Jack Clifford in Army

RUBE OLDRING IS WANTED RUBE OLDRING IS WANTED
Shiloh, N. J., July 6.—Rube Oldring, former outfielder of the Athletics and who helped Connie Mack cop a pair of pennants, just can't keep out of the national pastime, even though he officially retired from big league baseball to his little farm at Shiloh, Cumberland county, after breaking away from his crops long enough to give the New York Americans a lift for a few weeks last season. Rube has been much in demand for coaching schoolboy ball teams and umpiring at village ball games in adjoining townships this summer. Now it is announced that Oldring will get into his old ball togs again next Saturday, when he will play third base for the Quinton team against Salem at the latter place.

### Dauphin-Perry Notes

BY "WESTY" SHORE

As a result of the games played July 4, Newport has a safe lead of one and a half games over Dauphin. Indications point that the pennant winner this year lies between these two teams. Marysville, lart year's champs, have slumped considerably and are a disappointment to their fans. With last year's line-up practically intact they have been able to keep on the 50-50 hasis. Millersburg can't start a winning streak. They have been able to come out on the winning side once in twelve starts. Errors at critical times and failure to hit in punches is believed to be the cause of their poor standing.

What is believed to be a record for hits in Central Pennsylvania baseball leagues was made in the games played by this organization Wednesday. A total of one hundred and seventy safeties were recorded for the six games played. Newport led with twenty-nine to its credit; Dauphin and Marysville were the each with twenty-three. In addition to making a record for hits the teams were a little lax in their playing. Twenty-five errors were also chalked up against the league players.

Gilday, of Dauphin, and Biever, of Hallfax, still prove to be the leading pitchers in the league. Both are like old wine, improving with age. Gilday has won in his last few starts and his hitting is also a feature. Blever won both ends of the double-header on the Fourth, in addition to winning last Saturday. Earlier in the season, Biever had trouble to get into his winning stride, as poor team work back of him was responsible for the defeats.

Stocks Emerge From General Depression Which Characterized Yesterday's Final Operations; Evidence of Short Coverings Seen in Equipments

New York, July 6.—(Wall Street)
—Prices rallied very suddenly at the opening of to-day's market from the general depression which characterized yesterday's final operations. Evidence of short covering was seen in the equipments, shippings, oils and motors and rails also made moderate improvement. The strongest features at advances of 1 to almost 5 points included Chandler, Studebaker and General Motors, Baldwin Locomotive, Industrial Alcohol, Mexican Petroleum, Marine ptd., Crucible Steel, People's Gas and Tobacco products. United States Steel gained only a fraction. Beat Steel Sugar, United Fruit and the Coppers were backward.

Early improvement proved to be only temporary, renewed selling of popular stocks causing sharp declines which carried steels and the war group under minimum prices of the previous session. United States Steel was the center of a vignorous drive, reacting 1½ points, Bethlehem. Crucible and Lackawanna Steels recorded extreme reversals of 1 to 3½ points and related shares fell back with metals, shippings and petroleums. Rails were comparatively steady, except New York Central. The setback, which was largely overcome before noon, bore the familiar marks of professional pressure.

Bonds were irregular, the liberty issue, however, selling at premiums ranging from 1-50 to 3-50.

Borough Code Amendments
Governor Brumbaugh to-day announced that he had approved the bill making the amendments to the borough code proposed by the State Association of Boroughs, although he believed that during its passage through the Legislature "some bad features were slipped into it," especially in relation to auditors and controllers. "The evident intent is to make it hot for some official," says the Governor, who adds that in other sections the language was changed to overcome vetoes of specific acts earlier in the session, which he considers bad practice. On the whole, however, he says he finds the provisions wise and in order to give the boroughs all the good that can be provided he approves the bill, "in the confident hope that in the next Assembly a more worthy sense of duty may cause the repeal of these obnoxious and unjust features."

The bill makes a number of changes in administrative features. In approving the Senate bill providing for annexation of boroughs contiguous to cities the Governor also issued a statement. He says that the initiative rests with boroughs as it should, and that as he had received many letters and telegrams from people desiring to be heard he issues the statement to let people know he has approved the bill.

names and addreses of schoolchildren and location of garden plots.

The report also concluded recommendations for the re-election of medical inspectors, nurses and dentists for the coming year.

In the Supplies committee report attention was called to the need of a modernized language department since the courses in both German and French have been lengthened to three years. Next year history and civics will be taught in the Senior instead of Freshmen year and new textbooks will be needed. The total costs of the purchase of the new books for the schools is estimated at approximately \$2,000.
