

EXEMPTIONS TO HELP WORKERS

Factory Towns Probably Will Furnish Comparatively Few Men For Army

Washington, July 27.—Reports of the first selection boards to fill their quotas for the selective draft army are eagerly awaited by Washington officials because they will give the first definite information as to the probable percentage of rejections to be expected among the 10,000,000 registrants for physical reasons or for dependants.

All available statistics indicate a probable rejection of one in every four for physical disability. In particular localities this will vary greatly, but the average for the whole country is expected to be between 25 and 30 per cent. There is no available data as to dependants, however, or as to how many must be excused under industrial exemptions.

It appears probable that peculiar results will be brought out in some districts. If the reasoning of some officials is correct, the lowest rejection and exemption rates will be disclosed in well-to-do communities, such as the suburbs of large cities, where men of comfortable incomes make their homes. Sons of such men, it is suggested, have had better health and better education than the factory hands of nearby towns, and they should be in better physical condition.

As a class such men could hardly be regarded as indispensable, officials say, in their civil, business or industrial capacity, and dependants probably will not have affected their physical condition. Virtually every married man of those registered in these places is the sole support of his wife and children, and such men cannot be taken. Also, if the industry in which they are engaged is vital to the carrying on of the war, industrial exemptions will run high.

Only reports from sections and district boards in typical communities, however, can show exactly what is to be expected. Roughly, the War Department has estimated that two men must be called for every soldier accepted, but they realize that the returns may tell a far different story.

New War Budget May Reach Ten Billions

Washington, July 27.—The new war budget to carry the government through to next July and to cover additional credits to the Allies promises now to far exceed eight billion dollars and may amount to ten billion.

War Department estimates sent to Congress call now for appropriations of \$5,278,836,000 for that branch of the military establishment alone. Estimates totalling another \$1,000,000,000 or more are expected to-morrow when the other departments report their needs and in addition Secretary McAdoo has indicated that before the year is out Congress will be asked for a \$2,000,000,000 appropriation increase available for loans abroad.

As soon as the departmental reports are in the appropriation committees of Congress will go to work on an immediate budget which probably will total in the neighborhood of \$7,000,000,000. Meantime the Senate finance committee, which has the war tax bill in charge, will meet to-morrow to consider what part of the new expenditures is to be provided by taxation and on what commodities the new levies should be placed. The committee hopes to have a revised bill ready early next week.

Congressional leaders do not expect to have the additional credits to the Allies, as Treasury officials have indicated that no appropriation for that purpose will be requested until the next session.

Nude Woman Runs From Home After Being Stabbed

New York, July 27.—A nude woman, bleeding from deep knife wounds, ran out of a roominghouse at 322 West One Hundred and Forty-fifth street, at 1 o'clock this morning and collapsed on the sidewalk.

"I'm killed—my husband did it," she cried to a policeman. She was taken to the Knickerbocker Hospital, where she is said to be recovering. She was identified by Sadie Friedlander, proprietor of the roominghouse, as Lena Ciadamidaro. Mrs. Friedlander said:

"She rented a room here Sunday night, saying she was a milliner. She later told me she and her husband were planning a divorce."

A butcher knife was left in the bed. The police are seeking Carlo Ciadamidaro.

MINISTER TO BE INTERNED

Omaha, Neb., July 27.—The Rev. George William Kranleidis, a German Lutheran pastor, was arrested to-day at Riverdale, Neb., as an alien enemy and will be interned.

Kranleidis is charged with having made threats against members of his congregation who hoisted an American flag over the church and with having firearms in his possession.

TRUCK COMPANY IS VACCINATED

Harrisburg Men Arrested For Driving Into Lebanon

Mount Gretna, Pa., July 27.—The newest of the new auxiliary units of the Pennsylvania National Guard, the military police, are scheduled to reach here to-day. The first to arrive will be the Pittsburgh company, under command of Captain J. Clyde Miller, former quartermaster of the Second Brigade.

The company has already been accepted by the War Department and will be brought here for training and equipment. It will be followed next week by the Philadelphia company. The organizations are composed principally of policemen and state policemen and they will take the place of the provost guard. The police will be under command of a colonel, who will take over the command of the camp. The force will consist of 300 men and will be attached to the Pennsylvania militia division.

Vaccination for smallpox was continued to-day by the surgeons in the motor supply trains, beginning with the Harrisburg company. This put a stop to the mountain hikes which the Philadelphia companies, commanded by Lieutenants William J. Crawford and I. Newton Smith, have been taking as a hardening process.

Major Edward Schell was designated to-day by Colonel Harry C. Trexler, commander of the division quartermaster's corps, as acting quartermaster for the Mount Gretna mobilization camp. He has the following assistants: First Class Sergeant Paul K. Collins, Pittsburgh; Sergeant John K. Spangler and First Class Private Robert S. Meek, Wilson; O. Black and Paul Kreitzer, Harrisburg.

E. T. Snyder and John Barliston, both of Harrisburg, who were employed as truck drivers on the State Highway Department's road construction work in camp, were arrested by state police on a charge of operating a motor vehicle while intoxicated and without the owner's consent. They are in the Lebanon county jail.

Unable to secure liquor on the military reservation, the men are alleged to have taken the truck and with thirty other road workers to have gone to Colebrook.

High Prices of Jam to Change Army Menu

Washington, July 27.—High prices of bitternut jam are giving some concern to officials in charge of buying supplies for the army. An official announcement to-day said consideration is being given a change of the army jam ration "from blackberry straight to jams of alternating kinds, including peach, strawberry and plum."

An American army of 1,800,000 men would eat 5,295,408 tins of jam in a year.

THE FIRST LINE OF DEFENSE

Pure blood is the body's first line of defense against disease.

Healthy blood contains small amounts of antitoxins that neutralize the poisons of invading germs or destroy the germs themselves. That is why so many people exposed to disease do not contract it. Those whose blood is weak and therefore lacking in defensive power are most liable to infection. Everybody may observe that healthy, red-blooded people are less liable to attacks of cold and the grip than are pale, bloodless people.

To build up the blood there is one remedy that has been a household word for a generation, Dr. Williams' Pink Pills for Pale People. They tone up the entire system, make the blood rich and red, strengthen the nerves, increase the appetite, put color in the cheeks and lips and drive away that unnatural tired feeling. Plenty of sunlight, good wholesome food and fresh air will do the rest.

Two books, "Building Up the Blood" and "What to Eat and How to Eat" give just the information that every mother of a growing girl needs. They are free. Write for them today to the Dr. Williams' Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills.
