Shopping Early Is Another Method of Doing Your Bit

The new mark of a patriot will be a man, woman or child who emerges from a store carrying as many bundles as possible.

C. O. D. Banned In compliance with Commercial Economy Board of the Council of National Defense, the retail merchants of the Harrisburg Chamber of Commerce have adopted a resolution urging their patrons to help conserve men and vehicles during the present period of emergency.

In addition to requesting patrons to carry bundles both to and from the store they also ask that merchandise be selected with as much care as possible and thus eliminate all return articles.

Shop Early To shop as early in the day as possible will be the sign of patriotism. Stores are forced to carry enough salespeople to handle the work of the rush hour.

It is considered that for the great mass of the people the best method to eliminate unnecessary labor during this time is of itself a mark of patriotism.

Austrian Fleet Commander Doubts Victory by U-Boats

Amsterdam, July 30.—Admiral Maximilian Njegovan, commander of the Austrian fleet, in an interview given to the Neue Freie Presse, declared he did not believe that submarines would bring about a decision in the war. He said: "At present the U-boats are much spoken of as making England Austria's principal enemy, uncomfortable, but they merely are a means towards victory. It would be a mistake to believe from the experiences of this war that big ships are useless towards victory. The essential type is that of light cruisers. "If we had a great fleet of the war with Italy would have been finished long ago. Indeed, the war would never have been possible."

Street Paving Decision Said to Apply to All Cities in the State

York, July 30.—Counsel for York property owners contesting the payment of liens for street paving in York were notified to-day of the refusal of the State Supreme Court to allow an appeal from a decision of the Superior Court, upholding the city's right to assess. This action, which is final and becomes the settled law of Pennsylvania, finished a test affecting all similar cases which may arise in the State.

The most important of three points on which the property owners based their action was that previous macadamizing of a highway constituted a permanent improvement, and that subsequent paving could not be done by assessing abutting owners. The Court's ruling was that macadamizing, without specific evidence to show that it was done with a definite view to permanency, could not be held to be permanent in the sense of removing the obligation.
