ALLIES WILL FIGHT FOR A FULL VICTORY

Representatives of Great Powers Fighting Against Kaiser's Legions Decide to Continue War Until the Power of Autocracy Has Been Completely Crushed; Agreement Is Unanimous

NATIONS ARE MORE CLOSELY UNITED NOW THAN AT ANY TIME SINCE WAR BEGAN

Primary Object Is to Make Impossible Recurrence of World War in the Future; Plan to Bar Central Empires From Ever Again Returning to Program of Criminal Aggression.

By Associated Press

Paris, July 27. — The allied powers yesterday concluded their conference after announcing a decision to continue the war until the object for which they are fighting is attained.

Their declaration which was made unanimously before separating, reads:

"The allied powers, more closely united than ever for the defense of the peoples' rights, particularly in the Balkan peninsula, are resolved not to lay down arms until they have attained the end which in their eyes dominates all others—to render impossible a return of the criminal aggression such as that whereof the central empires bear the responsibility."

There was unanimous agreement on all decisions reached during the meetings. The ministers of departments affected will meet in London to draw up the executive measures.

Austro-German Thrust Into Russian Lines Is Widened in Effect

London, July 27.—The Austro-German thrust into the disorganized Russian lines in eastern Galicia has widened in effect, extending southeastward toward the Bukovina border, and resulting in the capture of Kolumba, on the railroad to Czernowitz. Berlin mentions the Austro-German advance both north and south of the Dniester as "rapid" and this it appears to be, although there has been somewhat of a slackening in the pace of the Russian retrograde movement to the northward of the river.

Kerensky's Government Greatly Strengthened by Big Military Reverses

Washington, July 27.—The Russian military reverses have enormously strengthened the hands of the government in Petrograd, according to a dispatch from Ambassador Francis to-day to the State Department. They have shown the impossibility of control of the army by soldiers' committees, the ambassador reports and have led to a universal demand for stronger discipline. The ambassador reported that the military crisis at the front has caused the deepest alarm in Petrograd not only as to a severe military disaster but as to the achievements of the revolution itself. All parties are now asking the government to meet the situation.

Owing to the war conditions existing in this country to-day, nearly every bridge, viaduct and tunnel throughout the country is guarded by our soldiers, who have little or no chance to buy a daily paper or reading matter of any kind. If you will throw this paper off to one of them when you are through with it, or a magazine you may have read, we feel sure that it would be much appreciated.

NEW CONFIDENCE IN WAR'S COURSE FELT IN CAPITAL

No Reason For Pessimism as to Final Outcome, Says Secretary Baker

CHEERFUL FEELING NOW Conditions Are Getting Better Every Day Along the French Front

Washington, D. C., July 27.—Government officials today while attempting to minimize the seriousness of the military and naval situation, expressed the greatest confidence in the ability of their own and of the United States to overcome every obstacle, including the submarine campaign and the deadlock on the western front. They professed the liveliest confidence, also, in the ability of Russia to recover from her present distress and to return to her task of beating back the German army.

There was noticeable to-day a greater frankness on the part of high administration authorities in stating their views on the situation. It was unreservedly declared by one that the spring offensives of both the British and the French armies had

Ottawa, Ont., July 27.—An attack by three Austrian cruisers on a line of British drifters employed in guarding anti-submarine nets in the straits of Otranto on May 15 is described in a London dispatch to Reuters' Limited Ottawa Agency. The account of the engagement says: "The drifters in eight divisions of about six boats each were formed along a line running roughly east and west. Each carried a crew of ten men and one small gun. In one case the enemy appears to have acted with chivalry toward the little craft, signaling by means of blasts of the siren and by dipping the flags that the crews might abandon their vessels. This cruiser approached the within one hundred yards of the Gowanlea and ordered her crew to take to the boat."

Queries Concerning Draft Overwhelm War Office; Boards Are Told to Act

Washington, July 27.—Thousands of queries concerning the selective service law have been flooding the provost marshal general's office with questions regarding their qualification for exemption for service in the provost marshal general's office. As a result of the promulgation of rules under which no questions from individuals or from local exemption boards will be answered by his office. These rules follow: "One—Questions by individuals should be asked of the local board nearest them. The board is unable, after consideration of the regulations and rulings, to answer the question, it should forward the question to the governor for decision. Two—Questions from local boards should never be referred to the provost marshal general's office. In all cases should be forwarded to the governor of the state. Three—In no case will opinions or rulings be given on individual cases that have not yet been presented to the proper local board."

U. S. URGED TO EXECUTE FIRST SPIES CAUGHT

Nation Told It Must Guard Against Neutrals Employed by Germans

SCOTLAND YARD HELPS Famous Detective Bureau to Give America Benefits of Its Experiences

By Associated Press London, July 27.—The most effective method of combating the German espionage system in the United States is to be found in co-operation between the public generally and the police, according to opinions expressed to the Associated Press by high officials of Scotland Yard.

From the first days of the war English police and military agents who have had to do with the gathering in of German spies have received masses of information from citizens regarding suspicious persons, and through this co-operation have been enabled to apprehend many undesirable and dangerous persons who otherwise have been at large.

Scotland Yard has had considerable trouble with neutrals in the employment of the German government and the English police feel that this menace is one which the United States will have to guard against.

Close Co-Operation Since the entry of the United States into the war.

\$350,000 FOR CAPITOL PARK IS APPROVED BY GOVERNOR

State's Chief Executive Signs Measure For Start of Work as Passed by Legislature.

CAMP CURTIN IS CUT TO \$13,000

Enough to Begin; Understood That \$6,000,000 Has Been Lopped From Budget.

Governor Brumbaugh has approved the appropriation of \$350,000 voted by the Legislature for start of the Capitol Park extension improvements in its entirety and no time will be lost in inaugurating the extensive landscape plans prepared by Architects Arnold W. Brunner and Warren H. Manning and approved by the Board of Public Grounds and Buildings. The Governor has also approved enough of the appropriation for the Camp Curtin memorial to purchase a site for a park and to landscape the tract, leaving the matter of a monument or memorial to the future.

These are the two big projects contemplated by legislation in which the State's capital city was vitally interested. The Capitol Park work will be undertaken as soon as the buildings to be sold to-morrow are removed. Then the streets will be widened.
