

**TODAY**  
 It isn't the things that your grand-father did  
 In a hazy, long-dead day,  
 But the things you think and the things you do  
 That the world must have to-day.

No, it isn't a name nor a breath of fame,  
 Nor a pile of hoarded pelf  
 That the world must have to help it through,  
 But the things you do yourself.

So go in to win, with a happy grin,  
 Let Fame and Wealth go to,  
 For the world needs men whose hearts are right,  
 Needs men who think and do—  
 By Stanley Porter Haines in The American Boy.

**Resorts**

**WAR STOCKS AND SPECIALTIES LEAD**

**Sentiment Among Traders More Cheerful of Early Solution in Washington of Important Problems**

New York, July 26.—(Wall Street)—War stocks and specialties, including sugars, led the list to high-level trading in the opening. Sentiment among traders was more cheerful in execution of an early solution of important problems now pending at Washington. Equipments advanced from large fractions to 1 1/4 points for Baldwin Locomotive and Beet Sugar gained 1/2 point and 1/4 point respectively. Anaconda Copper recorded an equal gain. Declines of fractions to a point were confined to ship-pings, the motors, Lackawanna Steel, Sinclair Oil and St. Paul.

Selling of shippings and motors at declines of 1 to 2 points provoked more moderate recessions in some of the standard stocks before 11 o'clock, but the advance was resumed after a broader inquiry for steels, tobaccos and minor specialties. Low priced industrials also denoted the activity of the day. Stocks on which dividend action is to be taken later in the day, hardened slightly, but falls in general were neglected. The bond market was irregular, though mostly higher. Liberty 3-1/2's moved in the narrow range of 99.45 to 99.47.

**NEW YORK STOCKS**

**TO TRAIN ARMY SURGEONS IN NEW HEALING**

Dr. Alexis Carrel, the famous surgeon and scientist of the Rockefeller Institute, who will instruct the surgeons of the Medical Officers' Reserve Corps of the United States in the Carrel-Dakin method of treating wounds, which method is the great outstanding feature of the medical relief work of the European war. In the photograph Dr. Carrel is seen standing in one of the removable sections of a portable field hospital, one of the several such hospitals erected on the Rockefeller Institute lawns, New York City.

**ROWAN COUNTY'S MIRACLE**  
 A woman in Rowan county wrote me her first letter, after but two weeks' instruction and practice. I thought it remarkable; but so many have written since then, after but six or seven evenings in school, that her achievement now seems insignificant. They did not merely read, they devoured books. In three sessions, with active campaigning and lessons given at home to such as would not or could not come, eleven hundred illiterates were taught to read and write. The remaining few in the county, twenty-three in number, were catalogued. When the sick, the blind, the imbeciles and epileptics were deducted, only six who had the capacity for learning were left; four, who had stubbornly refused to learn, and two, who had moved in as the session closed. But even this pioneer record, once so proudly told, seems inconsequential now; for another mountain county has surpassed it by teaching fourteen hundred in two sessions, and in the lowlands one teacher, single-handed, redeemed in one session seventy-five!—Corra Wilson Stewart, in The Christian Herald.

**JANITOR DIES**  
 James Robinson, colored, 1622 Walnut street, a janitor at the County courthouse for a number of years, died last evening at his home. He is survived by his wife and three children. Funeral arrangements have not been completed.

 Inquire on Premises or at 1325 State Street.

**TELEGRAPH TO AID SUBSCRIBERS IMPROVE HOMES**

The demand for greater economical living in the present crisis of our country makes it obligatory that every housewife and true helpmate should be prepared to do her part in eliminating every unnecessary expense, whether in the matter of wearing apparel, the management of the home or in the kitchen.

The greatest results are obtained by those who are prepared—those who know how to practice economy in a scientific way, by doing their own sewing and mending, by knowing how to make their own wearing apparel and hats they eliminate the great expense of hiring a dressmaker or having a milliner do a work for them. It is knowing how to do a thing correctly and scientifically that produces the greatest possible and lasting results. Average knowledge in the far-reaching subjects of economy is not enough. The knowledge must be gained through preparation. It must be scientific.

This is the greatest economic moment in the life of every woman. It is her chance to serve the needs of her country and exercise every possible means to eliminate waste in the home.

The management of this paper has been fortunate in perfecting arrangements with The Lincoln Correspondence Schools, Inc., of New York City, by which all our subscribers have an opportunity of learning the scientific method of practicing economy. The money a woman can save by knowing how to make her own dresses and hats will greatly aid to the defense of home and country.

This is a serious time in our country's life. Every home and every family's individual members must avoid extravagance in living. This can be done without sacrifice of personal or home comforts if the housewife knows how to go about it scientifically. The National Housewives' League, that great economical body of 800,000 thrifty women, have adopted the slogan "Save to Win." These women know the value of saving and how to avoid every unnecessary expense both in a personal way and in the kitchens of their homes and in the proper and scientific management of their homes. Study and application of economical principles have made them one of the great and most helpful forces in the country, simply because they know the scientific way of doing things in the exercise of practical economy. It is every woman's duty to serve her country by applying the principles of economy in the home. The women of this country never had a better opportunity for patriotic action than now.

**Willing to Have Troops Train on His "Deestrick"**

Chicago, July 26.—"Captain" George Wellington Streeter, who has fought many battles with police and deputy sheriffs during the last twenty years to hold the "deestrick" of Lake Michigan, a portion of the lake front which he claims by right of discovery, welcomed the Second Regiment, Illinois artillery, when it went into camp to-day on the property.

When the "captain" saw a squad of artillerymen laying out the camp, he went to investigate.

"What are you fellows doing on my property?" he asked.

"Well, captain," said a sergeant, "we are just going to camp here for a while and get ourselves in shape to lick the Kaiser."

"Oh," said the captain, "that's all right. I thought maybe you soldiers had been sent to take possession of the deestrick, and if that was the case, I'd fight the whole lot of you."

**School Teacher Finds Time For Garden Work**

Miss Mary E. Rynard, 1433 Derry street, a teacher in the Vernon school building, can boast of having one of the finest gardens in that community. Miss Rynard started working on the plot while teaching school and was able to get it well under way by working in the evenings after school and on Saturday. Miss Rynard has a large variety of vegetables planted and has already reaped enough from the plot to store some away for the winter.

**Few Concerned Over Irish Convention**

Dublin, July 26.—Even fewer people assembled on College Green this morning to witness the arrival of the delegates to the Irish convention in session here. No individual caused any demonstration either by admiration or hostility. The complete absence of public excitement is treated by the Dublin press as on the whole a healthy sign. The unanimous selection of Sir Horace Plunkett to be chairman of the convention is welcomed by the newspapers of the various political sides.

**AMERICAN AVIATOR HURT**  
 Paris, July 26.—Bennet Moulter, an American aviator in the French service, has been injured, but not dangerously, on the Belgian front, by being pitched out of his machine on landing after a flight over the German lines. Moulter fought for and against General Villa in Mexico.

**TO ALL SUBSCRIBERS TO THIS PAPER**

Would you accept the advice of internationally known experts if they advised you how to do or accomplish certain things that would be of personal benefit to you, something that would immensely profit you in an educational, healthful and economical way, something that would be of every day usefulness to you?

The management of this paper has made special arrangements with The Lincoln Correspondence Schools, Inc., of New York City, a leading educational institution, by which every subscriber to this paper may receive a thorough practical education by correspondence, in any one of the following home-study courses:

**Physical and Beauty Culture — Millinery — Sewing and Plain Dressmaking — Cookery — Home Management — Etiquette**

These courses were prepared by experts who are known the world over because of their unquestionable ability as teachers and authors. You will have the opportunity of learning, what years of study and practical experience have taught them—you will have the opportunity of studying the most practicable lessons of their kind that have ever been prepared.

The first consideration in preparing these courses was practicability, and a system of thorough instruction for the busy woman, who has no time to devote to unnecessary things, and who only desires to apply herself to undertakings that will benefit her, such as economy in household expenses, the scientific management of the home, saving two-thirds of her own and children's dress expense by knowing how to sew, making her own hats at a great saving in cost, at the same time having more attractive and becoming headwear, learning how the proper care of the body develops a graceful figure
