

Farewell Reception For E. F. Entwisle, Who Has Been Made Plant Head

E. F. Entwisle, former mechanical engineer at the local steel plant, who has been made general superintendent of the Donaghmore plant of the Bethlehem Steel Company, at Lebanon, was given a farewell reception last night.

Guests included F. E. Howells, P. A. Cuenot, H. R. Rupp, J. J. Donegan, F. D. Dornblasher, Edward Rutherford, W. Reynolds, Arthur Halpapp, Charles Ashby, Thomas Crowley, E. B. Fehrer, R. G. Warren, A. W. Marks, G. W. Daniels, J. W. Morrett, W. H. Stubb, J. J. Cunningham, E. C. Henderson, R. C. Westbrook, H. Mack, Charles Fetterhoff, H. W. Hadley, H. L. Keim, H. Fries, Paul Handley, C. Hoffman, Frank Small, Charles Baker, W. L. Gayer, G. R. Delamater, B. W. Winship, Alfonso Drayer, E. H. K. Halpapp, H. Cover, R. L. Gordon, J. P. Cavanaugh, B. M. Book, James Canning, G. W. Creighton, L. L. Leach, F. A. Mills, W. J. Reagan, P. B. Daylor, George R. Cover, John Reider, Jacob Capella, F. W. Carroll, J. W. Evans, T. Antonich.

Mrs. Orlady Resigns Mrs. J. O. Orlady, first vice-president of the Pennsylvania Woman Suffrage Association, has announced the resignation of Mrs. George B. Orlady, of Huntingdon, President of the organization. The Equal Franchise Association, allied with the Suffrage Association, will issue a publication known as "Publicity," which will be distributed on behalf of equal suffrage.

To Launch \$3,000,000,000 Liberty Loan November 15

Washington, Aug. 3.—The second Liberty Loan—for \$3,000,000,000—will be launched November 15, Treasury officials said today.

Before that time it is planned to issue nearly \$1,000,000,000 in Treasury short-time certificates to meet immediate needs.

On the eve of the announcement of the second Liberty Loan, Treasury officials are at a loss for a name to distinguish it from the first. To sell the second issue of bonds a campaign is being planned which will overshadow the organization and publicity which made the first bond issue so great a success. Much of the first organization will be used, conferences with district Liberty Loan committees and prominent bankers from all parts of the country already having been held.

U. S. MAY COME OUT OF THE WAR MASTER OF SEAS

Nation to Take Over Control of All Shipping at Once

Washington, Aug. 3.—The United States will control the shipping of the world during the war; after the conflict she may emerge as master of the seas with the greatest mercantile marine afloat.

This became apparent to-day when President Wilson issued an order placing an embargo on the export of steel and iron products. Every ounce of steel that might enter into the building of ships will be kept in this country after August 15th. This effectively will prevent any foreign country obtaining supplies from this country for the upbuilding of a merchant marine to dominate the seas at the close of the war.

Japan May Suffer Japan may suffer a heavy blow, unless Japan lends ships for war purposes. Immense quantities of steel have been exported to the orient in recent months for use in shipbuilding. Progressive Japanese statesmen have boasted that after the war Japan would be mistress of the Pacific and also have a large share of the trade in the Atlantic.

Steel plates and structural shapes must not be exported, according to to-day's ruling. Munitions and rails are not affected. The presidential ruling, ambiguous at first, was quickly construed by officials in Washington in its true meaning. The order, which included instructions to the secretary of commerce for the guidance of the division of export licenses in future shipments of steel and iron products and explosives, superseded all previous regulations.

To Share Control The shipping board probably will announce a commandeering program within a few days. It will call for requisitioning of ships under authority recently given to the President by Congress and probably will include arrangements for turning the vessels back to their owners for actual operation. The government, it is said, has no desire to operate the vessels itself, but through control of charters can direct trade routes and at the same time can lower ocean freight rates.

The British and American governments have about reached an agreement for a joint control of all the world's tonnage, and the shipping board's move toward commandeering is a preliminary step in that arrangement. Under the plan, the United States would operate most of the neutral tonnage and Great Britain would have under its control allied ships. The arrangement would be used also to bring down freight rates.

DOG CATCHER APPOINTED Edwin Kline, 1528 North Fourth street, was selected by Chief Wetzel to be the official dog catcher of the city. He will be assisted by a friend. The men say they have worked out a system that is practically infallible when it comes to catching canines.

TWO ARRESTED The inmates of 510 Strawberry street, after having kept off police records for almost a week, were again given police attention last night. Frank Robinson and Mary Johnson, two of them are in jail. Henry Oliver who made the complaint against them is also in jail. He admitted he was a married man.

AMUSEMENTS COLONIAL—"Peggy, the Will o' the Wisp." REGENT—"Sacrifice." PAXTANG PARK—Vaudeville.

THE WILL O' THE WISP A story of the Ireland of to-day. "Peggy, the Will o' the Wisp," with Mabel Taliaferro in the leading role, is the Metro attraction at the Colonial. The story relates the dramatic story of an illegitimate American star, to be the silent drama. Her debut was as the big screen dancer in the "Peggy, the Will o' the Wisp," by Eugene Walter. This is a superb production in every way, and is probably the biggest screen event in the city. There are seven acts, and included with this big program will be a MacKenzie-Keystone comedy, featuring "Gra-Carew in 'Skidding Hearts.'"

In these strenuous times the subject of war and international spying are uppermost in the minds of the people. Margaret Hillington, the celebrated stage star, Margaret Hillington, makes her motion picture debut, concerning this all-absorbing topic, in the Paramount attraction at the Regent to-day. The story relates the dramatic story of a girl, one of whom is the daughter of a diplomat and the other a cabaret dancer in the neighborhood—and hostile—country. The girl becomes involved in the international spying system, and is called upon to make the supreme sacrifice for her country. "The Silent Partner," a thrilling drama of business life, to-morrow.

How would you like to hear your favorite piece of music played on the piano in your home? The artist on that particular instrument in the world's most famous recording studio meets with your approval, just write Frozin a note addressed to the Paxtang Park Theater. Your selection and when you will be in the studio to hear, and Mr. Frozin will be glad to play it for you. Frozin has had several requests for special numbers during his engagement at the park, and has complied with all of them, much to the delight of his audience.

The balance of the park show for this week is made up of such excellent acts as the "The Flying Summers, aerial artists."

HONOR GIRL SPECIAL CLERK Sunbury, Pa., Aug. 3.—Miss Dorothy Bonavitz, of Sunbury, who took second honors out of a class of seven hundred and six in the Sunbury High school this year, has been appointed a special clerk in the office of Treasurer Glass. She will assist in the work of copying the mercantile and hunters' licenses lists and will be employed for several months.

120 ASK NATURALIZATION Sunbury Pa., Aug. 3.—One hundred and twenty persons of foreign birth have applied to the office of Edgar Summers clerk of the North-

umberland county courts for naturalization. Court for hearing them as to their fitness will be held on September 13, when both Judges Cummings and Judge Moser will sit.

Painful Foot Tortures—How Soldiers On Active Service In The French Trenches

Banish and Prevent Corns, Callouses, Blisters, Abrasions, etc. A novel way to quickly soothe and comfort sore, tired, tender, aching feet that burn, smart, itch, chafe, swell and perspire.

Told by Corporal Jim Sullivan in an interesting interview accorded an American writer recently returned from Europe.

Officers of the British Royal Army Medical Corps also explain why the same method is so successful at the Front.

"Foot troubles? There's no excuse for them. We don't put up with any around here," says Corporal Jim Sullivan, former Middleweight Champion and now instructor in Physical Training to the London Scottish, one of the crack British Regiments.

TRAINER SULLIVAN INSTRUCTING HIS MEN IN BAYONET DRILL. Photo taken on Salisbury Plain, the great English military training camp where many of our American Regiments will doubtless prepare for service in France.

that caused intolerable itching. The medicated water not only fixed my rheumatic water not only fixed my hand in a gallon or so of warm water. I followed his advice and have occasionally bathed my feet in the salted water. I have never known what it is to experience foot troubles of any kind whatsoever. The salted water in my charge get their feet into salted water. The minute there is any complaint of foot fatigue, corns, blisters, chafing, etc., etc. We use salicates compound by the hundreds, weight around the camp here, and every time a draft leaves, we reaches many of the boys insist upon packing a few ounces of the salicates powder away with them. At this point, Sgt. C. S. Turner and Corp. T. S. Wilburn, both of the British Royal Army Medical Corps, and just then back in England on leave of absence, joined us. When asked to tell about their experiences with foot troubles at the Front, Sgt. Turner replied: "In my opinion salted water offers the quickest, safest and most convenient way to get rid of them. Every one with troublesome feet should know about it. I discovered the effects years ago when the salicates compound was not so widely used in the army as it is now. One day I was advised to rest my feet in salted water to obtain permanent results in relieving rheumatic aches, pains, blisters, etc., also to soothe the irritating skin affection.

simply indications of injured tissues, to which the feet are peculiarly susceptible. Being the farthest points from the heart to which the blood must be forced, the feet are subject to many aches, pains, corn growths, etc., resulting directly from a defective circulation in the extremities, or a strain in supporting weight of the body and constant shoe pressure on sensitive, irritated nerves and delicate tissue. By treating the feet with hot salted water, which any one can make with Rodell bath salicates, we immediately stimulate the blood circulation, dissolve out decomposing sebacous matter from clogged pores and render the skin active, healthy and free from offensive odor or injurious effects of acid perspiration. The remarkably effective salicated baths referred to in the above authoritative article are prepared by dissolving ordinary Rodell bath salicates in plain hot water. This water can supply a half pound or so of the standard Rodell bath salicates compound at slight cost, and about a heaping tablespoonful is the quantity usually employed to prepare a very strong foot bath. The following among other local druggists, wish to announce that they always keep the refined Rodell bath salicates compound in stock, ready put up in convenient half-pound packets—Keller Drug Store, G. A. Gorgans and J. Nelson Clark.
