

CONSCRIPTION IS GIVEN MAJORITY VOTE IN CANADA

Attempt to Delay Proposed Army Measure Meets With No Success

Ottawa, Can., July 6.—The Canadian House of Commons early to-day adopted the resolution offered by Premier Borden, passing to second reading the bill for compulsory military service.

Exciting scenes marked the taking of the vote, which stood 118 for conscription and 55 against.

The vote gave the government about twenty more votes than it usually polls on important questions. This was the result of a considerable number of English-speaking liberals breaking away from the leadership of Sir Wilfrid Laurier and joining with Premier Borden in support of conscription.

Defeat Referendum

Before the bill was motioned, Sir Wilfrid Laurier's proposal that the opinion of the people on conscription should be tested by a referendum was defeated by a majority of forty-nine. The attendance of members of the House was the largest that had been seen in Parliament for many years. The galleries were filled with spectators throughout the night and until the proceedings closed at sunrise. A majority of the spectators were soldiers returned from Europe and many women.

A resolution presented by the French nationalists from the province of Quebec that the conscription bill should be killed by the adoption of a six months' postponement was defeated by the large majority of 166. Only nine nationalist votes were cast for the resolution, and both the government and the opposition to conscription voted against this proposal.

Eight Delay

An amendment aimed to supply more adequate provisions for dependents of men at the front was defeated 115 to 53. Premier Borden explained that this amendment was "dilatory" and that he would refuse to allow it to interfere with the second reading.

TROOPS CALLED WHEN STRIKERS BEGIN RIOTING

Labor Men Stirred to Violence by Speeches of "Mother Jones"

Bloomington, Ill., July 6.—Nine companies of Illinois national guardsmen, comprising 1,400 men, were ordered to this city early to-day to restore order following a night of rioting caused by the strike of employees of the Bloomington and Normal Railway and Light Company. The strike has been in progress for several weeks and has been conducted in an orderly manner until last night, when "Mother" Jones, labor advocate, delivered a speech to a crowd of strikers and sympathizers. Immediately following the meeting, the crowd began attacking street cars and the crews, several motormen and conductors being badly beaten. One man in the crowd of rioters was shot through the neck.

After breaking up several street cars, the crowd started for the powerhouse of the street railway line which furnished power and light for commercial purposes in this city. In order to avert damage at the power plant, Sheriff Flesher turned off the power. The crowd remained for an hour or more, shouting, and then started on another march.

More street cars were wrecked and then the offices of the company were attacked and a number of windows smashed. Mayor Jones and Sheriff Flesher met the crowd and urged them to desist from further rioting, but they demanded that the officers arrange a conference with the officials of the railway company. They promised to do so, and then the crowd demanded that a prisoner taken during the evening be released. This the sheriff did and the crowd dispersed.

Mayor Jones then sent a message to Governor Lowden, asking for troops, as there is fear of another outbreak, should the proposed conference fail to obtain their demand for higher wages.

At 8 o'clock this morning the city was quiet, although there were persistent rumors that the mob was again forming. At this hour no troops had arrived and it was said Mayor Jones had ordered the powerhouse closed during the arrival of troops. The morning newspaper has been unable to publish owing to lack of electrical power and many other industries are similarly hampered.
