Regarding Our Delivery Dept. and the Merchandise Returns

The Council of National Defense

urges that changes be made (in the present emergency) economizing as to delivery costs (meaning the reduction as far as possible in the numbers of motors and men used.)

HELP US

When you can conveniently, in this attempt to meet conditions, by taking small packages with you.

The government also requests through the Commercial Economy Board the following recommendations:

Returnable Articles

Any article of merchandise, which for some good reason is to be returned to a store, must be returned within a reasonable time — five business days; and customers should not leave home empty handed, but carry the goods for exchange with them.

That patrons make sure of a satisfying selection before buying, thereby eliminating the added expense of double service in making exchanges.

Avoiding if possible the request for sending goods C. O. D.

It will work to the advantage of both the customer and store to shop early in the day; this will distribute the business more evenly, resulting in economy to everybody concerned.

It's a Patriotic Movement Demanded by Our Government
