SALE OPENS TOMORROW Dives, Pomeroy & Stewart Announcement Will Interest Thousands of Thrifty Buyers. Seasonable stocks representing hundreds of thousands of dollars are featured in the Dives, Pomeroy & Stewart art Mill and Factory Sale, which opens to-morrow morning.

Preparations for this great merchandising event have been under way for months past as extraordinary efforts were necessary to meet the changed condition of the markets owing to the war. Manufacturers, everywhere, who supply the firm regularly with their varied lines of goods, have cooperated to the extent of their facilities, and in this way, from every source, a little bit here and a little bit there, the incoming purchases for the sale soon accumulated into the immensity, importance and diversity commensurate with the general offerings of a mill and factory sale.

The values, the varieties, the fresh, new products embodying every personal need and home furnishings stand out prominently in this sale to a greater extent than in any other because of these conditions, the firm announces. Two pages of advertising exploit the publicity of this important event and give some idea of the variety of offerings that abound in every department. The Basement Section offers a list of savings second to none in the long history of these twice-a-year sales.

Hosiery, underwear, dress goods of all descriptions, ribbons, muslin underwear, waists, petticoats, millinery and many other lines of wearing apparel and dress accessories will be found well stocked with fresh new goods at lower prices than ever before. The market may be short on many things, but this Mill and Factory Sale gives no evidence of it.
