MANY DESERTING GERMAN ARMY

Holland Filled With Refugees From Kaiser's "War Machine"; Many Spies, Too

The Hague, Netherlands, July 5 from the Germany army, now are swelling the streams of refugees pouring into Holland from adjoining countries. Holland has become a great place of refuge for fugitives Reeing from the terrors of the German front, food hardships or the erman military regime.

So numerous have these war refuges become that a weekly peri-odical, called "The Combat" has been established at Amsterdam to earry on a revolutionary socialist propaganda among them. A Society of Describers has ben formed in Hol-and, apparently by German agents, in order to discover the names of disserters and exert pressure on their amilies to induce them to return of Germany. Returning deserters no onger are shot but are sent to the ront.

front.

The country is overrun by a small army of spies, persons of both sexes, whose work is to spy into Dutch affairs, to spy upon the belligerents and sometimes to spy upon one an-

other.

These refugees, deserters and government agents, added to escaping prisoners of war of virtually every Entente nationality, fugitive Poles and other peoples of Eastern Europe, fleeing from forced labor and other evils, have swelled the immigration flood until the problem of what disposition to make of these foreigners has become acute in Holland.

Proud of Hospitality
Proud of its traditional hospitality. Holland opened its frontiers
freely to all comers, but public
opinion and the government has discovered that there are formidable
dangers inherent in this aggregation
of liamigrants.

dangers innerent in this agsicultion of immigrants.

What might not happen, Hollanders often ask themselves, if Holland suddenly became involved in the war with all these vast numbers of foreigners spread all over the country, many of them of the worst or at least of the most doubtful character?

Relgians brought typhus and dystery; Austro-Hungarian emigrants Galicia, on their way to joi ves in America, and suspected glers from that province

latives in America, and suspected nugglers from that province, ought smallpox; escaped prison-sof-war from infected German mps and others occasionally induced diseases like spotted fever id meningitis. In each case the sease was quickly checked. The Prime Minister, Cort van der nden, announced a few days ago at the increased influx, and the dily condition of persons entering country, had necessitated more astic sanitary measures. Barracks 6 to be creeted at five different points of the frontier, where all Gerans entering the country, of whom e great majority are deserters, will mans entering the country, of whom he great majority are deserters, will be disinfected, while a camp is to be erected for the accommodation of dangerous or undesirable elements among deserters. As regards he national danger, the Minister of Var, Major General N. Bosbom, eneword to reassure public opinion in parliament a few days ago by eclaring that, if Holland became involved in the war, it would be nade evident that the government was far more conversant with the lossition as regards foreigners, and lad taken far more adequate pre-autionary, measures, than most peo-

Coach passengers on a southern railway wso may not desire a meal in the dining car are catered to by a "wagonette service," an innovation that is being given a thorough test. A small, light, and neatly built wagonette, of the domestic teawagon type, with three shelves, is loaded in the dining car with simple and inexpensive lunch material, and hauled or pushed through the coaches by a white-clad attendant, who serves passengers in their seats with whatever they wish. The freight of the white-enameled wagonette is temptingly displayed and includes sandwiches, lunch boxes, cold meats, pies, fruit, milk, and hot coffee and chocolate in vacuum bottles, with the necessary crockery and silverware.—From the Popular Mechanics Magazine.

Grain and Fruit Crops Good, Says U. S. Bulletin

Washington, July 6. — Harvestin of winter wheat under generally fa verable conditions, although the cro is late in 'most sections: need of rai for spring wheat; excellent progres for spring oats; cotton considerabl improved; corn steadily improvin and good weather for white potatoes. Were the features of yesterday's national weather and crop bulletins of the Department of Agriculture. Fruit conditions were reported a good in virtually all parts of the country.
