Anaemia—Lack of Iron—Is Greatest Curse To Health and Beauty of American Women

Says Dr. Ferdinand King, New York Physician and Medical Author Any Woman Who Tires Easily, is Nervous or Irritable, or Looks Pale, Haggard and Worn, Should Have Her Blood Examined for Iron Deficiency.

Administration of Nuxated Iron Will Increase the Strength and Endurance of Weak, Nervous, Careworn Women 100 Per Cent. in Two Weeks' Time in Many Instances.

THE CHILD'S APPEAL

Infants and alcoholic beverages I am convinced that in this way they could avoid disease, preventing it becoming organic in thousands of cases and thereby the lives of thousands might be saved who now die every year from pneumonia, grippe, kidney, liver heart trouble and other dangerous maladies. The real and true cause which started their disease was nothing more nor less than a weakened condition brought on by a lack of iron in the blood.

Mother, why don't you take NUXATED IRON and be strong and well and have nice rosy cheeks instead of being so nervous and irritable all the time and looking so haggard and old—The doctor gave some to Susie Smith's mother and she was worse off than you are and now she looks just fine

"There can be no healthy, beautiful, rosy cheeks without iron," says Dr. Ferdinand King, a New York Physician and Medical Author. "In my recent talks to physicians and iron deficiency in the blood of American women, I have strongly emphasized the fact that doctors should prescribe more organic iron—nuxated iron—for the nervous, rundown, weak, haggard-looking women patients. Pallor means anaemia. The skin of an anaemic woman is pale, the muscles lack tone, the brain fails, and often they become nervous, irritable, despondent and melancholy. When the iron goes out of the blood of women, the roses go from their cheeks."

On account of the peculiar nature of iron, the great drain placed upon her system at certain periods, she requires much more iron than man to help make the loss. Iron is absolutely necessary to enable your blood to change food into living tissue. Without iron, no matter how much, or what you eat, your food merely passes through you without doing you any good. You don't get the strength of it, and as a consequence you become weak, pale and sickly looking. Just like a plant trying to grow in a soil deficient in iron. If you are not strong or well, you owe it to yourself to make the following test: see how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see how nicely looking you are. I have seen dozens of nervous rundown people who were ailing all the while double their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles, in from ten to fourteen days' time simply by taking iron in the proper form.

"I have seen dozens of nervous rundown people who were ailing all the while double their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles, in from ten to fourteen days' time simply by taking iron in the proper form. And this, after they had in some cases been doctoring for months without obtaining any benefit. But don't take the old forms of reduced iron, iron acetate or tincture of iron simply save a few cents. The iron demanded by nature for the red coloring matter in the blood of her children is also not that kind of iron. You must give your children the iron which is absorbed and assimilated to do you any good, otherwise it may prove worse than useless."

I have used Nuxated Iron widely in my practice, and my own practice in the most serious cases of iron deficiency, and I have seen so many American women suffer from iron deficiency with its attendant ills—physic weakness, nervous irritability, melancholy, indigestion, flabby, sagging muscles, etc.—and in consequence of their weakness, run-down condition they are so liable to contract serious and even fatal diseases that I deem it my duty to advise all such to take Nuxated Iron. I have taken it myself and given it to my patients with the most surprising and satisfactory results. And those who wish to quickly and increase their strength, power and endurance will find it a most restorative and wonderfully effective remedy."

NOTE—Nuxated Iron which is prescribed and recommended above by physicians in such a great variety of cases, is not a patent medicine, but one which is well known to druggists and whose iron constituents are side-by-side with the most eminent physicians both in Europe and America. Unlike the older iron salts, it does not irritate the stomach, does not injure the system, does not make the blood black, nor upon the stomach, on the contrary, it is a most potent remedy in nearly all forms of indigestion as well as for nervous run-down conditions. The manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any charitable institution if they cannot take any man or woman under 60 who lacks cent. or over in four weeks' time, provided they have no serious organic trouble. They also offer to give you \$100.00 if it does not at least double your strength and endurance in ten days' time. It is dispensed in this city by Dr. Ferdinand King, 431 S. Cameron St., and all good druggists.

Dr. Ferdinand King, New York Physician and Medical Author, tells physicians that they should prescribe more organic iron—Nuxated Iron—for their patients—Says anaemia—iron deficiency—is the greatest curse to the health, strength, vitality and beauty of the modern American Woman.—Sounds warning against use of metallic iron which may injure the teeth, corrode the stomach and do far more harm than good; advises use of only nuxated iron.

"As I have said a hundred times over organic iron is the greatest of all strength builders. If people would only take Nuxated Iron when they feel weak or rundown, instead of dosing themselves with habit forming drugs, stimu-
