

# CANNING RULES ARE EXCHANGED BY HOUSEWIVES

YOU with hundreds of other housewives have successful methods of canning, preserving and drying foods and fruits which have either been handed down to you from generations of your ancestors or which you have evolved. This feature of the HARRISBURG TELEGRAPH is designed to help you exchange your ideas with other housewives. Send your favorite receipts and methods to the editor and they will be placed before thousands of other housewives. In this way they can be placed before the public and do the maximum amount of good.

### PRESERVING - CANNING - DRYING

without previous experience, and with no other equipment than that to be found in almost every home, anyone, adult or child should be able to can food satisfactorily by the methods which follow.

They are a combination of the best methods found by the Government and the housewives of Central Pennsylvania. By the methods various vegetables, soups, meats, fish and practically any other food or combination of foods can be canned, as well as fruits and tomatoes, the products most commonly canned.

The simple, general rules necessary for successful canning, by the one period, cold pack methods will be given. In all home canning it should be born in mind that when hermetically sealed containers are difficult to obtain, food products which cannot be preserved easily in other ways should be given preference. This would make inadvisable in most cases at times like the present, the canning of such products as hominy, dried beans, potatoes and similar foods.

Root and tuber vegetables, such as carrots, parsnips, salsify, beets, turnips and sweet potatoes—

Grade for size, color and degree of ripeness. Wash thoroughly, use vegetable brush. Soak or blanch in hot water sufficiently to loosen the skin. Dip quickly into cold water. Scrape or pare to remove skin. Pack whole vegetables, slices or cross-section pieces in hot glass jars or tin cans. Add boiling water until full. Add level teaspoonful salt to quart. Place rubbers and tops of jars in position; partially seal, not tight. Cap and tip tin cans completely. Sterilize for the particular type of outfit used: Water bath . . . . . 90 min.

Water seal . . . . . 80 min. Five pounds steam pressure . . . 60 min. Ten pounds steam pressure . . . 40 min. Remove jars from canner; tighten covers; invert to cool and test joints. Wrap and paper and store.

To Prevent Fading of Beets Small beets that run forty to the quart are the most suitable size for first-class packs. The older the beet the more chance there is for loss of color. When preparing the beet, leave on 1 inch of the stem and all of the tail while blanching. Blanch not more than 5 minutes and cold-dip. The skin should be scraped from the beet, not peeled. Beets should be packed whole, if possible. Well-canned beets will show a slight loss of color when removed from the

Water bath . . . . . 90 min. Five pounds steam pressure . . . 60 min. Ten pounds steam pressure . . . 40 min. Remove jars from canner; tighten covers; invert to cool and test joints. Wrap in paper to prevent bleaching and store.

canner, but will brighten up in a few days.

**Greens or Potatoes.**—A large number of cultivated and wild greens are edible, and if cared by this method will make a succulent and valuable food for the winter and spring months. Among the cultivated greens are Swiss chard, kale, Chinese cabbage leaves, upland cress, French endive, cabbage sprouts, turnip tops, young tender New Zealand spinach, beet tops, dandelion, young tender dandelion sprouts, native mustard, Russian mustard, collards and tender rape leaves. Among the wild greens are pepper cress, lamb's quarter, sour dock, smartweed, sprouts, purslane (or "pulsery"), pokeweed sprouts, dandelion, marsh marigold, wild mustard and milkweed (tender sprouts and young leaves).

Can greens the day they are picked. Wash clean, sort thoroughly, allowing no foreign weed leaves or other vegetable matter to remain. Pick the greens of all sand, dirt, dry and decayed or diseased leaves. Place the greens in a crate or cheesecloth and blanch in live steam either in an improvised homemade steamer or regular commercial steamer for 15 minutes. Remove the greens and plunge quickly into cold water. Place on the table and cut into convenient lengths. Pack tight in hot jars or tin cans. Add hot water to fill the container and season to taste. The product will be slightly improved if a few strips of boiled bacon or chipped beef are added. A little olive oil improves the flavor. If using glass jars, place rubbers and tops in position; partially seal. If using tin cans, cap and tip completely. Sterilize for the length of time given below for the particular type of outfit used: Water bath . . . . . 120 min. Water seal . . . . . 90 min. Five pounds steam pressure . . . 60 min. Ten pounds steam pressure . . . 40 min. Remove jars from canner; tighten covers; invert to cool and test joints. Wrap in paper to prevent bleaching and store.

### Lieutenant Souders Preparing For Muster Into Federal Service

Lieutenant Harry A. Souders this morning began getting his men in shape for the inspection and muster this evening. As soon as the men are mustered and outfitted it is expected they will be sent to Mt. Gretna for training.

Lieutenant Souders enlisted in Company A. of the signal corps in 1909, serving six years. Two weeks ago he started to organize an ammunition supply company and in a short time had secured the full quota. This morning he reported that he was exceptionally well satisfied with the personnel of the company as he has been able to enlist some of the most prominent young men of the city for that branch of the service.

He received his commission July 24 and immediately began preparations to be ready for service at a moment's call. Lieutenant Souders was born in Chambersburg and has been connected with the advancement of the HARRISBURG TELEGRAPH for several years.

### Elect Harrisburger Delegate to Session

William Strouse, of the New Store of William Strouse, was elected as delegate to the national convention of the Pennsylvania Retail Clothiers Association, which closed its annual session at Reading yesterday. The national meeting will be held in September 4. During the state convention Strouse made a report on the meeting of the War Economy Commission at Washington, urging merchants to aid in this work.

### RECRUIT LEAVES TRAINING CAMP WITHOUT PERMISSION

Not knowing that a soldier may have permission from the commanding officer before he could leave the training camp at Gettysburg, a young rookie, narrowly escaped being classed as a deserter when he landed in this city Tuesday. Upon his arrival here, he applied at the police station for transportation to Philadelphia. The police authorities sent him to the office of the Associated Aids Society, where the recruit told his story to John Yates, secretary. The object of his trip was to get married, so he said. Mr. Yates also learned that he had no permission to leave camp and told him of his wrongdoing. The soldier was sent to a nearby restaurant for dinner while Mr. Yates telephoned to the officer at the training camp. He received the consent from the commander that he would overlook the incident when the soldier returned to camp.

### FIRST THREE MOONLIGHTERS

The first three moonlighters did not spring out of a theory, it grew out of a human need. It was established through the success of the first three themselves. When it started it was assured patronage of three: the mother, whose daughter "had gone out West," the middle-aged man, who if he could read and write, and the boy, who would "forget his ballads and letters and go along to sea" and down. These spoke for the world of illiterate mothers and men and sons, and the world when they were ashamed and burden of illiteracy, and expressed a burning desire to read and write.

### Decide to Postpone Draft Jubilee Event Until Later in Year

At the meeting held last night in the Courthouse for the purpose of arranging for a draft jubilee celebration in honor of the city's drafted men it was decided to postpone the demonstration until September or the latter part of next month. Owing to the present heat wave and the near departure of the local guard units for Southern quarters, it was decided to hold the celebration later in the year.

### Governor General of Finland Resigns Post

Petrograd, July 26. — Michael Stakovich, governor general of Finland, has resigned.

### Motion Picture Censors Have Power of Recall

The State Board of Censors for moving pictures has authority "to recall an approval of a film unless rights have been acquired or have intervened, which a recall would disturb" according to an opinion given today to Frank P. Shattuck, chairman of the State Board, by Joseph E. Kun, deputy attorney general. The opinion says that while the act does not expressly authorize a recall "the intent is clear to constitute the board a bulwark of the people against sacrilegious, indecent and immoral motion pictures and say that if power is given to recall a disapproval there is certainly power to recall an approval. "It may err in the one instance as well as in the other and the harm which may ensue an approval may be infinitely greater than that which would result from an erroneous disapproval. In the first case the individual may be harmed, but in the latter instance it is the public that would suffer."

### U. S. Senate to Take Up Prohibition Tuesday

Washington, July 26. — Leaders representing the wet and dry factions in the Senate today agreed to consider Senator Sheppard's national prohibition constitutional amendment next week. It was planned to begin debate on the resolution Tuesday and vote on it Wednesday. Senator Sheppard has agreed to accept an amendment fixing a limit of six years in which the States must act upon the amendment. This limit was suggested by leaders opposed to prohibition.

### Applicants For New Officers Training Camps to Be Examined Here

Examinations of local candidates for the officers' training camp at Fort Niagara will begin to-morrow morning in room 201 of the Calder building. Major Giacow, of the United States regular army, will examine to-morrow and Saturday. Hundreds of local young men filed applications for the camp, but it is believed that not all of them were sent to the Philadelphia headquarters. Announcement has been made that the men who came back from Fort

### Disclosed to make an effort to secure any of the big contracts for the construction of aeroplanes.

The local works have special treaties on the subject which would have to be amended.

### Discuss Annexation at Council Meeting

The subject of annexing Riverside to Harrisburg was discussed last evening at the informal conference of the city commissioners but at the close of the controversy, the matter was no nearer a solution than it had been last fall. The owners of a private sewer in Riverside held to the demand for \$10,000 for the sewer, to be paid by the city, and this seems to be all that is preventing the little neighborhood from becoming a part of the capital city. Commissioners say they will take up the subject again at an early date.

### U. S. Marksmanship Chief Tells How to Shoot a Rifle

To begin with, one must familiarize himself with the nomenclature and care of the rifle. And the value of the various drills cannot be too strongly emphasized. By means of them the fundamental principles of shooting may be learned before a shot is fired. Bad shooting arises

### Pipe Bending Officials Deny Robbery of \$5,000

Reports that the office of the Harrisburg Pipe and Pipe Bending Works had been robbed of \$5,000 in cash and that special detectives were already at work on the case were denied today by W. T. Hildrup, Jr., secretary-treasurer and general manager of the plant. According to the rumor in circulation the office had been entered and the safe blown open.

### Conscription of Aliens Has Dangerous Point

Washington, D. C., July 26. — Agreements with allied governments for drafting their subjects in this country were discussed today by Senators Stone and McCumber with Acting Secretary Folk, of the State Department. It was pointed out that such conscription might necessitate reciprocal conscription among Americans living
