the various points will be elucidated by the Game officials.

It is said that the whole amount of claims to be gone over will be \$121,000, not all of which will be paid, of course. The Mitchell act validating contested claims excepts those which have evidence of fraud and it is expected that the Game commission will substantiate its objections on many of them.

The Game commissioners yesterday formally adopted a resolution that it was their duty to protect the public by hunters license in every possible way from pet hunters and crooks.

Capitol Visitors—Captain T. D. Deakins of the machine gun troop of the First cavalry, and representative Hugh Dawson, of Scranton, were Capitol visitors.

Health Returns—Commissioner Dixon, who had been in at his home in Ardmore, returned to the Capitol yesterday.

Bureau Moves—The Bureau of Engineering and Public Service Commission has moved to the top floor of the Franklin building. It had occupied a building in Fourth street.

Board to Meet—The State Board of Education will meet here Monday to discuss general educational legislation.

Safe and Sane—Dr. Samuel G. Dixon, State Health Commissioner, after reviewing reports said that all signs seemed to indicate the year's Fourth of July as thoroughly "safe and sane." The Division of Distribution of Biological Products, which maintains supply stations over the whole state where tetanus (lockjaw) antitoxin is specially provided to prepare for possible Fourth of July accidents by supplying initial doses, reported that his division calls for come for follow-up doses. "The reports to the Department," said Dr. Dixon, "were consistent with the use of antitoxin as a weapon for that the public has been more careful in the use of explosives this year than ever before in the life of the Department that is now in its thirtieth year."

Hearings Due—Sittings in five eastern Pennsylvania cities have been arranged by the State Compensation Board between July 10 and 20. The meetings will be held as follows: Harrisburg, July 10; Lancaster, July 11; Philadelphia, July 12, 13, 14 and 15; Wilkes-Barre, July 17 and 18, and Scranton, July 19 and 20.

The State Industrial Board has announced a hearing on the proposed rules and regulations for operation of motion picture machines to be held at the Capitol on July 11.

Need 75,000 Badges—Seventy-five thousand licensed automobile drivers badges will be required for 1918 according to an announcement at the State Highway department. The number will be smaller than those for 1917 and will be oval with a keystone and black enamel lettering.

Blind Soldiers—"SEE" PLAY GIVEN ON BARE STAGE

A curious, not to say pathetic, spectacle was presented in London recently when a well-known play was enacted before a large audience by actors who wore their street clothes instead of costumes and played on a stage utterly bare of scenery. The only properties used aside from one or two pieces of furniture, were a teacup and a telephone bell. The explanation of this strange performance lies in the fact that the audience, with a few exceptions, was composed of soldiers who had lost their sight. That the afflicted men were able to follow the action closely was indicated by their quick response to tragic and humorous lines. The action in one scene called for the breaking of a teacup, and in another the ringing of a telephone bell. Hence the presence of these articles on the stage.—From the Popular Mechanics Magazine.

Alkali Makes Soap Bad For Washing Hair

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use it just plain mislified coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats the most expensive soaps or anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

GET WAGE INCREASE

York, July 6.—The York Manufacturing Company has raised the wages of its 1,200 employes. General Manager Thomas Shipley announced today that there would be a five per cent. advance put into effect immediately owing to the increased cost of living. The company is one of the largest ice-making machine plants in the world.

PAXTANG PARK—Vaudeville.

For two days, beginning to-day, B. A. Rolfe presents Ethel Barrymore in a patriotic play, "The Greatest Power." This is a five-act story in which our heroine is engaged in a chemist's laboratory, together with a young man, in finding a commercial solution for extracting explosives. A new and very powerful explosive which foreign agents are trying to gain possession of. The story is thrilling throughout and filled with many surprises. Miss Barrymore will be supported by a capable company, which includes William B. Davidson, Frederick C. Truesdell and others. On Monday and Tuesday the Metro Film company will stage the popular play "The Haunted House." Patrons will remember Mr. Lockwood's last appearance in "The Promise." "Lonesome Luke in Tin Can Alley" is the comedy feature on this program to close down with the Pathe News.

The vaudeville show at Paxtang Park this week with "What's Your Name?" is a feature attraction, is probably one of the most popular in the city. There are twelve people in the cast, both men and women. The comedy parts are well handled. Another act on the program is a pretty little pony, that can count, read numbers, tell the different colors when he sees them, and do a lot of things that are usually considered beyond the limits of equine intelligence. Grace Golden, charming little comedienne with new songs and stories, has also won much favor with the park audiences.

Mary Charleson, Henry B. Walt-hall's leading woman, will be presented at Regent Theater the Regent To-day, only in "Satan's Private Door." As Edith Conway, in this picture drama, Miss Charleson has interpreted a tensely dramatic role with superb intelligence. She has given the spectators a novel idea of the unflinching steadfast belief in the unfulfilled promise of a life.

Germans Slay Skipper of Vessel They Sank

Baltimore, Md., July 6.—The German submarine commanders not only fired on the open boats containing crews of vessels they have sent to the bottom, but openly committed murder by deliberately shooting masters of captured merchant vessels, was the statement made yesterday by W. H. Brown, an American seaman, aboard a British tramp ship now at a Southern port.

The sailor said he witnessed the murder of a Captain Brown, of the Italian steamship Palermo. "We were steaming through the Mediterranean with a full general cargo for Italy and our vessel was unharmed," he said.

The submarine halted us and signaled to take to the lifeboats. The ship was torpedoed and sank within a few minutes. Then the underwater boat came alongside of our lifeboats. The commander was on the deck and made his way closer to the side of where the German was standing.

The German pulled his revolver. "You'll never bring another ship across this ocean," he said, and fired. Captain Brown fell dead with nearly half his head blown away. We were permitted to continue. We made our way into a port in Spain.

Brown said he was on the Leyland liner Nessian when that vessel was sunk in the Mediterranean in March. Twenty-eight men, he said, were killed by the explosion and the survivors were in the lifeboats for several hours before being rescued by a patrol boat. Brown showed papers at the Customs House yesterday stating him as an A. B. He came here to join the crew of another steamer that will go through the war zone.

DEMOCRATS RAISE FLAG
A flag-raising was held by members of the West End Democratic Club as part of the Independence Day demonstration. The history of the flag was given by John H. Maloney, while William H. Cahaley also gave a short patriotic address. Patriotic songs by those present, responses to toasts by President Luther F. Kast and other members were included in the program.
