

COMPENSATION CASES DECIDED

Bigamous Marriage Does Not Give a Claim to Compensation for a Death Says Board

The State Compensation Board has refused compensation to Efemina Constanza, who claimed to be the wife of Frank Constanza, killed in a mine at McAdoo, because the man had never been divorced from the wife who accompanied him from Italy to this country. "We cannot agree with the contention of the claimant that because she may have been the innocent victim of a bigamous marriage that such situation entitles her to compensation as a dependent widow," says the opinion. The Board has also denied a claim made by an employe of an Allentown company who claimed injury on his way home after leaving employ of the company. Other cases dismissed were Heimberger vs. National Roll and Foundry Co., Avonmore; Schneider vs. Carroll, West-ster; Karafa vs. Vesta Coal Co., California, in which it is held that "moderate and infrequent gifts by a son to his mother are to be considered gratuities and not as necessary maintenance and support," and Brumbaugh vs. Colonial Iron Co., Riddlesburg.

A new hearing is ordered in the case of Checchi vs. National Construction Co., Pittsburgh, and in the case of George Zenek, Middletown vs. State Insurance Fund, an order modifying the award was made because the man returned to work.

Men 25 to 35 Wanted For U. S. Army Officers

Washington, July 6. — Convicted that many desirable men are holding back their applications for the second officers training camp because of a misconception of the requirements, Adjutant General McCain issued a statement last night making it clear that "intelligent and forceful" men are wanted even if they are under 31 years old and without military training. It follows:

"The statement that mature men will be given preference for the second series of officers training camps seems to have been misunderstood in some quarters. This preference will only apply where candidates are equal. There is no intention to bar out applications by men under 31. In fact, examining officers have been instructed to regard the ages 25 to 35 as the most suitable.

"There is also some misunderstanding about the necessity of previous military experience. The Government is looking primarily for intelligent and forceful men and military experience, the desirable, is not strictly necessary. Applications for these camps will close July 15.

78 Illinois Slackers Each Get Year in Jail

Freeport, Ill., July 6. — Seventy-eight slackers from Rockford, Ill., have been sentenced to serve a year and a day each in the Chicago House of Correction, by Judge K. M. Landis in the Federal District Court here. The sentences specified "hard labor" and two others were ordered jailed for thirty days, and another was sentenced to ninety days.

The rest of the 150 odd men on trial will be sentenced later. Judge Landis ordered also that each man be required to register.

U. S. Lends \$100,000,000 More to Great Britain

Washington, July 16. — Additional loans of \$100,000,000 to Great Britain, and \$50,000,000 to France, yesterday brought the total war loans of the United States to the allies to \$1,205,000,000.

Great Britain has received \$655,000,000; Italy, \$150,000,000; France, \$210,000,000; Belgium, \$45,000,000; and Serbia, \$3,000,000, and \$100,000,000 has been placed to Russia's credit.

Colors Blessed For Russ Women's Regiment

Pri. grad, July 6. — The colors of the first detachment of the Petrograd Women's Regiment were blessed in the square of St. Isaac's Cathedral yesterday. More than 200 women, with their hair closely cropped and in full uniform, were present, armed with rifles. Don Cossacks and sailors furnished a guard of honor.

Later the women paraded through the Nevsky Prospect and other streets, carrying banners with the inscriptions, "Death is better than shame" and "Women do not give your hands to traitors."

MAMMOTH GOLD DREDGE HAS TWO STACKERS

A dredge company contracted with the United States government not long ago to build flood-restraining levees on either side of the Yuba river, California, and to do it free of charge, the condition being that the company be allowed to dredge for gold while fulfilling the contract. Accordingly a gold dredge, costing \$500,000, was built which is said to be the largest of its kind in the world. An unusual feature of the mammoth floating machine is that it has two arms, each 225 feet long, instead of one. These are provided with 44-inch belt conveyors that deposit the trailings of the bank of the stream as the dredge moves along. A striking picture of the huge dredge appears in the Popular Mechanics Magazine.

Keeping comfortable in summer is largely a matter of knowing what to wear—and knowing, too, where to get it.

We have the natives of the Tropics to thank for the reformation in summer dress—for the change from stuffy clothes to thin, light-weight, skeleton-lined suits that let the summer breezes in and keep the heat out—they dress cool without style—we dress cool with style.

We are better supplied with such suits than ever before — Palm Beaches, Cool Cloth Suits and Tropical Worsteds.
