

### 700 COMFORT KITS DISTRIBUTED

#### Red Cross Sees That Local Guardsmen Are Given Necessities

The Harrisburg chapter of the American Red Cross Society has distributed almost seven hundred comfort kits to members of the local Guard companies. The kits have been distributed as follows: Company I, 153; Company D, 147; machine gun company, 75; ammunition truck company, 43; supply company, 39 ambulance company of Harrisburg men, 41; Geonora's Troop, 109; Rotary Club unit, 14; motor truck company at Mt. Gaston, 10.

Requests have been made to the society by the soldiers for Victrola records for use on their machines. Miss Mary Harsh will give instructions in knitting and casting to the members every Tuesday from 10 to 5 o'clock. The instructions will be free. Since the war activities have occupied the attention of the local branch thousands of pieces of work have been turned out. Surgical dressings, receipt garments, miscellaneous articles, knit pieces, are included in the list, which totals almost forty-five thousand. Thirty-four boxes have been shipped to France while twenty-eight were sent to Philadelphia.

The expenditures of the local branch since April have been more than \$19,000, while the receipts for the same period are more than \$27,000. The membership has increased from 175 to over twelve thousand in the drive waged this spring.

The State Forestry Commission to-day received offers to sell over 23,000 acres of forest land in Clinton county and will have titles examined and surveys made. The board considered purchases of over 10,000 acres in Lycoming, Bedford, Clinton and Tioga counties.

Service of the papers in the mandamus proceedings of the four State officials which has been delayed for two days was made to-day. State Treasurer Kephart received the papers for himself and C. P. Rogers for Auditor General Snyder, who is out of the city.

### "State Oil" Gets Some Men Into Trouble

Fake tree inspectors and sprayers who have recently been working in the eastern part of the State are being hunted down by the Pennsylvania Department of Agriculture and one arrest and conviction in Philadelphia has been made.

Some of the men are claiming that they are representatives of the Department of Agriculture and are using what they name as "State Oil" for tree treatment. They usually follow by charging big prices for the work.

Secretary of Agriculture Charles E. Patton wants to warn all persons against such imposters and has ordered Economic Zoologist J. G. Sanders to prosecute all cases where such false pretense has been practiced. In Allentown, Easton and Reading another band of tree doctors have been injecting land into trees and many are using inferior spraying dope. Zoologist Sanders desires to have reports sent him at Harrisburg of persons representing themselves as State agents or persons offering to doctor trees, of whose practice there is any doubt.

### Another Physician Is Off For War Training

On orders from the Government, Dr. Edgar S. Everhart, a physician of Lemoyne and a first lieutenant in the medical reserve corps, left this morning for Fort Oglethorpe, Ga., to go into training.

He has been connected with the Harrisburg Hospital and several of the local Guard companies, and is widely known throughout this section of the State.

### Life Saving Station Will Be Opened Here

Announcement has been made that a regulation lifesaving station—the first of its kind in the city—will be established in the near future on the large houseboat of George Reist, at the foot of South street. Several lifebuoys and a lifeboat will be secured and a regulation lifesaving station flag will be floated at the place. Allen Sangree will be in charge of the place.

### PROBING FATAL CRASH

Coroner Jacob Eckinger is holding an inquest this afternoon to fix the cause of the accident several weeks ago at Youngs Crossing, below Middletown, which resulted in the deaths of Mr. and Mrs. Carroll S. Gould, 2224 Second street, and their 14-year-old son, Kennard Wilson Gould. Only a 6-year-old daughter survived the accident and she is still confined at the Harrisburg Hospital.

### DIES FROM COMPLICATIONS

Caroline Gulden, aged 70, of Benderville, died Tuesday from complications. The body may be viewed this evening at the parlors of Hoover and Son, undertakers. The body will be taken to Benderville to-morrow where burial will be made.

### ATHENS UNDER SIEGE

By Associated Press  
London, Aug. 2. — A state of siege has been declared in the whole Greek department of Attica, including Athens and Piraeus, according to a dispatch from Athens to the Exchange Telegraph Company.

### Newlywed Slackers Cannot Escape Army

Washington, Aug. 2. — Provost Marshal General Crowder sent a telegram last night to Governors of all States which is relied upon to check in some measure the present rush to secure exemptions on the ground of recent marriages. It reads as follows:

"The selective service law does not require discharges in all cases of technical legal dependency, but only permits discharges where, in view of dependency, a discharge is advisable. Local boards may well hold that a marriage hastily consummated recently, and especially one consummated by a person after he has been called to present himself for examination to determine his fitness for military service, does not create a status of dependency in which it is advisable to grant a discharge."

"It is to be expected that local boards will exercise this full discretion in cases where they are convinced that unscrupulous persons have thus violated the principles of the selective service law in the hope of escaping a duty that is rightly theirs and of passing that duty to some one else."

### "Always Reliable"

# Mark-Down Sale of All Spring and Summer Stocks

From a purely financial standpoint, it would be impossible for us to sell these goods at a penny less than our regular prices. But having kept our stock up to the high-water mark until now, leaves every advantage for our customers by giving them the best kind of merchandise obtainable to choose from at honest reductions.

So trying to forget that the market price of our merchandise is from one-third to one-half more to-day than when we bought it and still advancing by leaps and bounds with a scant regard for cost or the actual loss involved, we now cut our regular low prices so deep that an absolutely complete clearance must result in the brief time left for this purpose.

For while our Half-yearly Sale is not first in point of time it is easily first in importance, affording styles, varieties, qualities and actual money-savings, such as no other store cares to offer except perhaps (on paper) — Remember that this is our own complete, new and high-grade stock with all reductions from our former low prices, and just the same care and attention given you as though you were paying us a profit on your purchase.
