

WILSON CALLS BUSINESSMEN TO THE COLORS

ation Will Pay Only Just Prices For War Goods

Washington, July 12.—President Wilson has summoned American business to the colors. He appealed the country's business interests to set aside every selfish consideration and to give their aid to the nation as freely as those who go out to offer their lives on the battlefield.

In a statement addressed to the coal operators and manufacturers, he gave assurances that just prices will be paid by the government and the public during the war, but warned that no attempt to extort unusual profits will be tolerated.

"The President and I are not interested in one price for the government and for the public. The problem of wartime prices, he declared, will mean victory or defeat."

In unmeasured terms, Mr. Wilson condemned the ship owners of the country for maintaining a schedule of ocean freight rates which has placed "almost insuperable obstacles" in the path of the government.

"The fact is," he asserted, "that those who have fixed war freight rates have taken the most effective means in their power to defeat the armies engaged against Germany."

The President outlined his position as follows:

"My fellow countrymen: The government is about to attempt to determine the prices at which it will ask you henceforth to furnish various supplies which are necessary for the prosecution of the war and various materials which will be needed in the industries by which the war must be sustained. We shall, of course, try to determine them justly and to the best advantage of the nation as a whole; but justice is easier to speak of than to

Lemon Juice For Freckles

Girls! Make beauty lotion at home for a few cents. Try it!

Squeeze the juice of two lemons in a bottle containing three ounces of orchard white, shake well, and you have a quart of the best beauty and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and my drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

I Feel as Strong as a Horse Says Upjohn

P. R. Brakeman Tells How He Got His Health and Strength Back

INDIGESTION HIS TROUBLE

"I had indigestion so bad that it had put my whole system on the bum," says William Upjohn, of Reelton, Pa. P. R. Brakeman, "I couldn't seem to eat anything that would agree with me, for no matter what it was my food would not stay in my stomach and the gas would form faster than I could belch it up.

"Sometimes the pain was so bad I like to doubled me up and I would belch up a slimy sort of stuff that tasted bitter. I was nervous as a cat and seemed to be losing my strength and pep.

"I didn't know just what to take but I heard so many railroad men talking about Tanlac, said I'll try it," and sure enough it fixed me up in great shape. I began to get better right away; my stomach got stronger and now I can eat anything without suffering afterwards and I feel strong as a horse.

"Tanlac is sure a great stuff for stomach trouble."

Tanlac, the famous reconstructive tonic, is now being introduced here at Gorges' Drug Store where the Tanlac man is meeting the people and explaining the merits of this master medicine.

arrive at and there are some considerations which I hope we shall keep steadily in mind while this particular problem of justice is being worked out. I therefore, take the liberty of stating very candidly my own view of the situation and of the principles which should guide both the government and the mine owners and manufacturers of the country in this difficult matter.

A just price must, of course, be paid for everything the government buys. By a just price I mean a price which will sustain the industries concerned in a high state of efficiency, provide a living for those who conduct them, enable them to pay good wages, and make possible the expansions of their enterprises which will from time to time become necessary as the stupendous undertakings of this great war develop. We could not wisely or reasonably do less than pay such prices. They are necessary for the maintenance and development of the industry; and the maintenance and development of industry are necessary for the great task we have in hand.

Facts Are Our Masters "But I trust that we shall not surround the living with a mist of sentiment. Facts are our masters now. We ought not to put the acceptance of such prices on the ground of patriotism. It is our duty to do with profits in a case like this. Patriotism and profits ought never in the present circumstances to be mentioned together. It is perfectly proper to discuss profits as a matter of business, with a view to maintaining the integrity of capital and efficiency of labor in these critical months when the liberty of freedom everywhere and of industry itself trembles in the balance; but it would be absurd to discuss them as a motive for helping to serve and save our country.

"Patriotism leaves profits out of the question. In these days of our supreme trial, when we are sending hundreds of thousands of our young men across the seas to serve a great cause, no true man who stays behind to work for them and sustain them by his labor will ask himself what he is personally going to make out of that labor. No true patriot will permit himself to take toll of their heroism in money or seek to grow rich by the shedding of their blood. He will give as freely and with as untiring self-sacrifice as they. When they are giving their lives will he not give at least his money?"

"Just Price" "I hear it insisted that more than a just price, more than a price that will sustain our industries, must be paid; that it is necessary to pay very liberal and unusual profits in order to 'stimulate' production; that nothing but pecuniary rewards will do—rewards paid in money, not in the mere liberation of the world. I take it for granted that those who argue thus do not stop to think what that means. Do they mean that you must be paid, must be bribed, to make your contribution, a contribution that costs you neither a drop of blood nor a tear, when the world is in an awful and men everywhere depend upon and call to you to bring them out of bondage and make the world a fit place to live in again amidst peace and justice? Do they mean that you will exact a price, drive a bargain, with the men who are enduring the agony of this war on the battlefield, in the trenches, amidst the lurking dangers of the sea, or with the bereaved women and pitiful children, before you will come forward to do your duty and give some part of your life, in easy peaceful fashion for the things we are fighting for, the things we have pledged ourselves, our lives, our sacred honor to vindicate and defend—liberty and justice and fair dealing and the peace of nations?"

"Of course you will not. It is inconceivable. Your patriotism is of the same self-denying stuff as the patriotism of the men who died or were maimed on the fields of France, or else it is no patriotism at all. Let us never speak, then, of profits and of patriotism in the same sentence, but face facts and meet them. Let us do so under business, but not in the midst of mist. Many a grievous wrong has been done in the name of patriotism in this nation, in this generation and in the next, to pay for this war; let us see to it that for every dollar that is taken from the people's pockets it shall be possible to obtain a dollar's worth of the sound stuffs they need.

"Let us turn for a moment to the shipowners of the United States and the other ocean carriers whose example they have followed and ask them if they realize what obstacles, what almost insuperable obstacles they have been putting in the way of the successful prosecution of this war by the ocean freight rates they have been charging. The rates they have without sufficient thought continued into a period where they have no proper place. I am not questioning their motives. I am merely stating a fact and stating it in order that attention may be fixed upon it."

Soldiers Guarding Bridges Receive Their Pay For Month of June

Captain Robert F. Gordon, commanding Company F, Third Pennsylvania Infantry, National Guard, has received pay warrants from regimental headquarters at Allenton for the month of June. That the quartering of a military company in this town is no small item from a financial point of view is attested by the fact that the salaries run about \$2,500, about one-half of which is distributed to the soldiers at Newport, the balance to detachments at Duncannon, Port Royal and Marysville, and other stations.

A fair portion of this money is spent by the town by the soldiers. It is a well-known fact that a soldier is a good spender when he has any money. The check for last month's pay, forwarded to Captain Gordon, totaled \$2,430.67. This does not include the salaries of the commissioned officers who are paid by voucher or that of men on detached service for recruiting duty in Philadelphia, the men attending the officers' training camp at Fort Niagara or those who are married and have made an allotment to their families.

The amount of money which is expended for provisions at 40 cents per day when cooking facilities are available amounts to approximately \$200 every five days. The money expended when cooking facilities are not available amounts to approximately \$750 in which case meals are purchased.

The check for \$2,430.67 represented the first salary since the new pay rating went into effect June 1. Privates who had received \$15 per month now receive \$30; privates first class who received \$18 now receive \$33; corporals receiving \$21 now receive \$36; sergeants receiving \$30 now receive \$38, while the first sergeant, who received \$45 per month, now receives \$51.

Wash Dress Skirts Offering for Friday a quantity of white gabardine wash skirts. Made with plain or gathered waist bands, with or without belt—waist sizes 24 to 30 inches—assorted lengths. Friday Sale, 79c BOWMAN'S—Third Floor
