

TRANSFER OF FUNDS VISED BY COUNCIL

Money Will Be Used by Park Department; Accept Tax Report

Council to-day approved the transfer of funds created for the payment of the salary of a city forester, landscape designing and completion of the city's tree survey upon the request of Commissioner Gross. The total amount was \$1,350.

The park superintendent offered no explanation of his action, asking in the resolution that \$500 of the money be added to the fund for the maintenance of Wildwood Park and \$350 to the general contingent fund for the department. Early in the year Commissioner Gross announced that he intended to have Council adopt the share tree law and apply it locally.

With the transfer of the tree survey fund to the general contingent fund, will not be completed until next year.

Accept Tax Report

The committee reported the report of Owen M. Copelin giving the final tax duplicate returns for 1914 and 1915. The report had been approved by City Controller Fry. Mr. Copelin was released at the same time from a \$75,000 bond furnished through the Pennsylvania Surety Company.

President Takes Hand in Price Reduction

Washington, Aug. 7.—President Wilson took a hand to-day in the government's play for regulation of prices and conferred with officials who have the work in charge. First he went to the federal trade commission and then to the Department of Justice.

“Everything I Eat Turns to Gas— Stomach On Fire With Indigestion!” Simple Anti-Acid Taken With Meals Prevents Gas, Bloating, Belching, Heartburn, Sour Stomach and Acid Indigestion. Eat Freely Without Fear. No More Diet.

People who have “stomach trouble” and who suffer after nearly every meal from sour, acid, gassy stomach, bloating, heartburn and indigestion should just try taking a couple of 5-grain bisurated magnesia tablets after their meals for a while and note results.

Medical men made a most important discovery in the treatment of stomach troubles when they found that practically every case of indigestion and dyspepsia was caused by the presence in the stomach of “too much acid.” By using ordinary bisurated magnesia to neutralize the excess acid in the stomach the food digested naturally without causing trouble and digestive aids, like pepsin, etc., were no longer necessary.

WAR TAXING RESOURCES OF AIDS SOCIETY

Slackening of Moral Fiber Makes Much More Work For Organization

That the present war has greatly taxed the work and resources of the Associated Aids Society was plainly shown in an interview with John Yates, general secretary of the society, this morning.

“There is a slackening of moral fiber in wartime, which makes increased work for the society. The funds have about been expended for charity purposes and the society did not take advantage of the Red Cross campaign to solicit donations. It is decided that such a move would be unparliamentary and deemed it advisable to take care of needs of the Red Cross before the home work of the Harrisburg charity has suffered much on account of the war.

With the transfer of the tree survey fund to the general contingent fund, will not be completed until next year.

Divorced Woman Has Not Position of Wife in Draft

Chicago, Aug. 7.—A divorced woman drawing alimony has not the status as a dependent of her wife and will not be exempted from the draft exemptions was received here today in reply to a question raised by a divorced woman who wanted her former husband exempted because she was dependent upon the alimony which he paid her.

Germans Urge Mexico to War on America

El Paso, Tex., Aug. 7.—Government officials here learned yesterday that Maurice Goldner, German Consul in Chihuahua City, accompanied by a number of German officers, commander of the northeastern military zone, to Juarez, a number of German agents in Chihuahua City also came on Mexico's special train, according to the Government agents.

ARM BROKEN IN FALL

Bert Boloy, of West Fairview, employed as a brakeman on the Philadelphia Division of the Pennsylvania Railroad, suffered a fracture of the left arm when he was thrown from a train last evening at Dillerville.

WILL PROBATED

The will of Ammon D. Gingrich, late of this city, was probated to-day and letters issued by Register Danner to the widow, Anna G. Gingrich.

HELPED BOTH HIS WIFE AND HIS SON

Some seem to have served both sides honestly and earned the approval of both and some do not seem to have known which side they sympathized with. A notable case is “Trukhanoff”—real name Nikitin, nickname “Perky”—who aroused the suspicion of his terrorist associates, was betrayed by them with execution, and, to rehabilitate himself, was obliged to kill the gangster officer with whom he collaborated. The German, whose Duke Sergius in Moscow in February, 1905, was due to the same motive.

Boyhood Home of Eugene Field, Poet, Destroyed

Newfane, Vt., Aug. 7.—The boyhood home of Eugene Field, the poet, in this town, was burned yesterday. The house was burned by Field's grandfather, General Martin Field, and was one of the landmarks of this locality. The villagers had difficulty in saving the town hall and a church which were threatened by the flames.

NOVA SCOTIA STEEL ADVANCES WHILE BETHLEHEM FALLS OFF ON RUMORS OF NEW FINANCING; OTHER CHANGES LIMITED TO FRACTIONS.

New York, Aug. 7. (Wall Street).—A three-point advance in Nova Scotia Steel and Iron shares, based on rumors of new financing, indicated the irregular trend of prices at the opening of to-day's market. Otherwise the market was quiet, with only a few fractional changes.

NICHOLAS KEPT 80,000 SECRET SERVICE SPIES

number of these secret legationaries of autocracy is expected to reach 80,000. The Russian revolution has been in progress for more than a year and it is not yet settled whether they will be tried and punished or merely kept in jail for the rest of their lives. The commission's reports depict precisely the same system of espionage and state provocation to crime as was outlined in the “Turan” article by Hamid II. The distinction is that Abdul Hamid ruled by his spies and provocation system directly from the Yildiz Palace, whereas Nicholas entrusted his spy system to a secret party, the social revolutionaries with their “fighting committee,” the populist socialists and the Maximilists.

The German, whose Duke Sergius in Moscow in February, 1905, was due to the same motive.

Shot Too Well

The organization of crime, with the aim of discrediting nonrevolutionary political associations and frightening Nicholas into repression, went on to a great scale. For blood money of \$100,000 a mechanic was hired by the department to fire at General Djukowski, governor of Moscow, but he was instructed to be sure to miss. He fired and missed, but through carelessness killed a passerby.

Killing of Live Stock on Railroads Is Costly

J. H. Elliott, general manager of the Texas and Pacific, has issued a public plea for the enactment of laws to protect live stock from running at large. Mr. Elliott says his road killed enough live stock in the last fiscal year to provide sufficient meat to feed an army of 100,000 men ten days. The record shows 1,027 cattle, 552 hogs and sheep and 165 horses and mules killed, an absolute waste.

LABOR STILL SCARCE

Pennsylvania Railroad crews are still on the hunt for laborers. Agents have secured the services of men needed in the shops, roundhouses, on the tracks, and in various capacities. It is understood that an agreement has been reached by which the railroad company will give the men a bonus of \$100 at the Gettysburg and Mt. Gretna military camps, at the close of their present contracts.

CONCRETE MAKERS MAKE HEADWAY

Concrete makers are making headway in the construction of the new freight sheds in South Harrisburg. Heavy rains have interfered with the excavations and some of the sections are being worked hard, the men have been able to get the work advanced.

NEW TUBES IN OPERATION

The pneumatic tubes at the Pennsylvania Railroad Station were in operation to-day. Three tubes run from the main office of the dispatcher to stationmaster's office, baggage rooms and mailrooms on the first floor. Messengers will not be required to carry important orders. They will be placed in a carrier and sent to their destinations through the tubes.

Railroad Notes

Officials of the Cumberland Valley Railroad made a run over the new river bridge to look over the signal system. Daniel W. Barr, ticket examiner at the Pennsylvania Railroad Station, was off duty to-day. His colleagues are awaiting his return for congratulations.

His Plot Failed

Mexico City, Aug. 7.—When news of the resignation of Dr. Alfred P. Zimmerman, the German foreign secretary, was received last night it caused general feeling among prominent Mexicans that his downfall was due largely to the failure of his plan to have Herr Heinrich von Eckhardt, German minister to Mexico, attempt to embroil Mexico and the United States and use Mexico as a go-between in an effort to alienate Japan from the allies.

LOG ROLL ON CHILD

While playing on a pile of logs near his home, John Duncan, aged eight, of Middletown, was badly injured. It is reported that when a log fell on him, he was taken to Harrisburg Hospital for treatment.

FALLS FROM SWING

Clarence Morrow, aged 13, 1921 Briggs street, fell from a swing at the State asylum grounds yesterday. He was taken to the Harrisburg Hospital, where it was found he was suffering from contusions of the body.

Women Who Fade Early

How often we hear the expression, “How she has faded!” or “Hasn't she grown old!” Her friends see it. Her husband sees it. She realizes it herself with a pang. Often she knows the reason, some female development has fastened itself upon her and makes it almost impossible for her to drag around from day to day. Such women should remember there is one tried and true remedy for their condition, and that Lydia E. Pinkham's Vegetable Compound for more than forty years has been restoring women to health and happiness. Try it.—Adv.

To Manufacturers and Distributors who seek South American and Southern Business

Savannah is one of the largest ports of export on the Atlantic Coast, and the fastest growing important seaport in the United States, because of the advantages it offers as a manufacturing and distributing centre for the South and South America.

Situate on the Southeastern coast, with a magnificent harbor, and direct and ample rail connections to the South and Middle West, it is getting a large share of the rapidly increasing foreign and domestic business of the important territory it serves.

Labor is plentiful. Shipping facilities by rail and water are abundant. This Company offers very exceptional advantages for the establishment on its property, just outside of Savannah, of manufacturing, assembling and distributing plants.

The Port Wentworth Terminal comprises some three thousand acres with nearly two miles of frontage on tide water. It is on the line of the Savannah & Atlanta Railway, which serves not only as a connection with all other roads entering Savannah but which through advantageous traffic arrangements with the Georgia Railroad forms the short line to Atlanta and the Middle West.

Industries located on the Terminal already in operation or about to become active are: The Savannah Sugar Refinery (annual output 150,000 tons). Port Wentworth Lumber Co. (annual cut 36,000,000 ft.). Atlantic Paper and Pulp Co. (annual output 15,000 tons). Terry Shipbuilding Co. (controlled by Terry & Tench, now laying down 70,000 tons of shipping for the U. S. Government).

The properties of the Savannah Warehouse and Compress Company and of the Globe Mfg. and Barrel Co. are just below the Terminal. The Diamond Match Company plans to erect a plant near the Terminal property. Other large industrial undertakings are negotiating for sites. Homes for workmen and their families are constructed as required, on an attractive space reserved for the purpose and fully laid out by Chas. W. Leavitt, well known as an expert in the planning of industrial towns.

Engineers of this corporation will gladly confer with Executives as to the specific advantages a seaport warehouse or branch plant at Savannah might offer to the business under consideration.

Port Wentworth Terminal Corporation, Savannah, Ga. Information may also be obtained from the General Freight Agents of the Louisville & Nashville, the Nashville, Chattanooga & St. Louis, the Georgia Railroad and the Savannah & Atlanta Railway
