

Paris Police Use Gas From Battlefield to Capture a Deserter

Paris, Ju 10.—Tear producing gas such as is used on the battlefield, was utilized by the Paris police to capture a deserter named Thouin, who resisted them in his apartment in the Rue Andre Del Sarte. Protected by a steel shield, a policeman braved the armed recalcitrant and bored a hole in the door where he inserted a tube for the gas. As soon as he realized the situation Thouin shot himself and his wife, half suffocated, opened the door. Thouin died soon after.

Children Enlist to Study Patriotism

Philadelphia — Vacation Bible schools will open in this city tomorrow. They will be attended by 7,000 boys and girls, all of whom have enlisted for war. That is, they will spend most of their time in making bandages for the Red Cross, studying American history and learning songs that have patriotic words. In the whole country the number of children in such schools is estimated to be 3,500,000. The expense, this year, city and national, will reach \$75,000, or about \$1 per child.

Crew of Big Submarine Found Suffocated

Galveston, Tex., July 10.—A German submarine of the most modern type floating a short distance off the Irish coast, every member of the crew having been suffocated, was recently picked up by a British patrol boat and towed to port, according to the captain of a British steamer which arrived at a Gulf port yesterday. According to the captain's story, the crew is supposed to have been killed by the sudden formation of a deadly gas while the U-boat was submerged. The hatches were down when the party from the patrol boat boarded the undersea craft.

PRESIDENT CALLS NATIONAL GUARD FOR WAR SERVICE

President Wilson's proclamation, calling the National Guard into Federal service for war duty, follows, in full: "Whereas, The United States of America and the Imperial German Government are now at war, and having in view the consequent danger of aggression by a foreign enemy upon the territory of the United States, and the necessity for proper protection against possible interference with the execution of the laws of the Union by agents of the enemy, I, Woodrow Wilson, President of the United States, by virtue of the authority vested in me by the Constitution and the laws of the United States and through the Governors of the respective states, call into the service of the United States and all enlisted members of the National Guard Reserve of the following states, who are not now in the service of the United States, except members of the staff corps and departments not included in the personnel of tactical organizations, and except such officers of the National Guard as have been or may be specially notified by my authority that they are not affected by this call to wit:—

- States First Called: "On July 15, 1917, New York, Pennsylvania, Virginia, Michigan, Wisconsin, Minnesota, Iowa, North Dakota, South Dakota and Nebraska. "On July 25, 1917, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, Maryland, District of Columbia, Virginia, North Carolina, South Carolina, Tennessee, Illinois, Montana, Wyoming, Idaho, Oregon and Washington. "The members of the National Guard of the various states affected by this call will be designated by the War Department.

"II. And, under the authority conferred upon me by clause two of section one of the act of Congress to authorize the President to increase temporarily the military establishment of the United States, approved May 18, 1917, I do hereby draft into the military service of the United States as of and from the fifth day of August, nineteen hundred and seventeen, all members of the National Guard and all enlisted members of the National Guard Reserves of the following states, except members of the staff corps and departments not included in the personnel of tactical organizations, and except such officers of the National Guard as have been or may be specially notified by my authority that they will not be drafted, to wit:—

- "New York, Pennsylvania, Ohio, West Virginia, Michigan, Wisconsin, Minnesota, Iowa, North Dakota, South Dakota, Nebraska, Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New Jersey, Delaware, Maryland, District of Columbia, Virginia, North Carolina, South Carolina, Tennessee, Illinois, Montana, Wyoming, Idaho, Washington, Oregon, Indiana, Kentucky, Georgia, Florida, Alabama, Mississippi, Arkansas, Louisiana, Oklahoma, Texas, Missouri, Kansas, Colorado, New Mexico, Arizona, Utah and Colorado. "III. All persons hereby drafted, shall accept the third day of August, nineteen hundred and seventeen, stand discharged

from the militia, and, under the terms of Section 2 of the act of May 18, 1917, be subject to the laws and regulations governing the Regular Army, except as to promotions, so far as such laws and regulations are applicable to persons whose permanent retention in the military service on the active or retired list is not contemplated by law.

Officers Retain Rank "IV. The members of each company, battalion, regiment, brigade, division or other organizations of the National Guard hereby drafted into the military service of the United States shall be embodied in organizations corresponding to those of the Regular Army. The officers not above the rank of colonel of said organizations of the National Guard who are drafted and whose officers are provided for in like organizations of the Regular Army are hereby appointed officers in the army of the United States in the arm, staff corps or department, subject to the laws which now hold commissions as officers of the National Guard, such appointments to be effective, as of the date of their draft, and from the fifth day of August, nineteen hundred and seventeen, and each of them subject to such special orders as may be issued as of said date to the organization of the Army of the United States composed of those who were members of the organization of the National Guard in which at the time of draft he held a commission.

Non-commissioned officers of the organizations of the National Guard, the members of which are hereby drafted and are hereby appointed non-commissioned officers in their present grade in the organizations of the army composed of said non-commissioned officers and members of the organizations of the National Guard who have the same relative rank as heretofore; and all other enlisted men are hereby confirmed in the grades and ratings held by them in the National Guard in all cases where such grades and ratings correspond to grades and ratings provided for in like organizations of the Regular Army, all such appointments of non-commissioned officers and members of the organizations of the National Guard to be effective as of the date of their draft, and from the fifth day of August, nineteen hundred and seventeen, and each of them subject to such special orders as may be issued as of said date to the organization of the Army of the United States composed of those who were members of the organization of the National Guard in which at the time of draft he held a commission.

Retention of Rank "VI. All necessary orders for combining the organizations created by embodying therein members of the National Guard and National Guard Reserves and the preparation of the military service of the United States will be issued by the War Department. "In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed. Done at the city of Washington, this third day of July, in the year of our Lord one thousand nine hundred and seventeen, and of the Independence of the United States of America the one hundred and forty-first. "ROBERT LANSING, Secretary of State. "WOODROW WILSON"

BORN IN GERMANY, KAISER'S ENEMY

Has Hope They'll Kick Him Out and Put President in His Place

How one German-American — he spells German with a little G — feels American with a capital A — feels about Germany is shown in the following letter to the editor of the Sioux City (Iowa) Journal: "I have seen several articles in the Journal about Germans trying to raise strife in this country. I am a German by birth, but I am an American by heart and hand. I will tell you why I left Germany. There were ten in our family and we were poor, like the most of my countrymen who came

to the good old United States of America to get away from oppression. And it was a hard matter to keep the wolf away from the door at times. When I landed in this country I secured work at once and received more money for one month's work than I got in Germany for one year's work. I sent for my folks and I am proud that they are all true American citizens and will answer the President's call to arms against Germany or any other country when needed.

"I don't see how my countrymen can go back on Uncle Sam. They came here without a cent and made money here; now they want to fight the country that feeds them. The Kaiser never did anything for them or for me. If he had we would be there yet. All he did was to start this cruel war and starve all our people there, and make soldiers out of everybody and force them to work for his dirty 12 cents a day, with a fourth of a pound of meat and a loaf of black bread. I hope to see the day when he is kicked out of Germany and a president put in his place.

"You don't see any Americans going over there for jobs or to any other nation. They are happy here and don't owe any allegiance to any King or Kaiser. "I hope Uncle Sam will win. Hurray for President Wilson! "Stop all foreign papers printed in

the United States. If they can't read English let them learn; and keep all foreign languages out of the schools. The English language is good enough for anybody. "Yours for America, "JACOB CRATTS."

Jailed As Spies — Following the discovery of a complete wireless outfit in operation in Noank, Otto Stram, a German, and his two sons were taken into custody by Federal officers. They are held as prisoners at the submarine base here, but no information concerning the arrests was given out.

A WOMAN'S VOCATION

One of our modern writers has said, "A woman is as efficient in business as a man—when she is." The reason why sometimes she is not so efficient is that her health may fail. But the wise business woman knows now what to do when attacked by the ailments peculiar to the so-called "weaker sex." That greatest of all remedies for woman's ills, Lydia E. Pinkham's Vegetable Compound, has been freeing women from such ailments for forty years. Try it, if you suffer from such an ailment, and insure your competency and efficiency in the business world. —Adv.

A Dozen Furniture Bargains

Inventory has revealed the following odd pieces of high grade Furniture which we offer now as most extraordinary bargains to those who act quickly.

- Solid Mahogany Arm Chair—Jacobean period—a stately high back chair suitable for living-room or hall—regularly \$22.50 Close-Out Price \$15.00 "Adam" Arm Chair of solid mahogany—cane paneled back—upholstered seat—an attractive reception chair—regularly \$15.00 Close-Out Price \$10.00 Nest of Tables—in the fashionable Jacobean Oak finish—set of 4—with characteristic legs—regularly \$26.00 Close-Out Price \$16.50 Solid Mahogany China Closet—square end, double door effect—will match any plain suite—regularly \$85.00 Close-Out Price \$24.50 Game Table in the Old English finish—revolving top—equipped for card playing—regularly \$35.00 Close-Out Price \$20.00 "Adam" Triple Mirror Toilet Dresser and Bed—solid mahogany—dustproof construction—desirable for guest room—regularly \$165.00 Close-Out Price \$99.50 Chair, Rocker and Hair Dressing Chair to match, if desired, \$25.00 American Walnut Chest of Drawers—Queen Anne style—4 large drawers and 2 sliding trays; regularly \$50.00 Close-Out Price \$33.50 Inlaid Mahogany Secretary Desk—Sheraton style—bookcase on top—a wonderfully roomy, old-fashioned piece of furniture—regularly \$110.00 Close-Out Price \$75.00 3-Piece Chippendale Suite suitable for drawing room or living hall—solid mahogany—consisting of settee, arm chair and side chair—a very rare wheel-back design—beautifully hand carved—regularly \$231.00 Close-Out Price \$150.00 Bureau and Chiffonier—Sheraton style—inlaid with Teakwood lines and constructed of solid Cuban mahogany—bureau is 34 inches wide—an exceptional bargain offering quality considered—regularly \$125.00 Close-Out Price \$200.00 Large Mahogany Triple Mirror Toilet Table—massive Colonial design with ample drawer room—regularly \$62.50 Close-Out Price \$39.50 Quartered Golden Oak Chiffonier—Colonial design—regularly \$30.00 Close-Out Price \$19.50

Nuxated Iron to Make New Age of Beautiful Women and Vigorous Iron Men

Say Physicians—Quickly Puts Roses Into the Cheeks of Women and Most Astonishing Youthful Vitality Into the Veins of Men—It Often Increases the Strength and Endurance of Delicate, Nervous "Run-Down" Folks 100 Per Cent. in Two Weeks' Time.

Opinion of Dr. Schuyler C. Jacques, Visiting Surgeon of St. Elizabeth's Hospital, New York City; Dr. Howard James, late of the Manhattan State Hospital of New York, and formerly Assistant Physician Brooklyn State Hospital and Wm. R. Kerr, Former Health Commissioner, City of Chicago.

NEW YORK, N. Y.—Since the remarkable discovery of organic iron, Nuxated Iron or "Fer Nuxate," as the French call it, has taken the country by storm. It is conservatively estimated that over three million people annually are taking it in this country alone. Most astonishing results are reported from its use by both physicians and laymen. So much so that doctors predict that we shall soon have a new age of far more beautiful, rosy-cheeked women and vigorous iron men.

Dr. Ferdinand King, a New York Physician and Medical Director, interviewed on this subject, said: "There can be no vigorous iron men without iron. Pallor means anemia. Anemia means iron deficiency. The skin of anemic men and women is pale; the flesh flabby. The muscles lack tone; the brain fags and the memory fails and often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women, the roses go from their cheeks. "In the most common foods of America, the starches, sugars, table syrups, candies, polished rice, white bread, soda crackers, biscuits, macaroni, spaghetti, tapioca, sago, farina, degerminated corn meal no longer contain iron to be found. Refining processes have removed the iron of Mother Earth from these impoverished foods, and silly methods of home cookery, by throwing down the waste pipe the water in which our vegetables are cooked, are responsible for another grave iron loss. "Therefore, if you wish to preserve your youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron. Just as you would use salt when your food has not enough salt. "Former Health Commissioner, Wm. R. Kerr, of the City of Chicago, says: "I have taken Nuxated Iron myself and experienced its health-giving, strength-building effect and in the interest of public welfare, I feel it my duty to make known the results of its use. I am well past twenty years and want to tell you that I believe my own great physical activity is largely due today to my personal use of Nuxated Iron. From my own experience with Nuxated Iron, I feel it is such a valuable remedy that it ought to be used in every hospital and prescribed by every physician in this country." "Dr. E. Sauer, a Boston physician who has studied both in this country and in great European medical institutions, said: "I have seen a hundred times over, organic iron is the greatest of all strength builders." "Not long ago a manly citizen of my age asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of twenty and as full of vigor, vim and vitality as a young man; in fact, a young man as really was, notwithstanding his age. The secret, he said, was taking iron—Nuxated Iron had filled him with renewed life. At 45 he was careworn and nearly all in. Now at 50 after taking Nuxated Iron, miracle of vitality and his face beaming with the buoyancy of youth. Iron is absolutely necessary to men as your blood to change food into living tissue. Without it, no matter how much you eat, your food merely

passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking, just like a plant trying to grow in a soil deficient in iron. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while doubt their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this, after they had in some cases been doctoring for months without obtaining any benefit. "Dr. Schuyler C. Jacques, Visiting Surgeon of St. Elizabeth's Hospital, New York City, said: "I have never before given out any medical information for publication, but I can ordinarily do not believe in it. But in the case of Nuxated Iron I feel I would be remiss in my duty not to mention it. I have taken it myself and given it to my patients with most surprising and satisfactory results. And those who wish to increase their strength, power and endurance will find it a most remarkable and wonderfully effective remedy." "Dr. Howard James, late of the Manhattan State Hospital of New York, and formerly Assistant Physician Brooklyn State Hospital, said: "Nuxated Iron is a most surprising remedy. A patient of mine remarked to me, doctoring having been a six weeks' course of it, 'SAY DOCTOR, THIS THERE STUFF IS LIKE MAGIC.' Previous to using Nuxated Iron I had been prescribing the various mineral salts of iron for years, only to meet complaints of discolored teeth, disturbed digestion, tied-up hardened secretions, etc., when I came across Nuxated Iron, an elegant ingenious preparation containing organic iron, which has no destructive action on the teeth—no corrosive effect on the stomach, and which is readily assimilated into the blood and quickly enriches its presence felt in increased vigor, snap and staying power. It enriches the blood, brings roses to the cheeks of women and is an unfailing source of renewed vitality, endurance and power to men who burn up too rapidly their nervous energy in the strenuous strain of the great business competition of the day." "NOTE—Nuxated Iron which is prescribed and recommended above by physicians is not a patent medicine nor secret remedy, but one which is well known to druggists and whose iron constituents are widely prescribed by eminent physicians both in Europe and America. Unlike the iron products, which are easily assimilated, does not injure the teeth, make them black nor upset the stomach; on the contrary it is a most potent remedy in nearly all forms of indigestion, a well as for nervous, run-down conditions. Physicians have a great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any pharmacist or druggist who sells any man or woman under 40 who lacks iron and increase their strength 100 per cent. or over in four weeks time provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Croff, Keller, A. Gorgas, J. Nelson Clark and all good druggists.

MOTOR CLUB TO MARK ENTRANCES

Ornamental Metals Will Be Placed For Tourists to and From City

Members of the Motor Club of Harrisburg who enter the service of the United States during the war period, and are in good standing in the club at the time of their enlistment, will be exempt from dues in the club during their time of service. It has been decided to mark all the principal entrances and exits in the city with signs of a substantial and ornamental character for the information of tourists. The signs to have the name or names of the cities to which the road leads and an arrow pointing in the direction. This is the time, when motorists touring, or even going for a short spin, are either compelled to make detours or run carefully over roads covered with potholes. Many complain about the great amount of oil put on at one time, but it has been demonstrated by experience that this is the only economical method and the only way to have the oil last from one season to another. It only takes a few days for the oil to soak into the road surface and the comfort of traveling over the well-oiled road bed should be compensation enough to the motorist for the little inconvenience caused at the time of applying the oil. "Good Route to York The State Highway Department is at work on the road between Ross and Dover and within a few weeks this will be by far the best route to York, going via Dillsburg, Wellsville, Rossville and Dover. There are scenic views on this route that are not excelled in any part of the State. On account of the war and the serious complications that may arise it was thought by the officers of the club that the annual community picnic plans for a Club run would be abandoned, many members, however, insist that the annual sociability run be held. There has been a great deal of interest in the community picnic and during the afternoon hold some gymkana events to try the skill of drivers and amuse the crowd. Later on in the season the club may hold a road race, and during the winter months the members for and against a sociability run.

EARLY HISTORY COMES TO LIGHT

Documents Found in Carlisle Courthouse Reveal Interesting Facts

Carlisle, Pa., July 10.—Discovery of interesting documents almost on the eve of the one hundred and forty-third anniversary of what is believed to have been the first organized action for independence in this country, has caused much comment among historians. Thursday will be the anniversary of the meeting in the "Old Stone Meeting House," First Presbyterian Church, here of residents of this section, and the preparation of a document which historians declare was the first for independence in this country.

The documents just found while files at the courthouse were being rearranged throw out light on several important events of early history. Written in the peculiar chirography of a century and a half ago, both bear the name of the same man, a brother of William, who is styled as "Governor of the State of Pennsylvania and the counties of New Castle, Kent and Sussex on the Delaware." The first was dated June 27, 1774, and was written to Ephraim Blaine, then sheriff of the county, who was the grandfather of James G. Blaine, and ordered the execution of one James Andrews, charged with killing a William Barnette. This execution was carried out, according to the order, on July 16, 1774. The finding of this paper upsets the opinion that had been prevalent here relative to the first public execution in this county for murder. The other, dated on July 18, 1774, was also directed to Sheriff Blaine, and was a petition for clemency. The Legislature in extraordinary emergency session and asking that the delegates from this county be sent to the convention at Lancaster. The latter church is believed to have been the basis for calling this county's representatives.

The documents are yellowed with age, but are legible and will be placed in the Hamilton Library, together with other relics of an earlier day. result, as the complaint brought to the attention of the Public Service Commission last September resulted in an order being given the Turnpike company, with the consent of their attorneys, for the repair of the road which was so drastic that the Turnpike company was glad enough to have a contract made for the road which was accepted by the State Highway Department and the Counties of Dauphin, Lebanon and Berks, and that anything like their present share of the purchase price. This means the end of toll roads in Dauphin County.
